

Press release: to be distributed on 22nd Sep 2015

Cambridge Technology Enterprises partners with India's leading infrastructure development and finance company

CTE extends Oracle support and maintenance to leading infrastructure development and finance company.

Hyderabad, India, 22nd September 2015: Cambridge Technology Enterprises Ltd (CTE), an IT services leader focused on the convergence of big data and cloud, today announced its engagement with one of India's leading infrastructure development and finance companies.

The company assists in the speedy development of infrastructure in the country. It specializes in the commercialization and development of infrastructure projects and subsequently deals in creating value added financial services. Its expertise is to provide an end-to-end spectrum of services which is vital for the completion of projects.

Under this engagement, CTE is leveraging its expertise within the Oracle platform to provide the customer with high-quality Oracle support and maintenance services. This solution will enable the customer maximize returns on their Oracle investment with minimal set-up and without disruption to current operations.

"This engagement is in line with our partnership with Oracle and our focus on the convergence of cloud and big data. As an Oracle platinum partner, we have been working to expand our industry coverage; we are also delivering specialized solutions to provide the same level of expertise in India, as we provide to our global clients.", said Aashish Kalra, Chairman of Cambridge Technology Enterprises.

About CTE:

Cambridge Technology Enterprises Ltd (CTE) is an IT services leader focused on the convergence of big data and cloud. Recognized as a thought leader and innovator of enterprise solutions, CTE focuses on cloud application development and management, data warehousing, business intelligence (BI) and analytics on the cloud. Through designing and implementing enterprise IT strategies that leverage the cloud's capabilities, CTE's end-to-end services enable its customers to harness the data available to them. Its expertise across domains makes CTE a preferred choice for IT Strategy and Implementation to its customers.
