WARNING:

Cigarette smoking increases the risk of serious cardiovascular side effects from oral contraceptive use. This risk increases with age and with heavy smoking (15 or more cigarettes per day) and is quite marked in women over 35 years of age. Women who use oral contraceptives should be strongly advised not to smoke.

According to IMS Health sales data for the 12 month period ending November 2015, the Loestrin® 21 1/20 Tablets market¹ achieved annual sales of approximately \$56.8 million*.

Glenmark's current portfolio consists of 106 products authorized for distribution in the U.S. marketplace and 62 ANDA's pending approval with the U.S. FDA. In addition to these internal filings, Glenmark continues to identify and explore external development partnerships to supplement and accelerate the growth of its existing pipeline and portfolio.

All brand names and trademarks are the property of their respective owners.

¹Market includes brand and all available therapeutic equivalents
