Chairman's Speech

Dear Members,

I have great pleasure in welcoming you all to our company's 36th Annual General Meeting.

At, Deccan Cements Limited, we had a good last year, I am sure that you all will be happy about the performance of the company.

I would like to touch upon the salient features of the Company's performance during the year under review. Net Sales figures grew by 32.3% from Rs. 437.78 Crore to Rs. 579.07 Crore. Profit before Tax jumped from Rs. 21.34 Crore to Rs. 80.57 Crore, a growth of 277.6%. Net Profit after tax stood at Rs. 45.56 Crore as compared to previous year net profit of Rs. 19.88 Crore, registering a growth of 129.2%. Growth was registered both in Sales as well as Profitability. Taking into account the performance, your Board has declared highest a dividend of 50% i.e. Rs. 5/- per share for the financial year 2015-16. Capacity utilization for the Cement Plant has also seen improvement from the previous year.

This improved performance was mainly contributed by the Cement. Contribution from the Power generation from the Company's Thermal, Mini Hydel and Wind Power Plant was comparatively lower than the last year. The Thermal Power Plant, generation from which is basically for captive consumption in the Cement Plant, quantum of sale of excess energy through Indian Energy Exchange (IEX) was minimal, as the prices were at low levels for most part of the year. Power generation from the Mini Hydel was very low because of continued dry spell for two continuous years. For the current year, as we have seen good rainfall, generation of power from the Hydel Power Plant is expected to be better. Generation from the Wind Power Plant was at reasonable levels and was sold to third parties for whole of the year.

I would take this opportunity to announce that the Railway Yard Project, connecting the existing Vishnupuram-Janpahad Railway line to the Cement Plant, which was started few years back, but could not be completed pending clearance from the concerned government authorities, will be completed by end of the coming quarter. The total cost of the project including railway line, rail over bridge, wagon tippler etc will be around Rs. 50 Crore out of which Rs. 34 Crore was spent till the end of last financial year. At present, the Company, for transport of materials and finished products through rail, uses Janpahad Railway Station, which is around 2 kms from the Cement Plant. This railway line, once operational will save cost in relation to transportation, loading & unloading, demurrage and also will bring efficiency & better control.

The Central Government's continued focus on nation building, infrastructure development and other developmental policies is expected to give rise in consumption of Cement. A good monsoon in the current year, should witness growth in the agriculture sector and demand in rural areas. Further implementation of the 7th Central Pay Commission will have its positive effect on the housing sector. Apart from the above, initiatives from the Government of Telangana such as 'Mission Bhageeratha', '2 BHK Houses for the Poor' and 'Mission Kakatiya' and construction of Capital City by the Government of Andhra Pradesh would result in a spur in demand for Cement.

I express a sincere appreciation to my colleagues on the Board, Management and employees at all level for their valuable contributions. I thank our Central and State Governments, Bankers, Business Associates, Customers and other Stakeholders for their support and cooperation. Last but not the least, my sincere gratitude to our shareholders, I look forward to your continued support.

Thank you

Hyderabad
