Kellton Tech receives 'Digitizing India' Award as best 'Service Provider'

New Delhi – July 15, 2016: Kellton Tech, a global IT company, was awarded in the category 'Digital Innovations in Service Provider Industry', at the 3rd edition of The Digitizing India Awards, a Cisco initiative in collaboration with CNBC-TV18. In the ceremony held in New Delhi today, Kellton Tech received this award in recognition of its significant strides towards transforming digital experiences for organizations.

Kellton Tech, a pioneering enabler of digital transformation with strong grip on enterprise solutions, has been in the news radar for its rapid growth, successful deployments, acquisitions, and revolutionary use of its IoT innovation, KLGAME™. KLGAME™ engages the elements of ISMAC (Internet of Things, Social, Mobile, Analytics, Cloud) in a synergistic manner to provide holistic communication experience, and has already been implemented in various conferences besides having fielded some pilot projects across the globe.

Kellton Tech was also the implementation partner for mSehat, a SIFPSA initiative empowering frontline health workers to improve maternal and newborn health outcomes in five districts of Uttar Pradesh through ICT-enabled solution. Kellton Tech developed this cloud-hosted, mobile platform, which was touted to be the largest enterprise mobile application rollout in health and e-governance sector in India. mSehat was launched by Uttar Pradesh Chief Minister Shri Akhilesh Yadav last year.

Speaking on the occasion, Karanjit Singh, CEO, Kellton Tech said: "We had invested in digital technologies much before the wave became apparent, and thus have the first-mover advantage. Our successful implementations of digital change have enabled comprehensive digitization of paper-based systems. We help businesses to deliver completely personalized experience through our ISMAC expertise, thus enhancing their value proposition to customers."

Expressing his delight on receiving the award, Krishna Chintam, Founder and Managing Director, Kellton Tech said: "We are happy to be thus recognized, and will continue to harness the digital possibilities to affect transformational change in the existing systems. In fact, mSehat has positively impacted over 1 crore lives and will touch up to 1.2 - 1.5 crore people soon. Through our various projects, we are proud to contribute our bit to mission *Digital India*."
