Solix Announces Strategic Partnership with KloudData to Enable Big Data Management

The Partnership Focuses on Enterprise Archiving, Application Retirement, and Analytics

July 13, 2016 — Santa Clara, Calif. — Solix Technologies, Inc. (www.solix.com), a leading provider of Enterprise Data Management (EDM) solutions, today announced a strategic partnership with KloudData Inc., a leading business software solutions provider with deep expertise in Mobility, Analytics and Enterprise backend systems.

The two companies entered into an agreement to build, sell, and deploy big data-based solutions that target archiving of enterprise applications such as SAP Business Suite and Electronic Health Records. The collaboration between the two companies aims at offering cutting edge solutions to solve pressing enterprise data archiving and analytics problems faced by leading healthcare, financial services, manufacturing, retail, telecom, and public sector customers. The solutions also include advanced analytics applications on data residing in enterprise 'Data Lakes' that address high value business problems, such as insights from enterprise wide business records, operational and population health data, and IOT based asset traceability data.

Joydeep Das, COO of KloudData said, "Every data-driven organization confronts the effects of information growth and hence needs to retain data efficiently to adhere to regulatory compliance and control its operational costs. We are excited to partner with Solix – a leader in enterprise data archiving solutions – to bring value added big data based solutions targeting data archiving and large scale data analytics."

"The increasing role of Enterprise Data Management in delivering valuable, relevant and actionable insights to businesses is now an established fact", said Mr. Sai Gundavelli, Founder and CEO of Solix Technologies, Inc. He added, "It's important to gain an understanding of enterprise wide Information Lifecycle Management for overall success of operational and analytical applications. Our partnership with KloudData is aimed at bringing solutions such as archiving SAP Business Suite Data and other domain specific analytical applications to the marketplace."
