PRESS RELEASE

Aurionpro Deploys ValidSoft Voice Biometrics across Digital Innovation Products and Solutions

Mumbai, 18th, March, 2016

Aurionpro Solutions Ltd (NSE: AURIONPRO) (BSE: 532668), a global provider of products and technology solutions for accelerating digital innovation, securely and efficiently, announced a strategic and industry collaboration agreement with ValidSoft, to deploy its 'User Authentication' solution across their range of digital innovation products & solutions. This partnership has now moved to full integration phase for a number of use cases, utilising ValidSoft's voice biometrics at the core for secure authentication and exceptional user experience across a customer engagement lifecycle.

By integrating ValidSoft as an innovative authentication layer, Aurionpro's products for accelerating Digital Innovation (which include Digital Branch DX, Queue Management and Digital Signage DX) enable Aurionpro to offer a wide range of digital transactions to the consumer. This agreement ensures Aurionpro can secure multiple digital channels across a business in a secure yet seamless way for users.

Nirav Shah, Chief Operating Officer, Global Head - Digital Innovation, Aurionpro said, 'In a world that is constantly digital, security acts as a key differentiator to the business. Intelligent authentication and voice biometrics have a big role to play in accelerating digital innovation, securely and efficiently. The addressable market potential is enormous. With ValidSoft, we are now able to deliver a seamless and personalized experience for consumers across multiple channels through our Digital Innovation offerings. We believe this collaboration will give our clients the ability to offer immersive digital experiences to their consumers.'

Voice biometrics has become an increasingly essential feature in digital processes for enterprises and lends itself to a wide variety of use cases. Aurionpro and ValidSoft have now moved to the full integration phase, to deploy the technology and solution into a number of key use cases and operational workflows for the banking and financial services industry. Applications include, but are not limited to:

- Digital Branch
- Mobile App Authentication
- Customer Interaction Management
- Enterprise Identity and Access Management

Pat Carroll, Chief Executive Officer for ValidSoft said 'We are delighted to partner with Aurionpro, a company that has clearly recognised the importance of next level customer and employee experience. With this latest phase of integration, Aurionpro have clearly identified the value of our intelligent authentication solution and how using ValidSoft as

an authentication layer across their portfolio can drive even greater value to their digital transformation solutions. We look forward to a highly successful relationship.'
