III. Other Information:

1. Reasons of loss or inadequate profits:

The major reason for the loss during the financial year 2014-15 is the continuing downfall in the vaccine business which has got significantly affected due to withdrawal of the Company's pentavalent vaccine from the WHO's list of prequalified vaccines for supply to UNICEF and other UN agencies in financial year 2011-12. Further, there was decline in institutional business primarily on account of reduced supplies of oral polio vaccines against tender from Government of India and thereby has also contributed to the decline in the revenue and the profits of the Company. The company's performance in next financial year may also remain under pressure due to continuing of the adverse trend in the vaccine segment which may cause absence or inadequacy of profits.

2. Steps taken or proposed to be taken for improvement:

The Company has well laid strategy for its future growth with clearly identified growth drivers to boost its revenue and profitability over the medium to long term. The Company has taken all corrective and preventive measures to ensure compliance with the WHO pre-qualification guidelines. During the FY 2013-14, WHO has pre-qualified the Pentavalent Vaccine (Easyfive-TT vaccine) for supply to UNICEF and UN Agencies.

During the year, the Company has continued to supply Easyfive-TT Vaccines against long-term supply order received from UNICEF during previous financial year, for supply of vaccines for the calendar years 2014 to 2016. The Company has also won a

national tender in Philippines for supply of Easyfive-TT vaccine and an order from Government of India for supply of Oral Polio Vaccines which have been the leading key drivers in the improved performance of the Company.

The Company also has entered into a strategic alliance with Canada's largest pharma company, Apotex Inc., for research, development, license and supply of two drug delivery-based generic products in the US, Canada, Australia and New Zealand markets and also entered into similar deal with US-based Rising Pharmaceuticals Inc. for an oral controlled release product in the CNS space. Similar collaboration has also been entered into with a leading Indian pharma company with extensive global operations, for the development and supply of a modified release immuno-suppressant generic product for the US market.

The performance during the year has improved significantly and further the Company is confident that Company's performance would improve and the Company will again be on a significant growth path over next few years.

3. Expected increase in productivity and profits in measurable terms:

In addition to steps being taken for improvement as detailed hereinabove, key focus area would be profit maximisation, conservation of cash, operational efficiencies, cost and working capital containment and investment in human resource. The Company is continuing in its endeavour to increase the revenues to improve profitability.
