Dear Sirs,

Sub: Investor Presentation

Ref: "Idea Cellular Limited" (IDEA / 532822)

Pursuant to Regulation 30 and 46 of the SEBI (LODR) Regulations, 2015, enclosed is the investor presentation being uploaded on the Company's website.

The above is for your information and dissemination to the public at large.

Thanking you,

Yours truly,

For Idea Cellular Limited

Pankaj Kapdeo
Company Secretary

Encl: As above

India Subscriber Penetration

Large headroom for new subscribers addition in India

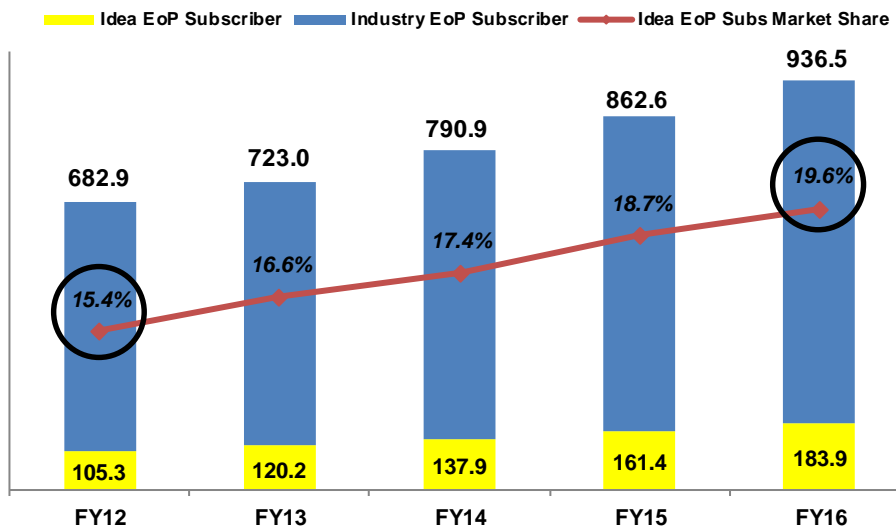

- India subscribers on VLR penetration remains low @ 73.7% v/s Global average @ 92.1% (Global subs: 7.3 Bn, Active: 6.8 Bn)^
- Indian Industry adding ~70 Mn active subscribers per annum consistently for the last 3 years
- Idea subscribers on VLR v/s reported subs highest @ 105% against Indian Industry's 91% (Mar '16)
- Over the last 4 years, all Indian subscriber addition has come from rural geographies
- Despite that, India rural subscriber penetration remains low at 50.9%
- Rural segment key strength of Idea

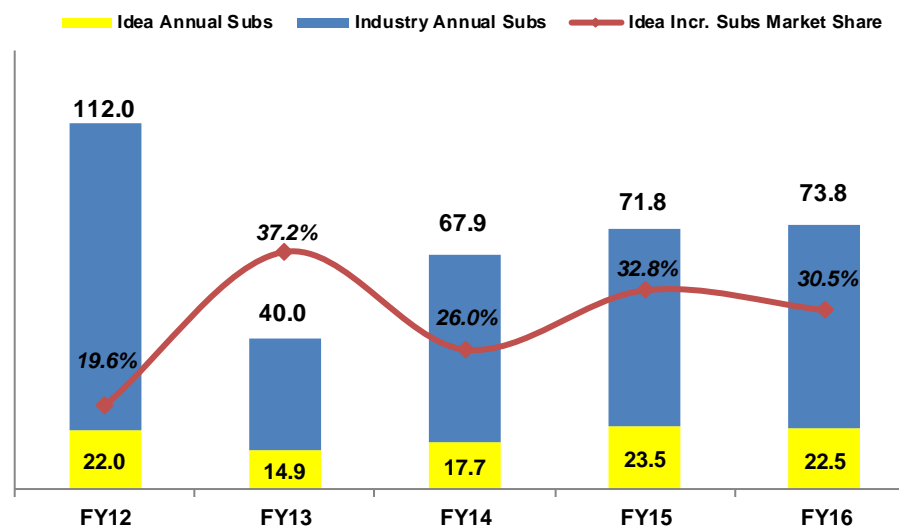

Idea gaining amongst the highest incremental subscriber Net Adds share over last 4 years

Consolidation in process in Mobile Voice, while emerging competition in high growth Wireless Broadband Indian Mobility Sector

Existing Scenario (Year 2008 – 2016)

- Mobile Voice Segment characterized by intense competition - 8 to 9 operators in each service area
- Mobile Broadband Data – an emerging segment with lower competition – 2 to 3 serious operators

Major recent developments impacting industry (Year 2015 – 2016)

- Feb '14 and Mar '15 spectrum auction ~91% of spectrum by Value (total industry spent of \$26 Bn) won by only 4 operators (Bharti, Vodafone, Idea & RJio)
 - Idea completed renewal of licenses for next 20 years (till 2032/2036) in 16/22 circles against Bharti's 8/22 and Vodafone's 9/22 (Idea renewal highest among all incumbent operators)
 - RCom lost key revenue driving 900 MHz spectrum band in 5 out of 7 circles due for renewals; Loop could not renew license in Mumbai circle
- RCom & MTS announced merger (800 MHz)
- RCom & Aircel exclusive talks on combining wireless business (GSM & 3G services)
- Tata (800 & 1800 MHz), RCom (800 & 1800 MHz) & Aircel (900 & 1800 MHz) license renewal from Oct 2016 to Year 2021
- Announcement of Spectrum Trading & Spectrum Sharing guidelines
 - Exit of smaller players - Airtel acquired Videocon's 1800 MHz spectrum in 6 circles and entered into agreement for acquiring Aircel's 2300 MHz spectrum in 8 circles
 - RJio - RCom spectrum trading in 13 circles and spectrum sharing in 20 circles for their 800 MHz spectrum
 - Consequently, RCom announced closure of CDMA operations pan India, separately 4G ICR arrangement with Jio
- Telenor formally announced plan to exit from India

Expected Impact on Mobile Voice & Mobile Broadband Data segments

- Voice: Market to consolidate to 5 – 6 players, Idea likely to garner higher incremental voice market share
- Data: Competition to increase to 4 large pan India players, possibility of short term pressure on data realization

❖ Indian Tower Industry & Opportunities

Large Potential for Data Penetration in India

Smartphone Penetration - as a % of Connections*

- India: ~85 Mn Smartphones added in last FY*
- Idea smartphone pen% – 34.5% (60.4 Mn) – March '16

(3G+4G) Market Penetration (Connections)*

Usage/Sub (MB)^

Price/GB (USD)^

Building a World Class Indian Mobile Broadband Infra

Pride of country and envy of world

Since January 2016, top Indian Private Mobile Operators are now working at breakneck speeds to create a world class Digital Highway

Coverage expansion*

1.1 Billion

Indians to be covered by wireless broadband services by 2019-2020 from 250 – 300 Mn population coverage before Mar 2015 auctions

Population coverage to expand from current ~ 20% to ~ 90% by 2019-2020*

Wireless Broadband users**

540 Million

Mobile Broadband (3G+4G) users in 2021 from existing 130 million (Mar 2016) & usage per subscriber to grow 2-3 times from current level of 475 MB/user

3G & 4G Network Rollout

3X roll out

- FY15: 40k (EoP: 120k)
- FY16: 120k (EoP: 240k)
- FY17***: ~400k (EoP: 640k) (including entry of new operator)

Massive Capacity creation***

700k sites

Cumulative on 3G / 4G platform by FY2018

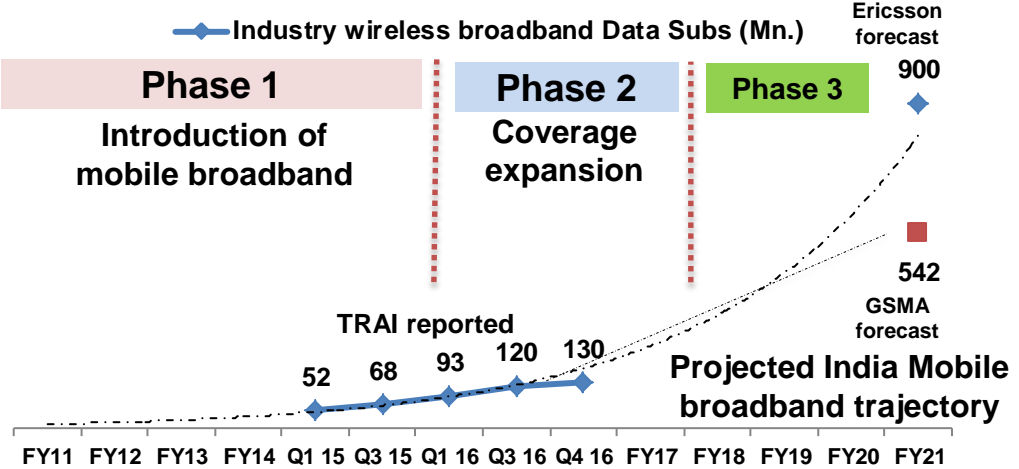

- Estimated Capacity (Jun'16) @ ~32 PB/day
- Current demand: ~5 PB/day
- Utilisation ~ 14%

Mobile data adoption likely to have similar trajectory as that of historic mobile voice penetration in India

History to repeat itself

- Coverage expansion phase in mobile voice was followed by a phase of exponential consumer uptake of voice telephony services during FY09 to FY16; now Voice entering consolidation phase
- Mobile broadband currently in a coverage expansion phase
- Likely to be followed by exponential consumer adoption, but telecom sector has to build relevance

Steps taken by Idea to participate in Emerging Wireless Broadband Business

Gearing to become 3G/4G Pan India provider but procure data capacity carrier as & when needed

Spectrum:

- **3G/4G Coverage: 133.4 MHz (900/1800/2100) 17 circles**
 - 1800 MHz: 60 MHz across 11 circles
 - 900/2100 MHz: 13.4 + 60 MHz in 13 circles (3G)
 - 3 carriers (3G/4G) – 3 markets
 - 2 carriers (3G/4G) – 4 markets
 - 1 carrier (3G/4G) – 10 markets
- GSM spectrum – **137.3 MHz**
 - 900/1800: 45.6 + 91.7 MHz
- **Timing of spectrum acquisition calibrated to market evolution & concomitant data capacity demand rather than block capital ahead of time**
- **Idea currently focussed on expanding coverage rather than build capacity. Current Mobile broadband coverage 400 million Indians, plan to reach 500 million Indians by March 2017**

Aggressive expansion of Mobile Broadband Network:

- **Cumulative roll out of 70,000+ data sites in 2 years**
 - FY16 roll out: 34,000 sites
 - FY17 planned roll out: ~35,000 sites
- **FY17 Data sites EoP : ~100,000 in 17 circles**

Spectrum Auction – October 2016 & beyond

- Historically, India has been a spectrum starved country. Overall allocation by Govt. of India over last 2 decades for 22 circles is

Quantum in MHz	700 MHz	800 MHz	900 MHz	1800 MHz	2100 MHz	2300 MHz	2500 MHz	Total*
Current Allocation		343	428	990	520	1,160		2,860

- Indian Mobile Industry’s commitment in 5 spectrum auctions till date (Year 2010 – 2015) - **Rs. 2.78 lac cr** (USD 42 Bn), Net debt of Industry – **Rs. 3.5 lac cr** (USD 50 Bn).
- Witnessing success of last 5 auctions, Government has released new bands (700 & 2500 MHz) and harmonized existing band with Defence – thereby now offering to Telecom operators 1,893 MHz spectrum (*equivalent to 66% of currently allocated spectrum*). Industry now transitioning from an era of limited spectrum availability to a phase of oversupply.

Quantum in MHz	700 MHz	800 MHz	900 MHz	1800 MHz	2100 MHz	2300 MHz	2500 MHz	Total*
Fresh - for Oct 2016 Auction	770	73.8	9.4	219.6	360	320	600	1,893

- However, unreasonable spectrum pricing (linked to year 2015 prices) to be a major constraint

	700 MHz	800 MHz	900 MHz	1800 MHz	2100 MHz	2300 MHz	2500 MHz	Total
Pricing (Rs. Cr)	4,01,975	26,126	5,414	24,516	63,345	15,200	30,680	5,67,256

- As a result, demand unlikely for 700 MHz spectrum band
- Possible inability to renew 800 MHz & linked 1800 MHz spectrum (coming up due to expiry) may drive operators like RCom (Gujarat), Tata (Maharashtra, Mumbai & AP), MTS (Rajasthan) & Videocon (HFCL – Punjab) out of market

Rising Digital Opportunity

Growing World of Apps & Content

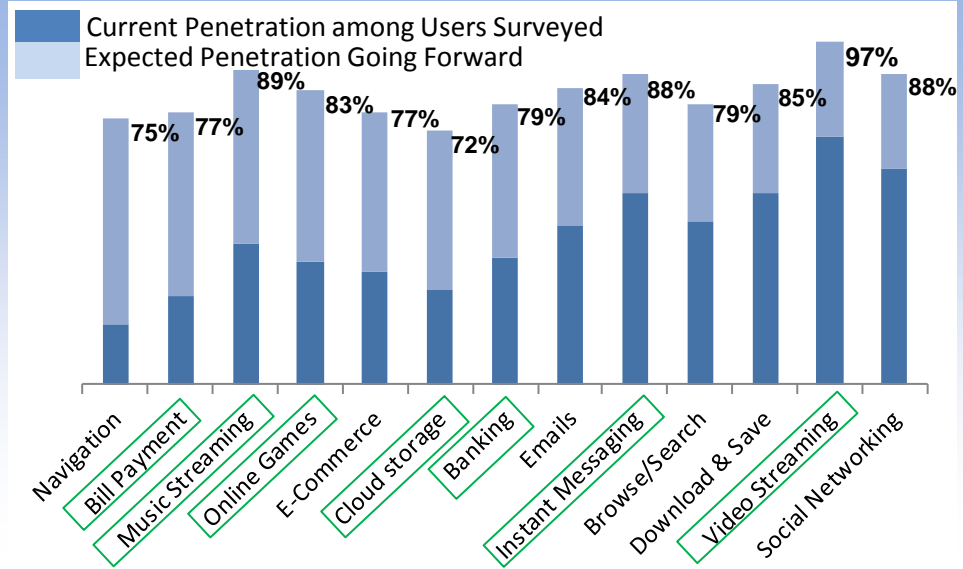

322 Mn Internet users*
112 Mn Rural Internet users* (25% Subscriber penetration)

Potential for Growth

- 800 Mn Indian Non-Users yet to go online
- Mobile Internet Rural penetration to increase at a faster pace
- Gen Z and Millennial to lead this growth

Services of the future#

Idea entering these highlighted services in 2017

Idea Strongly Placed

To Capitalize Opportunity in Entertainment & Payments Space

As per the BCG report on “The Rising Connected Consumer in Rural India”

- 75% of the new Internet User growth is poised to come from Rural
- Connected Rural customers will increase from 120 Mn in 2015 to 315 Mn in 2020

180 Mn subs with 44Mn+ Mobile Internet Users and a strong, trusted brand

- 42% of Idea’s Mobile Internet Users are Rural against Indian average of 35%

Best-in-class execution ability – fastest growing operator for 8 consecutive years

Industry leading customer analytics program 'IRIS'

Low cost media available to distribute digital services – SMS/USSD/Web/App

Integrated presence with Telco, Idea Payments Bank & Idea branded Digital Content

Ongoing investments in Customer Experience Management, Digital Sales & Service Channel, Big Data and Advanced Data Analytics

Developing a strong partnership ecosystem through API platform & Content

Cross bundling with basic mobility services within net neutrality norms

Industry Revenue Contribution %						100%	60%	51%
Idea Revenue Contribution %						100%	79%	62%

- Competitive portfolio of 3G and 4G capable spectrum - **Strong in our established markets**
- Currently offers 3G services in 21 service areas including ICR arrangement
- Idea currently covers ~ 87% of revenue on its own 3G / 4G spectrum in 17 service areas
- Idea Mobile Broadband spectrum share for coverage^ @ ~14%
- Idea Mobile Voice spectrum share @ ~11% (incl. CDMA)

*Contiguous block of 5 MHz is now available in Pune and Nasik (Maharashtra), Amritsar & Ludhiana (Punjab), Sirsa (Haryana), Khasi Hill & Tawang (NESA).

Awaiting the DoT approval post necessary spectrum payment to convert partial spectrum to full circle

**4.0 MHz in HP, 1.8MHz in UPW and 1 MHz in North East is partially available. Expect to convert partial spectrum to full circle post expected DoT approval, shortly

Represents 2nd carrier

***LTE services to be launched post completion harmonization by DoT

^ Spectrum bands excluding 2300 / 2500 MHz
