Notes:

- 3.i Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. Ind AS 101 allows first-time adopters exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the exemption in its standalone financial results for its Property, Plant and Equipment, as well as Intangible Assets and Investment Properties (referred to as "fixed assets" in aggregate). The Company has opted to determine the deemed cost of such fixed assets as of April 01, 2015 to be represented by the fair value of the land and buildings and restating the other items of equipment in accordance with Ind AS wherein the Equipments were grossed up for the capital subsidies received in prior years (net of amortisation). Accordingly, the increase in the deemed cost of building and equipment resulted in higher depreciation charge for the period. The amortisation of the capital subsidy has been routed as other income, as applicable.
- 3.ii Under previous GAAP, the Company had charged off certain loan origination/upfront fees paid to the banks for facilitating the term loans, as finance cost in the respective year of incurrence. Under Ind AS, such financial liabilities, classified to be carried at amortised cost basis, have resulted in a change in the current period finance cost (net) with an adjustment to the retained earning balance as of April 01, 2015.
- 3.iii Other Ind AS adjustments mainly includes the effect of measurement of financial assets and liabilities, either at fair value or amortised cost etc.
- 3.iv The Company has recognised the deferred tax impact arising from Ind AS adjustments as well as evaluated the status of the deferred tax asset arising from unabsorbed depreciation existing as of March 31, 2015 not recognised as per previous GAAP in the absence of virtual certainty and has adjusted the same in the reserves as of April 01, 2015. Based on the utilisation of the unabsorbed depreciation during the period(s), such reversal of deferred tax asset is recognised in statement of profit and loss.
- 3.v Under previous GAAP, for foreign currency derivative contracts, not classified as cash flow hedges, taken as a hedge against recorded exposures on the balance sheet date, were restated at the year end rate and the discount or premium, as applicable, was amortised over the period of the contract. Under Ind AS, such derivative financial instruments are recognised at fair value and the movement is recognised in other comprehensive income, net of tax.
- 4 The Company has evaluated its operating segments in accordance with Ind AS 108, and has concluded that it is engaged in a single operating segment viz. Home Textiles, with a product base of different cotton and silk blended products, on the basis of decisions taken for allocation of resources and the internal business reporting system for evaluation of operational results.

- 4.i Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. Ind AS 101 allows first-time adopters exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the exemption in its standalone financial results for its Property, Plant and Equipment, as well as Intangible Assets and Investment Properties (referred to as "fixed assets" in aggregate). The Company has opted to determine the deemed cost of such fixed assets as of April 01, 2015 to be represented by the fair value of certain land and buildings and restating the other items of equipment in accordance with Ind AS, instead of considering the value of the fixed assets as carried in the statement of financial position prepared under previous GAAP as at 31st March, 2015. This resulted in the value of land and building to be recorded at a value higher than those carried in its previous GAAP books as well as the Equipments being grossed up for the capital subsidies received in the prior years (net of amortisation). Accordingly, the increase in the deemed cost of building and equipment resulted in higher depreciation charge for the period. The amortisation of the capital subsidy has been routed as other income, as applicable.
- 4.ii Under previous GAAP, the Company had charged off certain loan origination / upfront fees paid to the banks for facilitating the term loans, as finance cost in the respective year of incurrance. Under Ind AS, such financial liabilities, classified to be carried at amortised cost basis, have resulted in a change in the current period finance cost (net) with an adjustment to the retained earning balance as of April 01, 2015.
- 4.iii Other Ind AS adjustments mainly includes the effect of measurement of financial assets and liabilities, either at fair value or amortised cost etc.
- 4.iv The Company has recognised the deferred tax impact arising from Ind AS adjustments as well as evaluated the status of the deferred tax asset arising from unabsorbed depreciation existing as of March 31, 2015 not recognised as per previous GAAP in the absence of virtual certainty and has adjusted the same in the reserves as of April 01, 2015. Based on the utilisation of the unabsorbed depreciation during the period (s), such reversal of deferred tax asset is recognised in statement of profit and loss.
- 4.v The Company has opted to apply the optional exemption provided in Ind AS 101, with regard to business combinations wherein the Company has considered January 01, 2007 as the effective date for applying business combinations retrospectively. This has resulted in the Company recognising certain items of intangibles, earlier subsumed within goodwill as well as adjusting the goodwill recognised in previous GAAP from additional interest acquired in subsidiaries to be adjusted directly to shareholders funds and retained earnings as of April 01, 2015, net of necessary amortisation of the intangibles. As the intangibles recognised had an estimated useful life expiring during 2015-16, the Company has recognised certain amortisation charges towards the same. Additionally, Ind AS 103 did not permit transaction costs to be considered as part of investment/purchase consideration resulting in the same being adjusted to retained earnings/ statement of profit and loss as necessary.
- 4.vi Under previous GAAP, for foreign currency derivative contracts, not classified as cash flow hedges, taken as a hedge against recorded exposures on the balance sheet date, were restated at the year end rate and the discount or premium, as applicable, was amortised over the period of the contract. Under Ind AS, such derivative financial instruments are to be recognised at fair value and the movement is recognised in the statement of profit and loss.
- 4.vii Restatement of foreign operations termed as 'integral operations' under the Previous GAAP and included as an adjustment to the income statement, has under Ind AS 21 been considered as an element of other comprehensive income due to conversion of functional and reporting currency.
- 5 The Company has evaluated its operating segments in accordance with Ind AS 108, and has concluded that it is engaged in a single operating segment viz. Home Textiles, with a product base of different cotton and silk blended products, on the basis of decisions taken for allocation of resources and the internal business reporting system for evaluation of operational results.
