The Board of Directors in its meeting on May 27, 2016 had approved the Audited Financial Statements of the Company for the year ended March 31, 2016. In terms of the provisions of the Act, the Company's accumulated losses stood at ₹ 646.75 crores, against the peak net worth of ₹ 839.40 crores, in the immediately preceding 4 (four) financial years. 8	<b>Erosion</b>		<b>21.4%</b>	<b>44.9%</b>	<b>77.1%</b>

#### **REFERENCE TO BOARD FOR INDUSTRIAL AND FINANCIAL RECONSTRUCTION (BIFR)**

- 1) On the basis of the audited accounts for the financial year ended March 31, 2016, the accumulated losses up to that date stands at ₹ 646.75 crores, thereby eroding the peak net worth of the Company by more than 50%. The Company, therefore, has to report this fact to BIFR under Section 23 of the Act.

2) The Board of Directors in their meeting held on May 27, 2016 analyzed the reasons for such erosion and has come to the conclusion that the situation is controllable and further erosion in the net worth of the Company can be avoided by the various remedial measures being taken by the management of the Company. The major causes of erosion of net worth and the remedial measures taken /to be taken are explained below:

**CAUSES OF EROSION OF MORE THAN 50% PEAK NET WORTH**

The performance of the Company was adversely affected mainly by :

**1. Over Supply in Market and Consequent Decrease in Capacity Utilisation**

The company has added capacity of 1300 MT per day in financial year 2012- 13. The assition of capacity of 650 MT per day each was added in Nashik and Naidupeta respectively to cater to the west and the south. During the same period, other players in the Industry also commissioned their capacity. The addition was done mainly due to good demand envisaged in financial year 2010. All this addition has increased the supply in the market and resulted in lower capacity utilisation.

Capacity Addition in past two years	In MT per day
HNGIL (Added one furnace each in Nashik, Maharashtra and Naidupeta, Andhra Pradesh)	1300
HSIL (Added capacity at its Bhongir plant, Andhra Pradesh)	475
Piramal Glass (Added Capacity at its Jambusar Plant, Gujarat)	165
Canpack (Entered the container glass market in India by adding capacity at Aurangabad, Maharashtra)	800
<b>Total</b>	<b>2740</b>

**2. Sluggish Growth in Demand**

The Indian economy which was poised to grow at double digit from financial year 2011-12 have grown at lower single digit. The slowdown has resulted in lower disposable income and have decreased the growth of end users. This all has resulted in lower demand for container glass.

**STEPS TAKEN FOR REVIVAL**

The Company is taking various measures to revive its operation:

- Sales & Marketing** - The Company is strengthening its sales and marketing department. The focus is to develop new product and various customer connect program is being held to serve the customer better. The Company is also aggressively looking at export to increase its capacity utilisation.
- Operation** - The Company is aggressively focusing on its cost reduction. Various cost optimisation plan is being implemented like import of pet coke, long term contract for soda ash, development of alternate vendors near the plant, logistic optimisation etc.
- Financial** – The Company has restructured its loan with higher tenure and has reduced its interest cost. The Company is also looking forward to further monetise its assets like sale of its wholly owned subsidiary i.e. HNG Global GmbH etc.

All the factors collectively will help company to revive its operation.

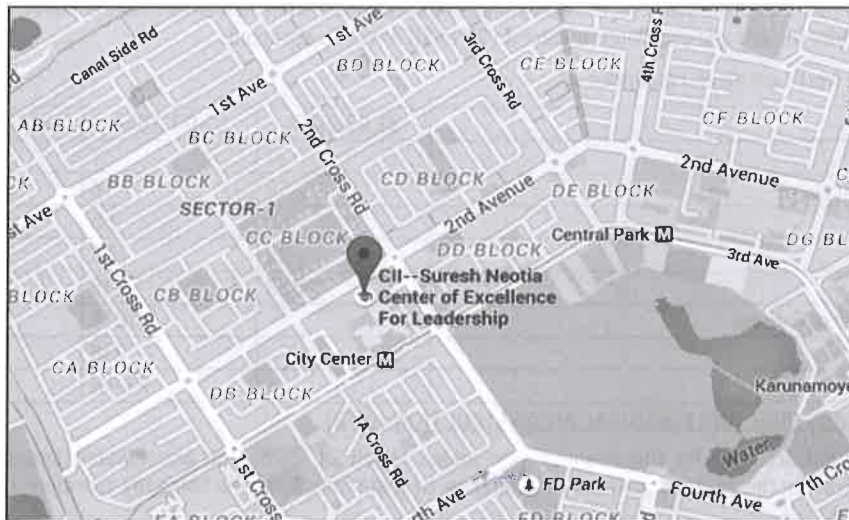

The Board of Directors of the Company believes that the Company will be able to recover and recoup the above stated erosion in the Net Worth in the years to come.
