Media Release – October 24, 2016

## **JSW Energy signs MoU to set up a thermal power plant and related activities in the Kingdom of Swaziland**

JSW Energy Limited (JSW Energy) (BSE Scrip Code: 533148, NSE Scrip Code: JSWENERGY), has signed a binding Memorandum of Understanding (MoU) with the Swaziland Electricity Company (SEC) and the Government of the Kingdom of Swaziland to set up a thermal power plant in the Kingdom of Swaziland in order to facilitate energy security and make Swaziland self-reliant in power by exploiting the natural resource available within the country.

The capacity of the power plant to be set up will be decided by JSW Energy in consultation with SEC based on the coal resources found during the exploration of an area of approximately 16,000 hectares to be prospected by JSW Energy under a prospecting license granted to them.

In addition to meeting the total power demand of the Kingdom of Swaziland which currently stands at around 300 MW, JSW Energy and SEC shall also explore the possibility of exporting power to the neighbouring countries that are connected through a common transmission network.

The MoU provides for setting up a thermal power plant and undertaking of mining activities pursuant to execution of definitive agreements - a long term Power Purchase Agreement (PPA) to be guaranteed by the Kingdom of Swaziland and fuel supply agreement from captive coal resources; and facilitation of other consents and approvals including associated infrastructure facilities to support coal mining, power generation, evacuation and allied activities.

### **About JSW Energy Limited**

JSW Energy Limited, part of the JSW Group, is a growing energy company. The Group has diversified interests in carbon steel, power, mining, industrial gases, port facilities, cement and information technology. JSW Energy is working on power solutions in the states of Karnataka, Maharashtra, Rajasthan, Himachal Pradesh and Chhattisgarh. The Company has

Part of O.P.Jindal Group

an operational capacity of 4,531 MW and has entered into definitive agreement to acquire 1,500 MW operational thermal power plants in Chhattisgarh and Madhya Pradesh. The Company is an early entrant in the Power Trading and Power Transmission business and plans to enter into power distribution business generation through non-conventional energy sources and tie-ups with well-known equipment manufacturers and suppliers. It is working towards building a full service integrated energy business.

### About JSW Group

A US \$11 billion conglomerate, the JSW Group is a part of the O.P. Jindal Group. JSW has set up business facilities in various core sectors of India. With verticals that are exploring innovative and sustainable avenues in steel, energy, infrastructure and cement, the Group is paving the way for India's development as a global superpower.
