**MARSONS LTD BAGS EPC CONTRACT WORTH INR 780 MILLION FROM TEKELEC GENERAL TRADING LLC.  
DUBAI, UAE**

Marsons forays into EPC by securing a contract worth approximately INR 780 million for Supplying and Installation of 18 nos.16 MVA, 33/11.5 KV, Mobile Substation with Tekelec General Trading LLC, Dubai, UAE. The completion of this contract will add new chapter in the 60 years history of Marsons Ltd and this opens up a highly lucrative opportunity of EPC business, especially in the Middle East region including the entire GCC region along with the ever-growing markets of the African Continent.

Marsons Ltd is an established company since 1957 manufacturing Power and Distribution transformers up to 160 MVA 220 KV Class based out of Kolkata. Marsons has a distinctive advantage of being the only company in whole of eastern region manufacturing such large transformers and now as the government of India has a major thrust in power development of the north east region, the company will immensely benefit from this initiative of the present Government. Further it may be noted that Marsons is the only company in this region to attain NABL accreditation for its testing laboratory.

The Chairman further states that the company is now poised for extraordinary growth in the near future. Meanwhile the company has planned a complete modernization of its current facilities in Kolkata during the coming financial year 2016-17 with an estimated expenditure of INR 120 million.
