

Cambridge Technology Enterprises Ltd Joins New Relic's Partner Program
Latest project fueling CTE's access to software analytics

Hyderabad (April 1st, 2015) – Cambridge Technology Enterprises Ltd (BSE: CTE), an IT services leader focused on the convergence of big data and cloud, today announced a partnership with software analytics company New Relic, Inc. (NYSE: NEWR).

As a member of New Relic's partner program, CTE will enable customers to use the company's suite of software analytics products to enhance software performance management and monitoring. New Relic's technology will help CTE customers in quickly finding and fixing performance problems, as well as predict and prevent future issues. With New Relic, these companies can also build higher-quality applications more rapidly, enabling business and technology users to extract actionable information from their software's data.

"CTE has teamed up with New Relic to give our customers access to the greatest level of software analytics," said Aashish Kalra, Chairman of Cambridge Technologies Inc "New Relic's product suite will allow our customers to improve the quality of their software and garner important, real-time insights into their data."

"New Relic is proud to partner with leaders like CTE to bring the power of software analytics to its customers," said John Gray, New Relic's SVP of Business Development. "This partnership underlines New Relic's commitment to helping companies of all sizes build better software and make better decisions through data."

CTE has successfully introduced the New Relic tool to multiple customers in the U.S. and India. As a global, world class application development resource, CTE's partnership with New Relic has positioned the company to assist their customers in achieving their strategic cloud initiatives effectively and efficiently, every time.

About Cambridge Technology Enterprises:
