

CTE Announces Partnering Agreement with ForgeRock

Hyderabad – March 26th, 2015 – Cambridge Technology Enterprises (BSE: CTE), an IT services leader focused on the convergence of big data and cloud, today announced it has entered a partner agreement with ForgeRock® Inc., a leading open platform provider of identity management solutions.

As organizations increasingly look to better manage their digital interactions with every customer to deliver more personalized, secure experiences, they require new technologies and best in-class expertise to achieve their goals. The partnership between CTE and ForgeRock helps to address the expanding market opportunity for identity management solutions that leverages the power of cloud, mobile and Internet of Things (IoT) adoption.

CTE's global facilities will include a growing number of certified ForgeRock experts to ensure that the benefits of identity management are included within a wide range of client solutions across multiple industries. The partnership will combine their global talent pools through CTE's client reach and Forgerock's leading identity management technology.

"We are thrilled about the partnership with ForgeRock," says Aashish Kalra, Chairman of Cambridge Technology Enterprises. "Many of our customers are inquiring about identity management solutions due to the complexity of system access, clearly demonstrating that this is an area in which CTE needs to invest in."

"This partnership is further evidence of the shift away from traditional identity access management solutions that were originally built for managing employee identities behind the firewall, and toward more customer-centric identity solutions," said Rich Link, Vice President of Business Development for the Americas, ForgeRock. "We look forward to collaborating with CTE to expand the rapidly growing market of identity management."

About ForgeRock

ForgeRock works together with partners such as CTE to help the world's largest organizations rapidly implement open source identity management solutions that scale for millions of users. To learn more, visit <http://www.forgerock.com/en-us/partners/>.
