

PRESS RELEASE

Saksoft acquires 51% of the Share Capital
of
M/s. THREESIXTY LOGICA TESTING SERVICES PRIVATE LIMITED
a Specialist Independent Software Testing Services Company

Chennai, India - December 31, 2014

Saksoft Limited (NSE:SAKSOFT), the Information Management Specialist Company has acquired a 51% ownership stake in ThreeSixty Logica Testing Services Private Limited, an Independent Software Testing services company.

“The demand for independent testing services is growing at a phenomenal pace in the current SMAC (social, mobile, analytics and cloud) and e-commerce environment and the acquisition of 51% of THREESIXTY LOGICA TESTING SERVICES PRIVATE LIMITED is part of the broader plan to enlarge our foot prints in the testing domain.” stated Aditya Krishna, CEO of Saksoft. “We are very excited with this investment and believe that our focus on Information Management combined with their expertise in independent testing will enable us to further leverage our capabilities as a niche technology services provider”.

About Saksoft :

Saksoft is a leading provider of Information Management Solutions to successful companies around the world. We deliver success to the enterprise by helping consolidate, organize and manage large volumes of data collected by businesses. Working with data sources that are often disparate and complex, we make accurate, high quality, relevant information readily available to the people that need it. By being better informed, these companies are empowered to make key decisions and implement strategies for making their enterprises successful. Visit www.saksoft.com

About ThreeSixty Logica Testing Services Private Limited:

A leader in software testing services and quality assurance, ThreeSixty Logica Testing Services offers high-end software testing programs and test solutions to independent software vendors (ISVs), software product companies and SMEs. The company offers skilled man-power, the best-of-its-class infrastructure and technology for testing and has a long list of satisfied customers in finance, IT, telecom, e-commerce, healthcare, manufacturing and retail sectors.
