L&T Infotech Announces Strategic Partnership with Pegasystems

Global alliance to focus on delivering BPM solutions to accelerate digital transformation

Mumbai (India), August 02, 2016: Larsen & Toubro Infotech Limited (“L&T Infotech”), a global Information Technology (“IT”) services & solutions company and a subsidiary of Larsen & Toubro Limited (“L&T”), today announced a strategic alliance with Pegasystems. With this partnership, L&T Infotech becomes a Pega Registered Business Partner, enabling it to provide Pega software expertise and implementation services to its clients. L&T Infotech will deliver advanced Business Process Management (BPM) and Business Process Automation (BPA) solutions that optimize efficiencies and accelerate digital transformation programs.

Ken Nicolson, VP, Global Alliances, Pegasystems, said, “L&T Infotech demonstrates the depth of domain expertise, industry focus and client commitment we look for in a partner. This collaboration will help our joint clients leverage the full potential of BPM to streamline operations, increase operational efficiencies and ultimately deliver successful digital transformation.”

Sanjay Jalona, Chief Executive Officer & Managing Director, L&T Infotech, said, “As our clients increasingly adopt digital, they look to us for robust solutions to improve the customer experience and process efficiencies. Synergies from our alliance with Pega will help our clients model their operations to meet the requirements of the new digital-age.”

Through a dedicated BPM practice, L&T Infotech will provide organizations end-to-end solutions from consulting to implementation and support across a range of industries. The two companies will also collaborate on solutions for Robotics Process Automation (RPA) and Robotics Desktop Automation (RDA).

Pega’s applications streamline critical business operations, connect enterprises to their customers seamlessly in real-time across channels, and adapt to meet rapidly changing requirements. Available both on the cloud as well as on-premise, Pega solutions are built on its unified Pega 7 platform, which uses visual tools to easily extend and change applications to meet clients’ strategic business needs. Pega’s Global 3000 customers include many of the world’s most sophisticated and successful enterprises.
