SFS PHARMA LOGISTICS PTE LTD GOES LIVE IN SIX COUNTRIES WITH SCMPROFIT, AURIONPRO'S INDUSTRY-LEADING SCM PLATFORM

As part of a global strategy to streamline their supply chain operations, SFS Pharma Logistics has successfully completed their first phase rollout of SCMProFit

June 17, 2014 – Singapore (Marketwire)

Aurionpro, a leading provider of software and consulting solutions, today announced that SFS Pharma Logistics Pte Ltd has successfully completed the first phase of its global supply chain management platform rollout by going live with SCMProFit in six countries. Based in Singapore, SFS operates in twenty five countries across Asia Pacific, Europe, Africa, and North America, providing transportation services for time and temperature sensitive pharmaceutical shipments.

SFS selected Aurionpro's SCMProFit suite to provide a backbone for their logistics operations and to manage efficient product delivery to their global customers. The solution will ensure that the complexities involved with moving chilled and frozen, clinical trials, pharmaceuticals and other time and temperature sensitive products are controlled effectively and that Standard Operating Procedures (SOPs) are strictly adhered to. SCMProFit will provide SFS with end-to-end visibility of their entire supply chain as well as a robust toolset to effectively manage all aspects of their logistics operations.

Commenting on the recent milestone, Roger Chew, SFS's Global Sales Director, reflected, "Our logistical processes are quite complex due to the nature of the movement of time and temperature sensitive products and we were looking for a globally-scalable solution that would be able to improve the efficiencies of our operations while adhering to strict operational protocols and industry regulations. SCMProFit was the clear choice as it provides an enterprise-scale platform that delivers the real-time visibility and flexibility that we required in order to achieve our goals."

Dhananjay Jadhav, Aurionpro's Senior Vice President of Sales, added, "It is deeply satisfying to see SFS improve their operational efficiencies based on the recent go-live of SCMProFit. We look forward to a long-lasting partnership with SFS and to implementing SCMProFit globally as their enterprise-wide supply chain management platform."

About Aurionpro
