Dear Sir,

**Sub: Recent development in LYCOS' Advertising division – Brightcom,
Powered by LYCOS.**

We would like to inform you about a recent development at Brightcom, Powered by LYCOS, the advertising division of LYCOS:

Brightcom partnered with GeoEdge and Forensiq - Brightcom has partnered with GeoEdge and Forensiq to enhance viewability measurement and improve fraud detection capabilities for clients. Working with Forensiq, a fraud detection company, Brightcom will channel all its advertising traffic through a fraud evaluation program to offer real-time detection for clients.

GeoEdge, an ad-verification provider, has a similar role, but from a publisher perspective. Partnering with GeoEdge will help Brightcom check for malicious creatives, thereby improving transparency between the advertiser and publisher.

There are many positives to the advent of programmatic advertising, and Brightcom is effectively harnessing the value of programmatic, improving user experience and quality of advertising.
