KPR Processing unit's operations revived

We hereby announce that the operations have been revived at Company's Processing Unit at SIPCOT, Perundurai. The Unit is operating in it's full capacity since last week. The State of the Art Processing Unit, backed up by a trendsetter ETP, has a capacity to process 9000 MT of Fabrics per annum.

As announced recently, KPR's Garment Capacity Expansion Programme in two Phases is in progress. The full- fledged Processing Unit can comfortably meet out the expanded Garment capacity's requirement also.

16.06.2014.
