

Cambridge Technology Enterprises Ltd announces partnerships with two leading Indian companies

CTE begins work with textile industry leader while providing support to one of India's largest private shipping companies

Hyderabad, India, August 4, 2015 – Cambridge Technology Enterprises Ltd ("CTE"), an IT services leader focused on the convergence of big data and cloud, today announced its partnerships with two Indian companies leading the textile machinery and shipping industries.

Cambridge Technology Enterprises Ltd has laid out Enterprise Resource Planning (ERP) applications development and enhancement contracts with the textiles company. As a Platinum Member in the Oracle Partner Network (OPN), CTE will leverage Oracle solutions to provide the customer with custom ERP solutions, enhancing their applications and transforming them from 2-tier to web-tier.

CTE is one of the preferred vendors for Oracle in the U.S. and offers the most comprehensive suite of Oracle based services, especially in the mid-west region of the US. CTE's multi-year engagement with the Indian shipping leader entails Database & Middleware Support and Maintenance on Oracle platforms. Such engagements assist companies in reducing their operational costs and the company can focus itself on its core expertise rather than technology.

Commenting on these partnerships, Aashish Kalra, Chairman of Cambridge Technology Enterprises Ltd said, "Our partnership with Oracle is an important element of our business plan along with our focus on the convergence of big data and cloud. As an Oracle platinum partner, we have been working to expand our industry coverage; we are also delivering specialized solutions to provide the same level of expertise in India, as we provide to our global clients."

About Cambridge Technology Enterprises Ltd:

Cambridge Technology Enterprises Ltd (CTE) is an IT services leader focused on the convergence of big data and cloud. Recognized as a thought leader and innovator of enterprise solutions, CTE focuses on cloud application development and management, data warehousing, business intelligence (BI) and analytics on the cloud. Through designing and implementing enterprise IT strategies that leverage the cloud's capabilities, CTE's end-to-end services enable its customers to harness the data available to them. Its expertise across domains makes CTE a preferred choice for IT Strategy and Implementation to its customers.
