Parnassus Data Partners with Solix for Big Data

Leading Chinese database services company to offer common data platform for Information Lifecycle Management (ILM) and advanced analytics based on Apache Hadoop.

March 21, 2016 — Santa Clara, California — Solix Technologies, Inc., the leading provider of Information Lifecycle Management (ILM) solutions for Apache Hadoop, announced today that Chinese database service company Parnassus Data has selected the Solix Big Data Suite to deliver archiving, application retirement and advanced analytics on Apache Hadoop.

Apache Hadoop is an ideal platform for ILM because it offers highly scalable, low-cost, bulk storage for enterprise data. Parnassus Data will offer the Solix Big Data Suite to its customers to improve application performance, reduce costs, and meet governance, risk and compliance requirements. As a common data platform for the enterprise, the Solix Big Data Suite provides advanced analytics against large data sets of structured and unstructured data.

*"As a common data platform Apache Hadoop is ideal for advanced enterprise analytics and ILM applications," said **John Ottman Executive Chairman at Solix Technologies, Inc.** "We look forward to working with Parnassus Data in the Greater China market."*

*"Solix is the only vendor today providing a solution that provides comprehensive Information Lifecycle Management (ILM) for all enterprise data. It's lucky for us to have so strong partner in China said **Maclean Liu, CEO at Parnassus Data.** "*
