Division wise performance and highlights are as under:

ENERGETICS DIVISION AT HYDERABAD

During Q4, the Energetics Division, which manufactures detonators and accessories, achieved sales of Rs.20 crores; and a cumulative Income of Rs. 69 crores (Rs.80 crores) and Profit of Rs. 6.17 crores (Rs.8.59 crores) for the year. Value added products and High Explosives contributed to the good performance. Although production at the Hyderabad Works increased by 30%, the tender prices from major PSU customers was about 35% lower in the year. Weak market conditions also affected export sales. Going forward, the Division expects good prospects from new products started by the Hyderabad factory.

Efforts for increase of business of Special Products Group and Metal Cladding business will be stepped up by utilizing the opportunities under the 'Make in India' Initiative of the Government of India.

MINING AND INFRASTRUCTURE DIVISION

The Mining contract at the iron ore mine of Tata Steel is progressing as per revised schedule. Mining and Infrastructure projects were earlier scaled down due to major projects being under temporary suspension for want of various government / regulatory clearances. However, with the renewed thrust given to the Mining sector by the Central Government and Coal India Limited being targeted to increase domestic coal supply, the Division is expecting better prospects in 2016-17. The Division, with its experience and expertise gained over the years, is exploring Mine Developer-cum-Operator (MDO) opportunities. The Division is continuing with some infrastructure activities at Bengaluru.

The large equipment bank of the Division was impaired in the earlier year in view of the bleak mining scenario. In the above background with a conservative approach, the Division has achieved a turnover of Rs.20.17 crores with a profit of Rs.2.83 crores for the year.
