Overview FY 2015-16

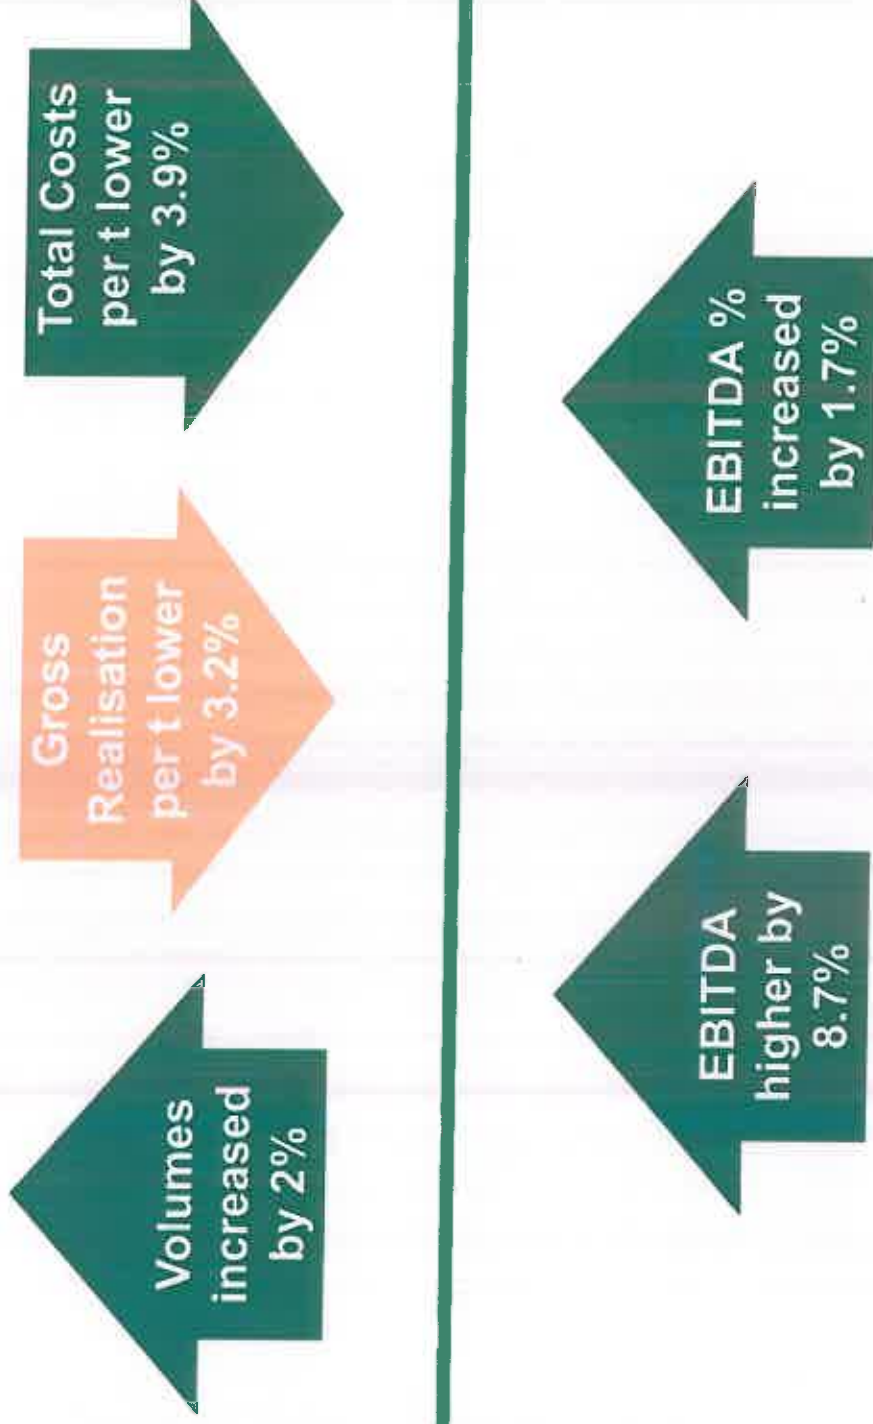

- India installed cement capacity end March 2016 ~ 405 Mn T, while cement production during FY 2015-16 was ~ 282 Million t (+4.6% y-o-y). Pick up in production reported only during the last quarter of the fiscal (+11.4% y-o-y) due to base effect (contraction of 1% during Q4FY 2014-15).
- Sales Volume growth for HCIL during FY 2015-16 in line with the industry (+4.1% on a L-f-L basis).
- However, volume growth for the company remained muted during Q4 FY 2015-16 (+2% y-o-y) due to volume loss in Southern operations and lower clinker sales. Central India volumes still grew by ~ 6.5% y-o-y during the last quarter.
- HCIL's cement capacity utilization > 80% for FY 2015-16 against industry average ~ 70%.
- Pricing remained subdued due to weak market conditions for most parts of the year, while during the second half of the year improvements were felt in the operating costs (primarily fuel and bags).
