PRESS RELEASE

Rajesh Exports is now in the company of

Bangalore, July 25, 2016:

It is a matter of immense pride for everyone at Rajesh Exports Limited to be part of the Fortune 500 list of the world's largest companies.

It has taken Rajesh Exports 26 years to be among the largest 500 companies in the world. It is probably the fastest journey in the history of Fortune 500 Global Companies. It is the First Company from Gold business to be part of the Fortune 500 Global Companies.

REL started as a modest gold jewellery manufacturing company in the year 1990 at Bangalore, India. The company with its undivided focus and attention has grown from strength to strength and has emerged as the world's largest gold company. REL is the only gold company in the world which is integrated across the complete value chain of gold from mining to retailing of gold jewellery and gold products. Currently REL has a presence across the world with manufacturing and refining facilities in India and in various parts of the world.

Recently REL acquired Valcambi, Switzerland, the world's largest gold refinery and one of the most trusted global brand names in gold. The 100% acquisition of Valcambi has been a major step for REL in establishing itself as a global brand name. The acquisition has added significantly to the top line and the bottom line of the company.

Commenting on the development, Chairman of REL, Mr. Rajesh Mehta said “We are very pleased that our company has been included in the global fortune 500 list of the largest global companies. Starting with a modest beginning as a first generation enterprise, it gives me immense satisfaction that over a period of the last 26 years, REL has emerged as a truly global company. In fact this recognition encourages us to further firm up our resolve to build REL as one of the most respected global company.”
