Cambridge Innovations expands portfolio with Valet Anywhere investment

U.S. based on-demand valet service to accelerate its technology roadmap and market penetration

Hyderabad, India, 6th April 2016 - Cambridge Innovations (CI), a leading investment and technology platform that is pioneering the way transformative companies grow, today announced an investment in Valet Anywhere, a revolutionary new on-demand valet service transforming the way people own cars in cities.

Founded in New York City in 2013, Valet Anywhere is seeking to transform the way people own cars in cities by making long-term parking more convenient and secure at prices lower than most garages. Customers simply download the app and request a valet from anywhere in the city. Valet Anywhere's staff picks up the car, parks it securely, and returns it to the customer. It's the first monthly parking spot that comes to the user. The company has raised \$2.45 million from CyberAgent Ventures, AngelPad, Urban.US and other angel investors. Valet Anywhere has now reached a \$3.1 million annual revenue run-rate and a current customer base of over 700.

Cambridge Innovations will help Valet Anywhere accelerate and extend its product offerings and enable the company to scale more rapidly to new markets. Valet Anywhere joins CI's growing investment portfolio of ventures which include RoadZen, Causemo, Authess, MyCrowd and Anthill Ventures. Like Valet Anywhere, CI aims to invest in startups with the potential to leverage technology, big data and machine learning to disrupt markets through the creation of efficient products and services. CI provides these early stage entrepreneurs with investment and the technical knowledge to grow.

Robert Kao, CEO of Valet Anywhere said, "This investment fuels our vision to change the world of driving and parking across cities. Partnering with CI enables us to strengthen our technical expertise and accelerate our product vision establishing Valet Anywhere as the go-to solution to eliminate the stress and inconvenience of parking in major cities. Our mission is to give people the freedom to go anywhere and do anything without ever having to deal with parking."

Commenting on the recent investment, Aashish Kalra, Chairman of CTE said, "We are delighted to partner with Valet Anywhere. The inconvenience of long term parking in a crowded city has implications both for the consumer and infrastructure. Valet Anywhere is addressing a market need through big data and machine learning innovation. We see tremendous global potential and are confident Valet Anywhere will be an essential service for any large city. We are excited to partner and help the company accelerate its vision".

About Cambridge Innovations:

For seed and growth-stage entrepreneurs seeking rapid growth, Cambridge Innovations provides capital and resources to reduce technology risk. Founded by experienced entrepreneurs, CI partners closely with entrepreneurs, reducing capital risk and accelerating the technology roadmap. With some of the world's most experienced strategy and development teams, entrepreneurs gain more time to shape and sell their vision and get to a better Series A faster. Learn more at www.c7e.io. CI is launched by Cambridge Technology Enterprises (NSE: CTE; BSE: 532801), a technology services leader focused on the convergence of big data and cloud.
