Commenting on the company's performance, Mr. Sanjay Chamria, Vice Chairman and MD, Magma Fincorp Limited said, "in spite of a tough environment, emanating out of erratic cashflows in the consumer's hands; our strong focus on quality origination and realignment of product, market and customer segments, helped us record a good 41 bps yoy improvement in NIM and an impressive 18% yoy increase in PAT in Q4 FY15. With a focus on servicing our customers with a better TAT and after sales service, we made significant investment in technology driven processes which have started producing results for us in Collections and Sales." Added Mr Chamria.

"The company has completed the process of raising Rs 500 crore from a clutch of marquee international investors. While Mauritius-based LeapFrog Investments, one of the world's largest impact investment funds, and India Value Fund Advisors, an investment fund dedicated on India, are new investors in the company, KKR is an existing investor. This shows the amount of faith and trust the investors have on the growth story and on the management capabilities of Magma." added Mr Chamria.

The company also added management depth by inducting Mr Atul Bansal as CFO. Atul brings to Magma over two decades of rich experience in strategy, investment and treasury functions with some large Indian and international organisations.
