

L&T Infotech and Solix Technologies partner to deliver Enterprise Data Management Solutions

Santa Clara, CA, September 26, 2014 : L&T Infotech, a global provider of information technology services and solutions, and a wholly-owned subsidiary of the USD 14.3 billion Larsen & Toubro (L&T), announced a partnership with Solix Technologies, a leading provider of enterprise data management (EDM) solutions, to offer customers a comprehensive information lifecycle (ILM) solution to manage both structured and unstructured data. By providing clients with a platform to deploy policy-based data governance strategies, the L&T Infotech-Solix partnership will help organizations not only manage on-premise data, but transition to cloud-based infrastructure as well.

L&T Infotech plans to expand its Data and Information Management Suite to manage both structured and unstructured data as part of its commitment in helping customers automate and simplify the management of complex IT environments, reduce risk and improve service delivery throughout the IT lifecycle. The partnership with Solix Technologies is an excellent complement to L&T Infotech for its backup and archiving solutions.

The partnership with Solix will strengthen the data management solutions of L&T Infotech by providing customers with database archiving, data masking, test data management, and application retirement solutions for packaged as well as custom database applications. Availing these best-in-class enterprise data management solutions, organizations can:

- Improve application performance
- Reduce maintenance costs
- Mask and protect sensitive test data
- Create database subsets and clones
- Decommission legacy applications
- Archive and access data based on compliance and regulations

"Solix Enterprise Data Management Solutions perfectly complement L&T Infotech's core expertise which is into implementation of enterprise applications. By leveraging Solix's Data Management Solutions, L&T Infotech will be able to meet complete Information Lifecycle Management needs of its customers and provide an agile ERP environment for future growth," said Mr. V. K. Magapu, Managing Director, L&T Infotech.

"L&T Infotech, is known for helping organizations achieve business agility through rich technology solutions by collaborating with top technology vendors. Solix look forward to this alliance, and providing best practices to enterprises for enhanced Information Lifecycle Management and Analytics," said Sai Gundavelli, Founder and CEO, Solix Technologies, Inc.

T.heetanjali

Solix Technologies, Inc., the leading provider of Enterprise Data Management (EDM) solutions, helps businesses improve application performance, reduce storage costs, and meet compliance and data privacy requirements by achieving Information Lifecycle Management (ILM) goals. Solix Big Data Suite offers an integrated platform for Enterprise Archiving and Enterprise Data Lake with Apache Hadoop as a repository across all enterprise data. The Solix Enterprise Data Management Suite (Solix EDMS) enables organizations to implement Database Archiving, Test Data Management (Data Subsetting), Data Masking and Application Retirement across all enterprise data. Solix Technologies, Inc. is headquartered in Santa Clara, California and operates worldwide through an established network of value added resellers (VARs) and systems integrators.
