*'India's star shines bright amid global economic challenges.'* Christine Lagarde, IMF chief

'India' has been the catalyst for our business growth over the last five years. This belief stems from an important reality – growing volumes and increasing shelf space by our business partners (distribution network) dotting the Indian landscape especially in smaller cities and towns. This has helped us sustain improved numbers in good times and bad.

Our Q4/2015-16 performance strengthened our belief further. Revenue grew by 12% over the corresponding period in the previous year; EBIDTA and Net Profit accelerated at a faster clip – 30% and 28% respectively during the same period.

For all those seeking growth in our prospects, the bottomline then is that we are betting big on India. Our optimism stems from the continuing reform process, large-ticket transformative Government policies, softening interest rates and declining fuel costs.

At Kajaria, we remain focused on widening our locational manufacturing presence and launching novel concepts that enable us to move closer to our customers and provide them with a unique experience.
