## Nucleus Software to host an exclusive dialogue on 'Shaping the Future of Finance' for the Banking and Finance Industry in the Philippines

**New Delhi, India, August 10, 2015** — Nucleus Software, the leading provider of lending and transaction banking solutions to the global financial services industry, today announced that it will be hosting an exclusive dialogue on 'Shaping the Future of Finance' for the banking and finance industry in Manila, the Philippines on 13<sup>th</sup> August 2015.

Two back-to-back events will be run – one focused on transaction banking, the other on the lending market. Each will have special focus on the ASEAN region and Nucleus Software will explain how technology can help financial institutions meet the challenges they face today – achieving geographic expansion and sustainable growth while also managing risk and complying with ever increasing regulations.

Mr Ryan Hart, a Principal Analyst at Forrester Research, will be the Guest Speaker at the two events. Mr. Hart has over 15 years of experience in advising multinational corporations on customer acquisition and engagement strategies and will share his views on the way forward for the finance sector in APAC.

Commenting on the event, **Mr. Anthony Campbell Brown, Nucleus Software's Senior Vice President and Regional Sales Director**, said *"We are happy to be hosting this exclusive dialogue on 'Shaping the Future of Finance' for the local banking community. Manila is an important market for us and we are keen to share our experiences of working with both local and global banks. Together with other industry experts we will discuss the future of lending & transaction banking and how banks can address some of the critical challenges facing the market today."*

Experts from Nucleus Software will share the company's global expertise through presentations on **"Make better credit decisions faster with the help of technology"**, and **"Leveraging Technology to generate new transaction banking revenue streams"**. Other industry experts will also contribute to the event.

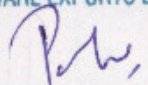

The event will be attended by an elite group of CEOs, CIOs and business leaders from leading financial institutions.

Technology is critical to the success of the innovative banking solutions that are emerging in the ASEAN countries. The Philippines is one of the fastest growing markets amongst the rapidly emerging nations in the region. In 2014 its financial system grew by 12% making it one of the highest contributors to the ASEAN economy.
