### III. OTHER INFORMATION:

**(1) Reasons of loss or Inadequate profits and Steps taken or proposed to be taken for improvement:**

The Company has built on its business vision, and created world-class infrastructure facilities. The change in regulatory procedures which impacted the Company operations and steps taken by Company is explained below:

- **Stoppage of Transhipment of cargo from Mumbai Port to FTWZ:**

- Mumbai port customs in September 2012 stopped the movement of cargo from Mumbai port to FTWZ in Panvel which is continuing to hamper the operations.
- Company is in discussion with the customs and ministry officials and awaits clarification for the same.

- **Delays in Duty Drawback:**

- Lack of procedural clarity for claiming the duty drawback for exports made through FTWZ, due to this exporter is being deprived of major benefits that an FTWZ offers.
- Company is trying to get clarification regarding the same from customs and ministry officials.

- **Non-availability of Customs EDI system in FTWZ:**

- EDI link system is used by customs for getting relevant notifications, instructions, exchanges rates, valuation references, historic data etc. to facilitate imports and exports.
- Non availability of EDI link system at FTWZ, has resulted in delays in the imports and exports procedures at FTWZ.
- Company has installed all the required data exchange facilities and IT connectivity for implementing the EDI and have requested the highest authorities for allowing EDI link at FTWZ.

- **Non- recognition of Arshiya FTWZ as a Port for import of few items especially cars:**

- Imports of cars into India are permitted from specified Ports/ICDs which does not include Arshiya FTWZ. About 1000+ cars were initially handled by Arshiya FTWZ, based on temporary approvals from DGFT. This approval was subsequently withdrawn.
- This resulted in car companies withdrawing their decision to use Arshiya FTWZ.
- However, the matter is presently under consideration as the Company has presented the case to highest governing authorities including DGFT and Finance and Commerce Ministries that Arshiya FTWZ has all the required facility, customs systems and competent customs officials posted in FTWZ and hence should be treated at par with other ports eligible for importing cars.

The above factors affected the utilization of capacity arising out of huge capital expenditure and consequently impacted the operations of the Company. The Company could not reach the scale of operations as planned and, hence not succeeded in generating revenue to sustain smooth operations. Due to this the Company approached its term lenders under Corporate Debt Restructuring (CDR) mechanism for financial restructuring.

With the ongoing efforts of your company, the year ahead may see more clarity on the regulatory aspects, movement of cargo and removal of restrictions on FTWZ. FTWZ to become trading hub and a possible conduit for increasing global trade of the country.

There could be good enough reason to believe for a robust, comprehensive and business-friendly policy for the FTWZ sector in very near future.

**(2) Expected increase in productivity and profits in measurable terms:**

Though the economy is witnessing a continued slowdown, in anticipation of revival of the overall economy in future, the aforesaid steps taken/to be taken by the Company are expected to improve the Company's performance and profitability.
