

PRESS RELEASE

MSR ENTERING INTO AEROSPACE & DEFENCE INDUSTRY

MSR India Limited is entering into Forging & Extrusion segment, for this purpose the company has recently imported 2000T cold forging machine from Europe. It is one of the rarest kind of machine in the India. It can be used for all kinds of Extrusion & Forging purposes. Indian Forging & Extrusion market is growing at rapid pace. MSR India Limited has set up a in house R&D facility to overcome the technological constraints and to become industry leader in the segment. Govt of India has been encouraging Make in India concept and has been giving huge benefits to Companies especially Defense & Aerospace Companies, taking a cue from that we have also entered into Forging & Extrusion Sector. The Company can produce **SPECIAL PURPOSE COMPONENTS** for Aerospace & Defense Industry with the help of the 2000T Cold forging machine, the company expects to rake in huge revenue from Aerospace & Defense Sector. Apart from Aerospace & Defense Company will also focus on the following industries :

1. AUTOMOTIVE
2. ELECTRICAL APPLICATIONS
3. CONSUMER PRODUCTS
4. AGRICULTURAL EQUIPMENT
