Chloramphenicol Sodium Succinate Injection banned

Lincoln Pharmaceuticals Ltd. (LPL) is exporting medicines to many African countries. One of the Company's highest selling products is Chloramphenicol Sodium Succinate Injection. The Company has got many orders from the government institutes. Tanzania drug authority (TFDA) has announced to stop and banned importing of this product and Company's registration has also been cancelled, in this circumstance a huge quantity dispatched by the Company to Tanzania has kept on hold there and authority has issued a notice to destroy the product. Which will create big impact of profit margin of the Company and due to the rejection of registration, a large no. of raw material and packaging material stock is piled up at factory, and this creates an addition to the loss amount.

Yours faithfully

For Lincoln Pharmaceuticals Limited

Authorised Signatory.
