In addition, this Scheme also provides for various other matters consequential or otherwise integrally connected herewith.

B. RATIONALE FOR THE SCHEME

The Demerged Company 1 currently has business interests in diverse businesses such as manufacturing of steel pipes and steel pellets and infrastructure business. The management of the Demerged Company 1 believes that the business interests of the Demerged Company 1 in the Demerged Undertaking 1, which comprises of the business interests of the Demerged Company 1 in the infrastructure sector, require dedicated management focus and business strategies to develop the growth potential in the relevant business market. With a view to achieve greater management focus on its business interests in the manufacturing of steel pipes and steel pellets, the management of the Demerged Company 1 proposes to demerge its business interests in the infrastructure sector comprising of the Demerged Undertaking 1, and vest the same with the Resulting Company 1 (a wholly owned subsidiary of Demerged Company 1). The Demerged Company 1 will retain the manufacturing of steel pipes and steel pellets businesses. Further, the demerger of the Demerged Undertaking 1 and vesting of the same with Resulting Company 1 would enable the Resulting Company 1 to focus on infrastructure business and further create value for all of its stakeholders. Further, the listing of the equity shares of Resulting Company 1 on the Stock Exchanges (*as defined hereinafter*) would help the shareholders of Resulting Company 1 to unlock the value of their shares.

Pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the issued and paid-up equity share capital of the Resulting Company 1 would be reduced as a result of cancellation of the shares held by the Demerged Company 1 in the Resulting Company 1 and the securities premium account of the Resulting Company 1 shall be reduced (if required) to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 1 that are transferred to the Resulting Company 1 pursuant to Section I of the Scheme.

Further, pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the capital redemption reserve, capital reserve (if required) and the securities premium account (if required), of the Demerged Company 1 shall be reduced to set off the difference between the amount of assets and the amount of liabilities and accumulated accounting losses (if any), pertaining to the Demerged Undertaking 1 being transferred by the Demerged Company 1 pursuant to Section I of the Scheme and the amount of investment held by the Demerged Company 1 in the Resulting Company 1 and cancelled by Demerged Company 1.

Further, both the Transferor Company and the Transferee Company are engaged in waterways transportation business (consisting of ocean waterways and inland

waterways transportation). Therefore, with a view to consolidate the business interests of the Transferor Company and the Transferee Company in the waterways transportation business, the Transferee Company and the Transferor Company have decided that the Transferor Company with all its business interests including those in waterways transportation business (consisting of ocean waterways and inland waterways transportation), be amalgamated with its wholly owned subsidiary company, the Transferee Company which is also, *inter alia*, engaged in the waterways transportation business.

On a long term basis, management of the Transferee Company wishes to focus on inland waterway transportation business. Therefore, the proposed amalgamation of the Transferor Company comprising of its business interests, *inter alia*, in inland waterways transportation business with the Transferee Company would be in the best interests of the shareholders, creditors and employees of the Transferor Company and the Transferee Company and would also, *inter alia*, have the following benefits:

- (a) the proposed amalgamation would result in consolidation of the operations of inland waterways transportation business in the Transferee Company which will lead to synergies, reduction in operational costs and operational efficiencies in the existing operations of the inland waterways transportation business; and
- (b) the proposed amalgamation would result in better growth prospects in the inland waterways transportation business.

Further, pursuant to the amalgamation of the Transferor Company with the Transferee Company, the entire share capital of the Transferee Company held by the Transferor Company would be cancelled and the Transferor Company shall stand dissolved without winding up. Further, the capital reserve (if required) and the securities premium account (if required) of the Transferee Company shall be reduced to set off the debit balance (if any) of the capital reserve created pursuant to the amalgamation of the Transferor Company with the Transferee Company and accumulated accounting losses, if any, of the Transferor Company acquired by the Transferee Company pursuant to the amalgamation of the Transferor Company with the Transferee Company.

The Demerged Company 2 is a step down wholly owned subsidiary of the Resulting Company 2, however, pursuant to the amalgamation of the Transferor Company with the Demerged Company 2/Transferee Company, the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2. Demerged Company 2 has business interests in diverse businesses such as ocean waterways, inland waterways transportation and business process outsourcing. The Resulting Company 2 operates various manufacturing and job work facilities situated in India, USA, Italy, Dubai, etc. for production and sale of finished goods. With a view to integrate the manufacturing presence of the Resulting Company 2 in India and abroad, it is imperative for the Resulting Company 2 to have its own ocean logistics support system for transit of finished goods between multiple domestic/ international locations. Therefore, the demerger of the Demerged Undertaking 2

and vesting of the same with Resulting Company 2 would not only enable the Resulting Company 2 to strengthen its ocean logistics capabilities by providing the Resulting Company 2 with efficient in-house ocean logistics facilities for the shipment of materials between various domestic/ international locations, but also insulate the Resulting Company 2 from the vagaries of third party logistic providers in the shipping industry and would thereby not only stabilize the operating costs of the Resulting Company 2 but also result in synergies and better utilisation of capabilities and resources. Further, the management of the Demerged Company 2 also believes that the demerger of the Demerged Undertaking 2 will result in better utilisation of capabilities and resources of the Demerged Undertaking 2. Since the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2 upon effectiveness of the amalgamation of the Transferor Company with the Transferee Company in accordance with Section II of the Scheme, the Demerged Company 2 there shall be no consideration payable by the Resulting Company 2 to the shareholder of the Demerged Company 2 (that is, the Resulting Company 2 itself) for the demerger of the Demerged Undertaking 2 from Demerged Company 2 and vesting of the same with the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital redemption reserve (if required), capital reserve (if required) and the securities premium account (if required) of the Resulting Company 2 shall be reduced to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 2 transferred to the Resulting Company 2 and the debit balance (if any) of the restructuring reserve account of the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the issued and paid-up equity share capital of the Demerged Company 2 will no longer be represented by the remaining assets of the Demerged Company 2 and accordingly the issued and paid-up equity share capital of the Demerged Company 2 shall be reduced. Further, Pursuant to the demerger of the Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital reserve (if required) and the securities premium account (if required) of the Demerged Company 2 shall be reduced to set off the debit balance (if any) of the restructuring reserve account of the Demerged Company 2.

The demerger of the Demerged Undertaking 1 by the Demerged Company 1 and vesting of the same with the Resulting Company 1 and the demerger of the Demerged Undertaking 2 by the Demerged Company 2 and vesting of the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)) would be in the best interests of the shareholders, creditors and employees of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1 respectively, as it would result in enhancement of shareholder value, operational efficiencies and greater focus and would enable the management of each of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1

respectively to vigorously pursue revenue growth and expansion opportunities.

In view of the above mentioned reasons, it is considered desirable and expedient to demerge the Demerged Undertaking 1 of the Demerged Company 1 and vest the same with the Resulting Company 1, to amalgamate the Transferor Company with the Transferee Company and to demerge the Demerged Undertaking 2 of the Demerged Company 2 and vest the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)). The above mentioned demerger of the Demerged Undertaking 1 and Demerged Undertaking 2 is also in accordance with Section 2(19AA) of the IT Act (*as defined hereinafter*). The above mentioned amalgamation is also in accordance with Section 2(1B) of the IT Act.

- 7.3 The demerger of the Demerged Undertaking 2 from the Demerged Company 2 and vesting of the same with the Resulting Company 2 pursuant to Section III of the Scheme shall *inter alia* result in reduction of the issued and paid-up share capital of the Demerged Company 2 (pursuant to Section II of the Scheme). Such reduction in the issued and paid-up equity share capital of the Demerged Company 2 would substantially enhance the unused authorised share capital in the Demerged Company 2. Accordingly, as an integral part of the Scheme and upon the effectiveness of Section III of the Scheme, an amount of Rs. 270,00,00,000 (Rupees Two Hundred and Seventy Crores only), shall stand transferred from the authorized equity share capital of the Demerged Company 2 to the authorized equity share capital of the Resulting Company 2 and upon such transfer, the authorized share capital of the Resulting Company 2 as set out in Clause 2.3 of Section III of the Scheme herein above shall stand enhanced to Rs. 455,00,00,000 (Rupees Four Hundred and Fifty Five Crores only) divided into 1,77,50,00,000 (one thousand seventy seven crores and fifty lakhs) equity shares of face value of Rs. 2 (Rupees Two only) each and 1,00,00,000 (one crore) redeemable preference shares of face value of Rs. 100 (Rupees Hundred only) each, without any further act, instrument or deed by the Resulting Company 2 and without any liability for payment of any additional fees or stamp duty in respect of such increase as the stamp duty and fees has already been paid by Demerged Company 2 on such authorized capital, the benefit of which stands vested in the Resulting Company 2 pursuant to the Scheme becoming effective on the Effective Date. Subsequent to enhancement of the authorized equity share capital of the Resulting Company 2 as contemplated herein, the authorized share capital clause of the Memorandum of Association (Clause V) of the Resulting Company 2 shall stand modified and read as follows:

"The Authorised Share Capital of the Company is Rs.

455,00,00,000 (Rupees Four Hundred and Fifty Five Crores only) divided into 1,77,50,00,000 (one thousand seventy seven crores and fifty lakhs) equity shares of face value of Rs. 2 (Rupees Two only) each and 1,00,00,000 (one crore) redeemable preference shares of face value of Rs. 100 (Rupees Hundred only) each.”

7.4 It is hereby clarified that for the purposes of this Clause 7 of Section III of the Scheme, the consent of the shareholders of the Resulting Company 2 to the Scheme shall be deemed to be sufficient for the purposes of effecting the above amendment and increase in authorised share capital of the Resulting Company 2, and no further resolutions or actions under Sections 13 and/or 61 of the 2013 Act and/ or any other applicable provisions of the Act would be required to be separately passed or taken. However, the Resulting Company 2 shall make the requisite filings with the RoC for the increase in its authorised share capital in the manner set out in this Clause 7 of Section III of the Scheme.

8. ISSUANCE OF COMPULSORILY CONVERTIBLE DEBENTURES BY THE RESULTING COMPANY 2

Further, upon such issuance and allotment of compulsorily convertible debentures by the Resulting Company 2 to the holders of the Transferee Company CCDs (other than the Resulting Company 2), the Demerged Company 2/Transferee Company shall without any further act, instrument or deed, cancel and extinguish all the Transferee Company CCDs issued by the Demerged Company 2/Transferee Company to the holders of the Transferee Company CCDs (including Resulting Company 2).

COMPOSITE SCHEME OF ARRANGEMENT

The proposed Composite Scheme of Arrangement (hereinafter referred to as the "Scheme") is comprising of three parts:

Part I

With a view to achieving greater management focus on its business interests in the manufacturing of steel pipes and steel pellets, the management of the Demerged Company 1 proposes to demerge its business interests in the infrastructure sector comprising of the Demerged Undertaking 1, and vest the same with the Resulting Company 1 (a wholly owned subsidiary of Demerged Company 1). The Demerged Company 1 will retain the manufacturing of steel pipes and steel pellets businesses. Further, the demerger of the Demerged Undertaking 1 and vesting of the same with Resulting Company 1 would enable the Resulting Company 1 to focus on infrastructure business and further create the value for all of its stakeholders. Further, the listing of the equity shares of Resulting Company 1 on the Stock Exchanges (as defined hereinafter) would help the shareholders of Resulting Company 1 to unlock the value of their shares. Pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, issued and paid-up equity share capital of the Resulting Company 1 would be reduced as a result of cancellation of the shares held by the Demerged Company 1 in the Resulting Company 1 and the securities premium account of the Resulting Company 1 shall be reduced to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 1 that have been transferred to the Resulting Company 1 pursuant to Section I of the Scheme. Further, pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, capital redemption reserve, capital reserve and the securities premium account, of the Demerged Company 1 shall be reduced to set off the losses (if any) arising as a

Fairness Opinion by SPA Capital Advisors Limited on the Share Entitlement Ratio Report for the Composite Scheme of Arrangement among Jindal Saw Limited, JTF Infralogistics Limited, JTF Shipyards Limited and JTF Waterways Limited

result of the demerger of the Demerged Undertaking 1 from the Demerged Company 1 to the Resulting Company 1. The definitions of Demerged Undertaking 1 and Demerged Business 1 are as provided under the Scheme.

As per the Scheme, Resulting Company 1 will issue its equity shares to the respective shareholders of Demerged Company 1 as a consideration for the demerger of Demerged Undertaking 1 as per share entitlement ratio. Upon coming into effect of the Scheme, and in consideration of the demerger of the Demerged Undertaking 1 and transfer and vesting thereof with the Resulting Company 1, the Resulting Company 1 shall, without any further act or deed and without any further payment, issue and allot equity shares to the equity shareholders of the Demerged Company 1, as on the Demerger 1 Record Date and compulsorily convertible debentures to the holders of compulsorily convertible debentures, as on the Demerger 1 Record Date, as follows:

“50 equity share of Rs. Two each as fully paid up in JITF Infralogistics Limited for every 622 equity share of Rs. Two each held in Jindal Saw Limited; and

50 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each as fully paid up in JITF Infralogistics Limited for every 622 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each held in Jindal Saw Limited.”

Part II

It is proposed, inter alia, to amalgamate the Transferor Company with the Transferee Company, on the Amalgamation Appointed Date), reduce the securities premium account (if required) of the Transferee Company, dissolution without winding up of the Transferor Company and change the name of the Transferee Company, pursuant to and under Sections 391 to 394 read with Sections 100- 103 of the 1956 Act and

other relevant provisions of the Act, in the manner provided for in Section II of the Scheme.

The amalgamation of the Transferor Company with the Transferee Company pursuant to and in accordance with this Scheme shall be in accordance with Section 2(1B) of the IT Act.

As per the Scheme, Transferee Company will issue its equity shares to the respective shareholders of Transferor Company as a consideration for the amalgamation of Transferor Company into Transferee Company as per share entitlement ratio. Transferee Company is a step down wholly owned subsidiary of Demerged Company 1 and by giving effect to Part II of the Scheme, it will become a direct wholly owned subsidiary of Demerged Company 1. Hence the share entitlement ratio is calculated based on the paid up share capital of the Transferor Company and Transferee Company so that the number of shares issued by Transferee Company is equivalent to the existing number of equity shares of Transferee Company. Upon coming into effect of the Scheme, and in consideration of the amalgamation of Transferor Company into Transferee Company, the Board of Transferee Company shall, without any further act or deed and without any further payment, issue and allot equity shares to the equity shareholders of the Demerged Company 1, as on the Amalgamation Record Date and compulsorily convertible debentures to the holders of compulsorily convertible debentures, as on the Amalgamation Record Date, as follows:

every 1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value of Rs. Ten crores (Rs. 10,00,00,000) each held in JITF Shipyards Limited."

In terms of Section III of this Scheme, it is proposed, inter alia, to demerge the Demerged Undertaking 2 (as defined hereinafter) of the Demerged Company 2, and vest the same with the Resulting Company 2, reduce the capital redemption reserve (if required), capital reserve (if required) and the securities premium account (if required) of the Resulting Company 2, reduce the capital reserve (if required) and the securities premium account (if required) of the Demerged Company 2, with effect from the Demerger Appointed Date 2 (as defined hereinafter) pursuant to and under Sections 391 to 394 read with Section 100 - 103 of the 1956 Act and/or other relevant provisions of the Act and the rules and regulations framed thereunder, in the manner provided for in Section III of the Scheme.

The demerger of the Demerged Undertaking 2 of the Demerged Company 2 and vesting of the same with the Resulting Company 2 pursuant to and in accordance with this Scheme shall be in accordance with Section 2(19AA) of the IT Act (as defined hereinafter). The definitions of Demerged Undertaking 2 and Demerged Business 2 are as provided under the Scheme.

COMMON APPROACHES TO VALUATION

Income Approach

The *Income Approach* measures the value of an asset by calculating the present value of its future economic benefits. When used to determine *Business value*, the *Income Approach* develops an indication of value by discounting forecasted cash flows to their present value at a rate of return that incorporates the risk-free rate for the use of funds plus the expected rate of inflation and the risks associated with the particular investment. The discount rate applied to these expected cash flows is generally based upon rates of return available from alternative investments of similar type and quality. Another discounting method calculates the company's *Weighted Average Cost of Capital* ("WACC") from its cost of debt and cost of equity. Forecasts typically cover three to five years, but the reliability of forecasts for valuation purposes in early stage enterprises depends upon many factors, such as the company's vulnerability to advances in technology, actions by competitors, changes in end-user requirements, & the availability of financing. Selecting the forecast period required our judgment.

The *Income Approach* works best when development stage companies have progressed to Stage five. Typically, companies in prior stages have limited operating histories and cash flow forecasts. Using the *Income Approach* when a company has not achieved profitability or positive cash flow, and therefore has negative flows/losses during some or all of the forecast years, results in an *equity Value* that consists mostly (if not entirely) of the *Terminal Value* ("TV" is the estimate of the *Company's* future value at the end of the forecast period).

Market Approach

The *Market Approach* measures the value of an asset through an analysis of recent sales of comparable property compared to the property being valued. When applied to the valuation of an equity interest, consideration is given to the financial condition and operating performance of the subject company compared to either publicly traded companies with similar lines of business or recent corporate acquisitions ("*Guideline Companies*"). Typically, the companies selected for comparison are subject to economic, political, competitive, and technological factors that correspond with those confronting the *Company*.

The *Market Approach* is conceptually preferable to the other two approaches both because it uses direct comparisons to similar enterprises and because the analysis is based upon actual market transactions. However, comparables that fit perfectly rarely exist. Privately held companies are compared to publicly traded ones that are typically further along in their stage of development, have superior access to capital, and have common stock that is readily marketable. Often historical results of public companies are being compared to projected results for the private company being valued. In order to reflect these differences, data from the *Guideline Companies* must be appropriately adjusted.

Asset Approach

The *Asset Approach* measures the value of an asset by the cost to reconstruct or replace it with another of like utility. When applied to the valuation of equity interests in businesses, value is based on the net aggregate *fair market value* of the entity's underlying assets.

This approach basically entails a restatement of the balance sheet of the enterprise in which the *fair market value* of its assets and liabilities are substituted for their book

values. This approach is frequently used to value holding companies or capital-intensive firms. It is typically not an appropriate valuation approach for growing operating companies which provide goods or services and which have significant intangible value. The same may be considered in conjunction with other approaches with lower weight age.

Sources of Information: The valuation was performed as per following information:

SUMMARY OF SHARE ENTITLEMENT RATIO PERFORMED BY KS-CA

METHODOLOGY ADOPTED

Net Asset Value Method:

KS-CA has used Net Asset Value Method for arriving share entitlement ratio for demerger of the infrastructure business *inter alia* through subsidiaries of Jindal Saw Limited into JITF Infralogistics Limited. Further, KS-CA has used the ratio of the paid up share capital of JITF Shipyards Limited and JITF Waterways Limited for arriving share entitlement ratio for amalgamation of JITF Shipyards Limited into JITF Waterways Limited.

Share Entitlement ratio suggested by KS-CA,

Fairness Opinion by SPA Capital Advisors Limited on the Share Entitlement Ratio Report for the Composite Scheme of Arrangement among Jindal Saw Limited, JITF Infralogistics Limited, JITF Shipyards Limited and JITF Waterways Limited

Part I

"50 equity share of Rs. Two each as fully paid up in JITF Infralogistics Limited for every 622 equity share of Rs. Two each held in Jindal Saw Limited; and

50 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each as fully paid up in JITF Infralogistics Limited for every 622 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each held in Jindal Saw Limited."

Part II

"26.987 (Twenty Six and Nine Hundred Eighty Seven thousandths only) equity share of Rs. Ten each as fully paid up in JITF Waterways Limited for every 10 equity share of Rs. Ten each held in JITF Shipyards Limited; and

1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value Rs. Ten crores (Rs. 10,00,00,000) each as fully paid up in JITF Waterways Limited for every 1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value of Rs. Ten crores (Rs. 10,00,00,000) each held in JITF Shipyards Limited."

Part III

Since JITF Waterways Limited will become wholly owned subsidiary of Jindal Saw Limited, no shares are to be issued.

CONCLUSION

Subject to the assumptions presented herein, in our opinion the Share Entitlement Ratio derived by KS-CA is fair considering circumstances and purpose of valuation.

We believe that the above share entitlement ratio is fair and reasonable considering that all the shareholders of Jindal Saw is and will, upon demerger, be the ultimate beneficial owners of the JITF Infralogistics Limited.

JITF Waterways is a step down wholly owned subsidiary of Jindal Saw and by giving effect to Part II of the Scheme, JITF Waterways will become a direct wholly owned subsidiary of Jindal Saw. Hence the share entitlement ratio is fair.

Since Demerged Company 2 will become wholly owned subsidiary of Resulting Company 2 after giving effect to Part II of the Scheme, based on the information above and the Scheme made available to us and to the best of our knowledge and belief, the demerger proposed is fair.

In addition, this Scheme also provides for various other matters consequential or otherwise integrally connected herewith.

B. RATIONALE FOR THE SCHEME

The Demerged Company 1 currently has business interests in diverse businesses such as manufacturing of steel pipes and steel pellets and infrastructure business. The management of the Demerged Company 1 believes that the business interests of the Demerged Company 1 in the Demerged Undertaking 1, which comprises of the business interests of the Demerged Company 1 in the infrastructure sector, require dedicated management focus and business strategies to develop the growth potential in the relevant business market. With a view to achieve greater management focus on its business interests in the manufacturing of steel pipes and steel pellets, the management of the Demerged Company 1 proposes to demerge its business interests in the infrastructure sector comprising of the Demerged Undertaking 1, and vest the same with the Resulting Company 1 (a wholly owned subsidiary of Demerged Company 1). The Demerged Company 1 will retain the manufacturing of steel pipes and steel pellets businesses. Further, the demerger of the Demerged Undertaking 1 and vesting of the same with Resulting Company 1 would enable the Resulting Company 1 to focus on infrastructure business and further create value for all of its stakeholders. Further, the listing of the equity shares of Resulting Company 1 on the Stock Exchanges (*as defined hereinafter*) would help the shareholders of Resulting Company 1 to unlock the value of their shares.

Pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the issued and paid-up equity share capital of the Resulting Company 1 would be reduced as a result of cancellation of the shares held by the Demerged Company 1 in the Resulting Company 1 and the securities premium account of the Resulting Company 1 shall be reduced (if required) to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 1 that are transferred to the Resulting Company 1 pursuant to Section I of the Scheme.

Further, pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the capital redemption reserve, capital reserve (if required) and the securities premium account (if required), of the Demerged Company 1 shall be reduced to set off the difference between the amount of assets and the amount of liabilities and accumulated accounting losses (if any), pertaining to the Demerged Undertaking 1 being transferred by the Demerged Company 1 pursuant to Section I of the Scheme and the amount of investment held by the Demerged Company 1 in the Resulting Company 1 and cancelled by Demerged Company 1.

Further, both the Transferor Company and the Transferee Company are engaged in waterways transportation business (consisting of ocean waterways and inland

waterways transportation). Therefore, with a view to consolidate the business interests of the Transferor Company and the Transferee Company in the waterways transportation business, the Transferee Company and the Transferor Company have decided that the Transferor Company with all its business interests including those in waterways transportation business (consisting of ocean waterways and inland waterways transportation), be amalgamated with its wholly owned subsidiary company, the Transferee Company which is also, *inter alia*, engaged in the waterways transportation business.

On a long term basis, management of the Transferee Company wishes to focus on inland waterway transportation business. Therefore, the proposed amalgamation of the Transferor Company comprising of its business interests, *inter alia*, in inland waterways transportation business with the Transferee Company would be in the best interests of the shareholders, creditors and employees of the Transferor Company and the Transferee Company and would also, *inter alia*, have the following benefits:

- (a) the proposed amalgamation would result in consolidation of the operations of inland waterways transportation business in the Transferee Company which will lead to synergies, reduction in operational costs and operational efficiencies in the existing operations of the inland waterways transportation business; and
- (b) the proposed amalgamation would result in better growth prospects in the inland waterways transportation business.

Further, pursuant to the amalgamation of the Transferor Company with the Transferee Company, the entire share capital of the Transferee Company held by the Transferor Company would be cancelled and the Transferor Company shall stand dissolved without winding up. Further, the capital reserve (if required) and the securities premium account (if required) of the Transferee Company shall be reduced to set off the debit balance (if any) of the capital reserve created pursuant to the amalgamation of the Transferor Company with the Transferee Company and accumulated accounting losses, if any, of the Transferor Company acquired by the Transferee Company pursuant to the amalgamation of the Transferor Company with the Transferee Company.

The Demerged Company 2 is a step down wholly owned subsidiary of the Resulting Company 2, however, pursuant to the amalgamation of the Transferor Company with the Demerged Company 2/Transferee Company, the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2. Demerged Company 2 has business interests in diverse businesses such as ocean waterways, inland waterways transportation and business process outsourcing. The Resulting Company 2 operates various manufacturing and job work facilities situated in India, USA, Italy, Dubai, etc. for production and sale of finished goods. With a view to integrate the manufacturing presence of the Resulting Company 2 in India and abroad, it is imperative for the Resulting Company 2 to have its own ocean logistics support system for transit of finished goods between multiple domestic/ international locations. Therefore, the demerger of the Demerged Undertaking 2

and vesting of the same with Resulting Company 2 would not only enable the Resulting Company 2 to strengthen its ocean logistics capabilities by providing the Resulting Company 2 with efficient in-house ocean logistics facilities for the shipment of materials between various domestic/ international locations, but also insulate the Resulting Company 2 from the vagaries of third party logistic providers in the shipping industry and would thereby not only stabilize the operating costs of the Resulting Company 2 but also result in synergies and better utilisation of capabilities and resources. Further, the management of the Demerged Company 2 also believes that the demerger of the Demerged Undertaking 2 will result in better utilisation of capabilities and resources of the Demerged Undertaking 2. Since the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2 upon effectiveness of the amalgamation of the Transferor Company with the Transferee Company in accordance with Section II of the Scheme, the Demerged Company 2 there shall be no consideration payable by the Resulting Company 2 to the shareholder of the Demerged Company 2 (that is, the Resulting Company 2 itself) for the demerger of the Demerged Undertaking 2 from Demerged Company 2 and vesting of the same with the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital redemption reserve (if required), capital reserve (if required) and the securities premium account (if required) of the Resulting Company 2 shall be reduced to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 2 transferred to the Resulting Company 2 and the debit balance (if any) of the restructuring reserve account of the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the issued and paid-up equity share capital of the Demerged Company 2 will no longer be represented by the remaining assets of the Demerged Company 2 and accordingly the issued and paid-up equity share capital of the Demerged Company 2 shall be reduced. Further, Pursuant to the demerger of the Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital reserve (if required) and the securities premium account (if required) of the Demerged Company 2 shall be reduced to set off the debit balance (if any) of the restructuring reserve account of the Demerged Company 2.

The demerger of the Demerged Undertaking 1 by the Demerged Company 1 and vesting of the same with the Resulting Company 1 and the demerger of the Demerged Undertaking 2 by the Demerged Company 2 and vesting of the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)) would be in the best interests of the shareholders, creditors and employees of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1 respectively, as it would result in enhancement of shareholder value, operational efficiencies and greater focus and would enable the management of each of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1

respectively to vigorously pursue revenue growth and expansion opportunities.

In view of the above mentioned reasons, it is considered desirable and expedient to demerge the Demerged Undertaking 1 of the Demerged Company 1 and vest the same with the Resulting Company 1, to amalgamate the Transferor Company with the Transferee Company and to demerge the Demerged Undertaking 2 of the Demerged Company 2 and vest the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)). The above mentioned demerger of the Demerged Undertaking 1 and Demerged Undertaking 2 is also in accordance with Section 2(19AA) of the IT Act (*as defined hereinafter*). The above mentioned amalgamation is also in accordance with Section 2(1B) of the IT Act.

The aforesaid reduction in the securities premium account of the Demerged Company 2 would not involve either a diminution of liability in respect of the unpaid share capital or payment of paid-up share capital and the provisions of Section 101 of the 1956 Act (and Section 66(1)(a) of the 2013 Act, if in force) shall not be applicable. Notwithstanding the reduction in the securities premium account of the Demerged Company 2, the Demerged Company 2 shall not be required to add "And Reduced" as suffix to its name.
- 5.9. It is expressly clarified that for the purposes of Clause 5 of Section III of the Scheme, the consent of the shareholders of the Demerged Company 2 to the Scheme and the consent of the secured and unsecured creditors of the Demerged Company 2 to the Scheme shall be deemed to be sufficient for the purposes of effecting the reduction in the securities premium account of the Demerged Company 2 and no further resolution and/or action under Section 100 and/ or Section 101 of the 1956 Act (or Section 66(1)(a) of the 2013 Act, if in force) and/ or any other applicable provisions of the Act and rules and regulations framed thereunder would be required to be separately passed or taken.

- 5.10. The reduction of the securities premium account of the Demerged Company 2 shall become effective, in accordance with the provisions of Section 103 of the 1956 Act (or Section 66(1)(a) of the 2013 Act, if in force) and/ or any other applicable provisions of the Act and rules and regulations framed thereunder pursuant to filing of the order of the Court sanctioning the aforesaid reduction by the Demerged Company 2 with the RoC and upon registration by the RoC of such order of the Court and of the minute approved by the Court, with respect to the securities premium account of the Demerged Company 2 as altered by the order and the amount of reduction in the securities premium account of the Demerged Company 2.
- 5.11. The reduction of the securities premium account of the Demerged Company 2 shall become effective as set out in Clause 5.10 of Section III of the Scheme and shall be conditional upon Section III of the Scheme becoming effective on the Effective Date and with effect from the Demerger Appointed Date 2 and shall take place after giving effect to Clauses 6.2 (b) and (c) of Section III of the Scheme. If this Scheme is, for any reason whatsoever, not sanctioned by the Court, such reorganization resulting in reduction in the capital reserve and the securities premium account of the Demerged Company 2, as set out in this Clause 5 of Section III of the Scheme shall not become effective and shall be deemed to be redundant.

7. TRANSFER OF THE AUTHORIZED SHARE CAPITAL

- 7.3 The demerger of the Demerged Undertaking 2 from the Demerged Company 2 and vesting of the same with the Resulting Company 2 pursuant to Section III of the Scheme shall *inter alia* result in reduction of the issued and paid-up share capital of the Demerged Company 2 (pursuant to Section II of the Scheme). Subsequent to enhancement of the authorized equity share capital of the Resulting Company 2 as contemplated herein, the authorized share capital clause of the Memorandum of Association (Clause V) of the Resulting Company 2 shall stand modified and read as follows:

"The Authorised Share Capital of the Company is Rs.

455,00,00,000 (Rupees Four Hundred and Fifty Five Crores only) divided into 1,77,50,00,000 (one thousand seventy seven crores and fifty lakhs) equity shares of face value of Rs. 2 (Rupees Two only) each and 1,00,00,000 (one crore) redeemable preference shares of face value of Rs. 100 (Rupees Hundred only) each.”

7.4 It is hereby clarified that for the purposes of this Clause 7 of Section III of the Scheme, the consent of the shareholders of the Resulting Company 2 to the Scheme shall be deemed to be sufficient for the purposes of effecting the above amendment and increase in authorised share capital of the Resulting Company 2, and no further resolutions or actions under Sections 13 and/or 61 of the 2013 Act and/ or any other applicable provisions of the Act would be required to be separately passed or taken. However, the Resulting Company 2 shall make the requisite filings with the RoC for the increase in its authorised share capital in the manner set out in this Clause 7 of Section III of the Scheme.

In addition, this Scheme also provides for various other matters consequential or otherwise integrally connected herewith.

B. RATIONALE FOR THE SCHEME

The Demerged Company 1 currently has business interests in diverse businesses such as manufacturing of steel pipes and steel pellets and infrastructure business. The management of the Demerged Company 1 believes that the business interests of the Demerged Company 1 in the Demerged Undertaking 1, which comprises of the business interests of the Demerged Company 1 in the infrastructure sector, require dedicated management focus and business strategies to develop the growth potential in the relevant business market. With a view to achieve greater management focus on its business interests in the manufacturing of steel pipes and steel pellets, the management of the Demerged Company 1 proposes to demerge its business interests in the infrastructure sector comprising of the Demerged Undertaking 1, and vest the same with the Resulting Company 1 (a wholly owned subsidiary of Demerged Company 1). The Demerged Company 1 will retain the manufacturing of steel pipes and steel pellets businesses. Further, the demerger of the Demerged Undertaking 1 and vesting of the same with Resulting Company 1 would enable the Resulting Company 1 to focus on infrastructure business and further create value for all of its stakeholders. Further, the listing of the equity shares of Resulting Company 1 on the Stock Exchanges (*as defined hereinafter*) would help the shareholders of Resulting Company 1 to unlock the value of their shares.

Pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the issued and paid-up equity share capital of the Resulting Company 1 would be reduced as a result of cancellation of the shares held by the Demerged Company 1 in the Resulting Company 1 and the securities premium account of the Resulting Company 1 shall be reduced (if required) to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 1 that are transferred to the Resulting Company 1 pursuant to Section I of the Scheme.

Further, pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, the capital redemption reserve, capital reserve (if required) and the securities premium account (if required), of the Demerged Company 1 shall be reduced to set off the difference between the amount of assets and the amount of liabilities and accumulated accounting losses (if any), pertaining to the Demerged Undertaking 1 being transferred by the Demerged Company 1 pursuant to Section I of the Scheme and the amount of investment held by the Demerged Company 1 in the Resulting Company 1 and cancelled by Demerged Company 1.

Further, both the Transferor Company and the Transferee Company are engaged in waterways transportation business (consisting of ocean waterways and inland

waterways transportation). Therefore, with a view to consolidate the business interests of the Transferor Company and the Transferee Company in the waterways transportation business, the Transferee Company and the Transferor Company have decided that the Transferor Company with all its business interests including those in waterways transportation business (consisting of ocean waterways and inland waterways transportation), be amalgamated with its wholly owned subsidiary company, the Transferee Company which is also, *inter alia*, engaged in the waterways transportation business.

On a long term basis, management of the Transferee Company wishes to focus on inland waterway transportation business. Therefore, the proposed amalgamation of the Transferor Company comprising of its business interests, *inter alia*, in inland waterways transportation business with the Transferee Company would be in the best interests of the shareholders, creditors and employees of the Transferor Company and the Transferee Company and would also, *inter alia*, have the following benefits:

- (a) the proposed amalgamation would result in consolidation of the operations of inland waterways transportation business in the Transferee Company which will lead to synergies, reduction in operational costs and operational efficiencies in the existing operations of the inland waterways transportation business; and
- (b) the proposed amalgamation would result in better growth prospects in the inland waterways transportation business.

Further, pursuant to the amalgamation of the Transferor Company with the Transferee Company, the entire share capital of the Transferee Company held by the Transferor Company would be cancelled and the Transferor Company shall stand dissolved without winding up. Further, the capital reserve (if required) and the securities premium account (if required) of the Transferee Company shall be reduced to set off the debit balance (if any) of the capital reserve created pursuant to the amalgamation of the Transferor Company with the Transferee Company and accumulated accounting losses, if any, of the Transferor Company acquired by the Transferee Company pursuant to the amalgamation of the Transferor Company with the Transferee Company.

The Demerged Company 2 is a step down wholly owned subsidiary of the Resulting Company 2, however, pursuant to the amalgamation of the Transferor Company with the Demerged Company 2/Transferee Company, the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2. Demerged Company 2 has business interests in diverse businesses such as ocean waterways, inland waterways transportation and business process outsourcing. The Resulting Company 2 operates various manufacturing and job work facilities situated in India, USA, Italy, Dubai, etc. for production and sale of finished goods. With a view to integrate the manufacturing presence of the Resulting Company 2 in India and abroad, it is imperative for the Resulting Company 2 to have its own ocean logistics support system for transit of finished goods between multiple domestic/ international locations. Therefore, the demerger of the Demerged Undertaking 2

and vesting of the same with Resulting Company 2 would not only enable the Resulting Company 2 to strengthen its ocean logistics capabilities by providing the Resulting Company 2 with efficient in-house ocean logistics facilities for the shipment of materials between various domestic/ international locations, but also insulate the Resulting Company 2 from the vagaries of third party logistic providers in the shipping industry and would thereby not only stabilize the operating costs of the Resulting Company 2 but also result in synergies and better utilisation of capabilities and resources. Further, the management of the Demerged Company 2 also believes that the demerger of the Demerged Undertaking 2 will result in better utilisation of capabilities and resources of the Demerged Undertaking 2. Since the Demerged Company 2 will become a direct wholly owned subsidiary of the Resulting Company 2 upon effectiveness of the amalgamation of the Transferor Company with the Transferee Company in accordance with Section II of the Scheme, the Demerged Company 2 there shall be no consideration payable by the Resulting Company 2 to the shareholder of the Demerged Company 2 (that is, the Resulting Company 2 itself) for the demerger of the Demerged Undertaking 2 from Demerged Company 2 and vesting of the same with the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital redemption reserve (if required), capital reserve (if required) and the securities premium account (if required) of the Resulting Company 2 shall be reduced to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 2 transferred to the Resulting Company 2 and the debit balance (if any) of the restructuring reserve account of the Resulting Company 2.

Pursuant to the demerger of Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the issued and paid-up equity share capital of the Demerged Company 2 will no longer be represented by the remaining assets of the Demerged Company 2 and accordingly the issued and paid-up equity share capital of the Demerged Company 2 shall be reduced. Further, Pursuant to the demerger of the Demerged Undertaking 2 and vesting of the same in the Resulting Company 2, the capital reserve (if required) and the securities premium account (if required) of the Demerged Company 2 shall be reduced to set off the debit balance (if any) of the restructuring reserve account of the Demerged Company 2.

The demerger of the Demerged Undertaking 1 by the Demerged Company 1 and vesting of the same with the Resulting Company 1 and the demerger of the Demerged Undertaking 2 by the Demerged Company 2 and vesting of the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)) would be in the best interests of the shareholders, creditors and employees of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1 respectively, as it would result in enhancement of shareholder value, operational efficiencies and greater focus and would enable the management of each of the Demerged Company 1/ Resulting Company 2, the Demerged Company 2 and the Resulting Company 1

respectively to vigorously pursue revenue growth and expansion opportunities.

In view of the above mentioned reasons, it is considered desirable and expedient to demerge the Demerged Undertaking 1 of the Demerged Company 1 and vest the same with the Resulting Company 1, to amalgamate the Transferor Company with the Transferee Company and to demerge the Demerged Undertaking 2 of the Demerged Company 2 and vest the same with the Resulting Company 2 (after the amalgamation of the Transferor Company with the Transferee Company (i.e. Demerged Company 2)). The above mentioned demerger of the Demerged Undertaking 1 and Demerged Undertaking 2 is also in accordance with Section 2(19AA) of the IT Act (*as defined hereinafter*). The above mentioned amalgamation is also in accordance with Section 2(1B) of the IT Act.

COMPOSITE SCHEME OF ARRANGEMENT

The proposed Composite Scheme of Arrangement (hereinafter referred to as the "Scheme") is comprising of three parts:

Part I

With a view to achieving greater management focus on its business interests in the manufacturing of steel pipes and steel pellets, the management of the Demerged Company 1 proposes to demerge its business interests in the infrastructure sector comprising of the Demerged Undertaking 1, and vest the same with the Resulting Company 1 (a wholly owned subsidiary of Demerged Company 1). The Demerged Company 1 will retain the manufacturing of steel pipes and steel pellets businesses. Further, the demerger of the Demerged Undertaking 1 and vesting of the same with Resulting Company 1 would enable the Resulting Company 1 to focus on infrastructure business and further create the value for all of its stakeholders. Further, the listing of the equity shares of Resulting Company 1 on the Stock Exchanges (as defined hereinafter) would help the shareholders of Resulting Company 1 to unlock the value of their shares. Pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, issued and paid-up equity share capital of the Resulting Company 1 would be reduced as a result of cancellation of the shares held by the Demerged Company 1 in the Resulting Company 1 and the securities premium account of the Resulting Company 1 shall be reduced to set off the accumulated accounting losses (if any) relating to the Demerged Undertaking 1 that have been transferred to the Resulting Company 1 pursuant to Section I of the Scheme. Further, pursuant to the demerger of Demerged Undertaking 1 and vesting of the same in the Resulting Company 1, capital redemption reserve, capital reserve and the securities premium account, of the Demerged Company 1 shall be reduced to set off the losses (if any) arising as a

Fairness Opinion by SPA Capital Advisors Limited on the Share Entitlement Ratio Report for the Composite Scheme of Arrangement among Jindal Saw Limited, JTF Infralogistics Limited, JTF Shipyards Limited and JTF Waterways Limited

result of the demerger of the Demerged Undertaking 1 from the Demerged Company 1 to the Resulting Company 1. The definitions of Demerged Undertaking 1 and Demerged Business 1 are as provided under the Scheme.

As per the Scheme, Resulting Company 1 will issue its equity shares to the respective shareholders of Demerged Company 1 as a consideration for the demerger of Demerged Undertaking 1 as per share entitlement ratio. Upon coming into effect of the Scheme, and in consideration of the demerger of the Demerged Undertaking 1 and transfer and vesting thereof with the Resulting Company 1, the Resulting Company 1 shall, without any further act or deed and without any further payment, issue and allot equity shares to the equity shareholders of the Demerged Company 1, as on the Demerger 1 Record Date and compulsorily convertible debentures to the holders of compulsorily convertible debentures, as on the Demerger 1 Record Date, as follows:

"50 equity share of Rs. Two each as fully paid up in JITF Infralogistics Limited for every 622 equity share of Rs. Two each held in Jindal Saw Limited; and

50 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each as fully paid up in JITF Infralogistics Limited for every 622 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each held in Jindal Saw Limited."

Part II

It is proposed, inter alia, to amalgamate the Transferor Company with the Transferee Company, on the Amalgamation Appointed Date), reduce the securities premium account (if required) of the Transferee Company, dissolution without winding up of the Transferor Company and change the name of the Transferee Company, pursuant to and under Sections 391 to 394 read with Sections 100- 103 of the 1956 Act and

other relevant provisions of the Act, in the manner provided for in Section II of the Scheme.

The amalgamation of the Transferor Company with the Transferee Company pursuant to and in accordance with this Scheme shall be in accordance with Section 2(1B) of the IT Act.

As per the Scheme, Transferee Company will issue its equity shares to the respective shareholders of Transferor Company as a consideration for the amalgamation of Transferor Company into Transferee Company as per share entitlement ratio. Transferee Company is a step down wholly owned subsidiary of Demerged Company 1 and by giving effect to Part II of the Scheme, it will become a direct wholly owned subsidiary of Demerged Company 1. Hence the share entitlement ratio is calculated based on the paid up share capital of the Transferor Company and Transferee Company so that the number of shares issued by Transferee Company is equivalent to the existing number of equity shares of Transferee Company. Upon coming into effect of the Scheme, and in consideration of the amalgamation of Transferor Company into Transferee Company, the Board of Transferee Company shall, without any further act or deed and without any further payment, issue and allot equity shares to the equity shareholders of the Demerged Company 1, as on the Amalgamation Record Date and compulsorily convertible debentures to the holders of compulsorily convertible debentures, as on the Amalgamation Record Date, as follows:

“26.987 (Twenty Six and Nine Hundred Eighty Seven thousandths only) equity share of Rs. Ten each as fully paid up in JITF Waterways Limited for every 10 equity share of Rs. Ten each held in JITF Shipyards Limited; and

every 1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value of Rs. Ten crores (Rs. 10,00,00,000) each held in JITF Shipyards Limited."

Part III

In terms of Section III of this Scheme, it is proposed, inter alia, to demerge the Demerged Undertaking 2 (as defined hereinafter) of the Demerged Company 2, and vest the same with the Resulting Company 2, reduce the capital redemption reserve (if required), capital reserve (if required) and the securities premium account (if required) of the Resulting Company 2, reduce the capital reserve (if required) and the securities premium account (if required) of the Demerged Company 2, with effect from the Demerger Appointed Date 2 (as defined hereinafter) pursuant to and under Sections 391 to 394 read with Section 100 - 103 of the 1956 Act and/or other relevant provisions of the Act and the rules and regulations framed thereunder, in the manner provided for in Section III of the Scheme.

The demerger of the Demerged Undertaking 2 of the Demerged Company 2 and vesting of the same with the Resulting Company 2 pursuant to and in accordance with this Scheme shall be in accordance with Section 2(19AA) of the IT Act (as defined hereinafter). The definitions of Demerged Undertaking 2 and Demerged Business 2 are as provided under the Scheme.

COMMON APPROACHES TO VALUATION

Income Approach

The *Income Approach* measures the value of an asset by calculating the present value of its future economic benefits. When used to determine *Business value*, the *Income Approach* develops an indication of value by discounting forecasted cash flows to their present value at a rate of return that incorporates the risk-free rate for the use of funds plus the expected rate of inflation and the risks associated with the particular investment. The discount rate applied to these expected cash flows is generally based upon rates of return available from alternative investments of similar type and quality. Another discounting method calculates the company's *Weighted Average Cost of Capital* ("WACC") from its cost of debt and cost of equity. Forecasts typically cover three to five years, but the reliability of forecasts for valuation purposes in early stage enterprises depends upon many factors, such as the company's vulnerability to advances in technology, actions by competitors, changes in end-user requirements, & the availability of financing. Selecting the forecast period required our judgment.

The *Income Approach* works best when development stage companies have progressed to Stage five. Typically, companies in prior stages have limited operating histories and cash flow forecasts. Using the *Income Approach* when a company has not achieved profitability or positive cash flow, and therefore has negative flows/losses during some or all of the forecast years, results in an *equity Value* that consists mostly (if not entirely) of the *Terminal Value* ("TV" is the estimate of the *Company's* future value at the end of the forecast period).

Market Approach

The *Market Approach* measures the value of an asset through an analysis of recent sales of comparable property compared to the property being valued. When applied to the valuation of an equity interest, consideration is given to the financial condition and operating performance of the subject company compared to either publicly traded companies with similar lines of business or recent corporate acquisitions (“*Guideline Companies*”). Typically, the companies selected for comparison are subject to economic, political, competitive, and technological factors that correspond with those confronting the *Company*.

The *Market Approach* is conceptually preferable to the other two approaches both because it uses direct comparisons to similar enterprises and because the analysis is based upon actual market transactions. However, comparables that fit perfectly rarely exist. Privately held companies are compared to publicly traded ones that are typically further along in their stage of development, have superior access to capital, and have common stock that is readily marketable. Often historical results of public companies are being compared to projected results for the private company being valued. In order to reflect these differences, data from the *Guideline Companies* must be appropriately adjusted.

Asset Approach

The *Asset Approach* measures the value of an asset by the cost to reconstruct or replace it with another of like utility. When applied to the valuation of equity interests in businesses, value is based on the net aggregate *fair market value* of the entity's underlying assets.

This approach basically entails a restatement of the balance sheet of the enterprise in which the *fair market value* of its assets and liabilities are substituted for their book

values. This approach is frequently used to value holding companies or capital-intensive firms. It is typically not an appropriate valuation approach for growing operating companies which provide goods or services and which have significant intangible value. The same may be considered in conjunction with other approaches with lower weight age.

Sources of Information: The valuation was performed as per following information:

- Draft Composite Scheme of Arrangement
- Share entitlement ratio report dated 10th November, 2015 by Khandelia & Sharma, chartered accountants
- Information and Explanation given by management as used for valuation

SUMMARY OF SHARE ENTITLEMENT RATIO PERFORMED BY KS-CA

METHODOLOGY ADOPTED

Net Asset Value Method:

KS-CA has used Net Asset Value Method for arriving share entitlement ratio for demerger of the infrastructure business *inter alia* through subsidiaries of Jindal Saw Limited into JITF Infralogistics Limited. Further, KS-CA has used the ratio of the paid up share capital of JITF Shipyards Limited and JITF Waterways Limited for arriving share entitlement ratio for amalgamation of JITF Shipyards Limited into JITF Waterways Limited.

Share Entitlement ratio suggested by KS-CA,

Fairness Opinion by SPA Capital Advisors Limited on the Share Entitlement Ratio Report for the Composite Scheme of Arrangement among Jindal Saw Limited, JITF Infralogistics Limited, JITF Shipyards Limited and JITF Waterways Limited

Part I

"50 equity share of Rs. Two each as fully paid up in JITF Infralogistics Limited for every 622 equity share of Rs. Two each held in Jindal Saw Limited; and

50 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each as fully paid up in JITF Infralogistics Limited for every 622 Compulsorily Convertible Debentures having coupon rate of 0% of Rs. 81.10 (Eighty one and paise ten only) each held in Jindal Saw Limited."

Part II

"26.987 (Twenty Six and Nine Hundred Eighty Seven thousandths only) equity share of Rs. Ten each as fully paid up in JITF Waterways Limited for every 10 equity share of Rs. Ten each held in JITF Shipyards Limited; and

1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value Rs. Ten crores (Rs. 10,00,00,000) each as fully paid up in JITF Waterways Limited for every 1 Compulsorily Convertible Debenture having coupon rate of 9.25% of face value of Rs. Ten crores (Rs. 10,00,00,000) each held in JITF Shipyards Limited."

Part III

Since JITF Waterways Limited will become wholly owned subsidiary of Jindal Saw Limited, no shares are to be issued.

CONCLUSION

Subject to the assumptions presented herein, in our opinion the Share Entitlement Ratio derived by KS-CA is fair considering circumstances and purpose of valuation.

We believe that the above share entitlement ratio is fair and reasonable considering that all the shareholders of Jindal Saw is and will, upon demerger, be the ultimate beneficial owners of the JITF Infralogistics Limited.

JITF Waterways is a step down wholly owned subsidiary of Jindal Saw and by giving effect to Part II of the Scheme, JITF Waterways will become a direct wholly owned subsidiary of Jindal Saw. Hence the share entitlement ratio is fair.

Since Demerged Company 2 will become wholly owned subsidiary of Resulting Company 2 after giving effect to Part II of the Scheme, based on the information above and the Scheme made available to us and to the best of our knowledge and belief, the demerger proposed is fair.
