# **ZCCL: Design Driven International Business**

---

- Order books are healthy
- The unit value realizations are improving
- Raw material prices are currently impacting cost more favorably than earlier

# ZCCL: Branded Business

---

Consumer demand is under stress causing distress to Independent Retailers

We have 3 channels of sale Independent Retailers (IR), our own ZODIAC Stores (ZRS) run on COCO basis and business with National Chains (LFS)

The MBO business has been hit very hard with consumer sentiment showing little improvement

However, sales at ZRS and LFS (like to like) are stable and share of pie for both has increased

The loss of sale in MBO & it's consequent impact on contribution has been blunted by gains in the other two channels

Despite poor consumer sentiment we have not pulled back on investing in brand building & new store openings

## ZCCL: Own Retail (coco)

---

Opened 21 stores between April 2014 & Sept 2015

Committed to growing own retail and are at 131 COCO stores today

Continuously looking for new locations and signing stores when rentals are viable

Results include these 21 stores which are under gestation and will contribute once consumer sentiment swings

Already seeing some positive signs in the Auto Industry
