# Phoenix Mills scrip outlier in realty pack

RAGHAVENDRAKAMAM  
Mumbai, 4 December

Phoenix Mills, the country's largest mall owner, backed the trend of falling real estate stocks after demonetisation, with its share price rising 4 per cent since November 8.

The BSE Realty Index has declined 15 per cent post demonetisation even as the Sensex fell 5 per cent.

The share price of DLF, one of the country's largest real estate developers, has declined 24 per cent since November 8.

Share prices of other real estate companies such as HDIL and Prestige Estate have fallen nearly 19 per cent.

The Mumbai-based Phoenix Mills is the biggest owner and operator of malls in India. The company's 6-million sq ft mall in Lower Parel in Mumbai is among the top three revenue-earning malls in the country.

"Phoenix Mills is treated because it is a rent-based company with marquee properties," said Adidev Chattopadhyay, analyst with Eazra Securities, in a recent report. "The stock offers an attractive entry point at the current valuation," he added.

AK Prabhakar, head of research at IBI Capital, agreed. "A majority of commercial property developers deal through banks, so demonetisation will not affect them. After demonetisation, consumption has shifted to organised retail and this will benefit companies such as Phoenix Mills," he said.

Mall operators have been affected by the government's move because sales at retail chains have dropped. This affects operators who earn fixed rents and share revenue with tenants.

REALTY LOGJAM

- The BSE Realty Index has declined 15 per cent post demonetisation even as the Sensex fell 5 per cent.
- The share price of DLF, one of the country's largest real estate developers, has declined 24 per cent since November 8.
- Share prices of other real estate companies such as HDIL and Prestige Estate have fallen nearly 19 per cent.
- The Mumbai-based Phoenix Mills is the biggest owner and operator of malls in India. Its 6-million sq ft mall in Lower Parel in Mumbai is among the top three revenue-earning malls in the country

"Sales at malls are now at 80-85 per cent of the normal," said Atul Ruita, joint managing director, Phoenix Mills. "By January, we believe these will reach 100 per cent," he added.

While mall operators are the dominant business of Phoenix Mills, it's also in the residential market.

One Last Hall to Tackle Demonetisation  
TAX IS ALSO PART OF YOUR WEALTH  
8th of November when the entire world was waiting for outcome of US Presidential election, the Hon'ble Finance Minister Narendrabhai Modi announced the demonetisation of ₹500 and ₹1000 notes as a part of a campaign against black money, corruption and terror financing.

- 1) Impact of Demonetisation on Aam Aadmi and Indian Economy?
  - People who are holding black money in cash will not be able to exchange much as they would have a fair of getting possessed by the authority. The old currency will become worthless for those people who choose not to declare their income.
- 2) What are you doing?
  - Buying Gold in India
  - Buying Property
  - Deposit in Jan Dhan Account
  - Deposit in Salary Account
  - Deposit in Saving Account
  - Conversion of old currency into new currency
- 3) Are you thinking of buying gold?
  - Yes, We can't because as per RBI's new scheme there will be no setting of gold jewellery and ornaments to the extent of 800 grams per married lady, 200 grams per unmarried lady and 500 grams per male member of a family during each year.
- 4) Are you thinking for deposit in your bank account?
  - The Government has proposed amendments to the IT Act through Finance Law Bill, which reduced tax liability on deposits, seeking to impose up to 45 per cent tax and penalty on undisclosed wealth that is discovered during search operations.

**Current Scenario**  
As per our analysis before demonetisation assets were 29277 but after demonetisation assets fell down to 26727 (Deduction:- 2550)  
Gold: Free before 30th of November 2016, ₹1310000 (INR 21477) after demonetisation gold price fell down to ₹1160000 (INR 20450)  
As per our analysis by comparing the date with historical data (2015 till 21st of April 2016) the 100th quarter was 7.8 per cent and now as on 20th of November, 2016 for second quarter it is 2 per cent. There is a fall of 5.8 percent between the first quarter and second quarter. So we are expecting that GDP will fall by 1.8 percent.
