CHAIRMAN'S

DE

The Chairman intimated the Members present that the Statutory Auditor's Report did not contain any qualification, observations or comments on any financial transaction or matter which have any adverse effect on the functioning of the Company. Further he read out some of the observations from the Secretarial Auditor's Report, which might be of interest to the Members.

In his address to the Members, the Chairman welcomed the members to the 11th Annual General Meeting of the Company and stated as follows:

QUOTE:

"It is my privilege to welcome you all at the 11th Annual General Meeting of the Company. The Directors' Report along with other statutorily required related papers and documents with respect to the year ended 31st March, 2016 are already with you for quite some time. With your permission, I shall take them as read.

I am pleased to present our performance for 2015-16 wherein the Company's revenues increased 20% and profit after tax strengthened 24%. I must assure you that given the diverse challenges that the sector and the company encountered, this profitable growth represents a validation of our strategic direction.

The Company began to focus on a long-term strategy whereby any decline in sectoral fortunes, would have at worst a minimal impact on its revenue and profits; whereas a sectoral rebound would immediately translate into an improved topline and bottomline.

The core of this counter-cyclical strategy was that we would:

- Maximise the production of value-added yarn varieties
- Accelerate capacity creation at the lowest cost in the shortest time
- Strengthen cost leadership, and
- Enhance capacity of fast-growing synergistic businesses (Home Textiles)

The year 2015-16 was an eventful year validating our strategic direction. During the year, Sutej reported increased revenues and profits even while it was engaged in aggressive reinvestment with the objective to enhance capacity and sustain profit growth.

The Government has already started enacting policies that have galvanised investor confidence, undertaking various socio economic initiatives and enhancing ease of doing business – an index of investor-friendliness as per the norms set down by the World Bank. The government initiatives are expected to have far-reaching consequences and sow the seeds of sustainable economic development. The imminent roll out of the GST (Goods & Service Tax) is expected to emerge as one of the most significant economic reforms of this decade.

Global economic overview

The year 2015-16 was a challenging year. The global economy lacked momentum as developed economies continued to reel under the aftermath of the global financial crisis. Global economic growth was pegged at 3.1% in 2015, and is expected to grow to 3.2% in 2016 and 3.5 in 2017. The slowdown in emerging economies has been attributed to free falling commodity prices, re-balancing in China, plummeting oil prices and challenging macroeconomic factors.

CHAIRMAN'S
INITIAL

Oil prices saw a marked decline in September 2015, reflecting expectations of increase in production by OPEC members amid a steadily widening skew between global oil production and consumption and only modest increases expected in prices in 2016 and 2017. Prices of other commodities, especially metals, have fallen as well. The United States remains resilient, supported by improving financial conditions and strengthening housing and labour markets, but with dollar strength weighing all too heavily on manufacturing activity, investment in mining equipment segments has curtailed. According to World Bank estimates, China grew at an estimated 6.9% in 2015 and is pegged to grow at a rate of 6.7% in 2016 and 6.5% each in 2017 and 2018. Russia and Brazil are projected to remain in recession in 2016.

Although economies that are dependent on commodity exports may suffer, lower input prices for industry as well as lower fuel prices for households will provide a boost to aggregate demand and global growth. As per IMF, global growth is expected to strengthen from 2017 aided by the gradual increase in the global weight of fast-growing countries such as China and India.

Indian economic overview

India's growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

Gaining momentum, India was positioned as the fastest growing major economy with a five-year high growth rate of 7.6 per cent for the full fiscal 2015-16 on robust manufacturing growth. Enthused by the impressive numbers for 2015-16, as against 7.2 per cent in previous fiscal, the government expects that the growth rate can go up to 8 per cent in the current fiscal on the back of good monsoon. The industry hopes that better monsoon and further reforms will help expand the economy at even a faster pace.

Sutlej's performance

At Sutlej, we had proactively prepared for a sectoral slowdown through an over-arching focus: stronger customer orientation. The Company studied emerging customer needs, worked closer with customers, developed new products and empowered customers to win in their respective markets through timely investments in business diversification, capacity increase and evolving product mix. Our revenue increase with enhancement in profit should be seen as positive achievements in this scenario.

We had also visualised that the most effective strategy to counter a business slowdown would lie in capacity addition and revenue growth. As the Company was exploring for inorganic growth in its spinning capacity, it acquired Birla Textile Mills (BTM) having a capacity for 83,376 spindles during the year. The BTM acquisition provided the Company operational spinning capacity and also benefited through adding new customers in the domestic and export markets. The result was that the Company reported an increase in profits, validating its acquisition and expansion priorities. The company is also enhancing the Company's overall capacity by 35,280 spindles in financial year 2016-17.

CHAIRMAN'S
INITIAL

The larger volumes helped the Company effectively amortise fixed costs. Recognizing that capacity increase would alone not be enough; we reckoned that a churn in our yarn manufacturing capacity towards value-added yarn varieties would be in order. Accordingly, the Company increased the proportion of spindles dedicated to cotton blended and cotton mélange dyed yarns from 23% in 2011-12 to 29% in 2015-16. whereby the proportion of revenues derived from these premium yarns also increased. Some years ago, we invested in the manufacture of home textile products and now I am pleased to state that during the year under review, this nascent division turned around, providing us with the incentive to substantially scale its capacity across the foreseeable future.

The result of these initiatives was that overall capacity utilisation of Sutlej stands above 95% in 2015-16, and we virtually marketed all that we manufactured. This reality indicates that Sutlej does not make to stock but makes to order; that Sutlej enjoys robust and enduring customer relationships that represent a steady order pipeline across market cycles and that your company has strengthened its credentials as a sustainable textiles organisation.

Today, your Company possesses a robust Balance Sheet that is only likely to get stronger. For one, we are already invested (and financially closed) for nearly three straight years of growth starting 2014-15. Our attractive depreciation provision provides adequate resources to fund year on year modernisation and debottlenecking. The accruals that we are likely to generate from the timely implementation of upcoming projects of value-added product will result in better margin. These accruals, in turn, are likely to be invested in debt liquidation, strengthening our Balance Sheet. We believe that an under-borrowed Balance Sheet and an improving credit rating will serve as a foundation for low-cost funds mobilisation (a sustainable advantage) whenever we consider the need to finance organic or inorganic business opportunities.

Road ahead

Global recovery is still slow and getting increasingly differentiated across regions. For most emerging market economies, macroeconomic conditions remain challenging due to domestic fragilities, exacerbated by bouts of financial turbulence.

On the domestic front, industrial production has been recovering, but sustained weakness in consumption, especially in the rural areas, continues to operate as a drag. Exchange rate fluctuations could also spike up inflation. Nevertheless, India remains one of the brightest spots in the world economy and has even surpassed China. The macro economic situation in the country is expected to improve considerably in the coming years owing to various policy initiatives mentioned above.

Though the present industry scenario is challenging, Sutlej expects to sustain its growth momentum on the back of various initiatives taken in the past and lined up for the coming years. India's growth is imminent and your Company is well-placed to seize this opportunity when it transpires. I must assure shareholders that our relative strength at a time of sectoral weakness provides an insight into our competitive position and the fact Company is indeed placed at an attractive inflection point. If this is how we performed during the deep end of a sector downtrend, then I am robustly optimistic of our prospects when the sector rebounds.

As our investments translate into timely project commissioning across the foreseeable future, we expect to report higher revenues, better margins and increased surpluses that graduate us into the next growth orbit.

CHAIRMAN'S
INITIAL

Appreciation

Despite the inherent cyclicity associated with the business, the Company posted substantial growth in terms of revenues as well as profits in the last year. On behalf of the Board of Directors and on my behalf, I would like to express my sincere appreciation for the continued co-operation and support confidence reposed in the Company by all the stakeholders including bankers and shareholders. I would also like to express my sincere appreciation of the dedicated services rendered by the officers, staff and workers and their contribution towards the successful performance of the Company during the year. Thank You!"
