Morristown, NJ – October 30, 2017 – Majesco (NYSE: MJCO), a global provider of core insurance software and consulting services for insurance business transformation, today announced its financial results for the fiscal 2018 second quarter ended September 30, 2017.

"Growing cloud based revenues drove improvements in revenues as compared to the previous quarter by 8.7% and the Adjusted EBITDA to 3.4% during the fiscal 2018 second quarter." stated Ketan Mehta, Majesco's CEO and Co-Founder. "We had a 48% increase in year-over-year cloud revenues and almost 80% increase in year-over-year subscription revenue. Cloud revenues represent 31% of our total revenue of the second quarter which demonstrates momentum and acceptance for our cloud solutions".

During the second quarter, Majesco began implementing the 10-year cloud subscription deal with IBM to support Insurance clients, including MetLife, as the first joint customer on the IBM Insurance Industry Platform. This is one of the largest deals Majesco has won and we are excited to partner with MetLife and IBM to offer digital transformation capabilities for MetLife's small business group market. Majesco is providing the core components including Policy, Billing and Claims which will be integrated with IBM solutions including cognitive capabilities and other third party solutions.

Majesco's order book is up 19% over the same period a year ago, driven by several new customer wins including the recent IBM agreement. Our pipeline of potential new customers remains strong and reflects the investments we have made to build solutions that help insurance carriers navigate the significant industry disruption underway.

We recently launched our micro-services based Digital1st Insurance solution portfolio which enables a new generation of customer experience, app store like capabilities to integrate with our growing ecosystem partners and expedites a new insurance business models and products. These platform solutions are designed for the cloud and will further improve competitive positioning of Majesco's cloud offerings. This was very well received at the annual customer conference, Convergence 2017, which was attended by a record number of companies and individual participants.

- Revenue for the second quarter ended September 30, 2017 was \$30.3 million as compared to \$31.0 million in the corresponding quarter of last year. Use of Non-GAAP Financial Measures

In evaluating our business, we consider and use EBITDA as a supplemental measure of operating performance. We define EBITDA as earnings before interest, taxes, depreciation and amortization. We present EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties as a measure of financial performance. We define Adjusted EBITDA as EBITDA before stock-based compensation.

The terms EBITDA and Adjusted EBITDA are not defined under U.S. generally accepted accounting principles, or U.S. GAAP, and are not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. EBITDA and Adjusted EBITDA have limitations as an analytical tool, and when assessing Majesco's operating performance, investors should not consider EBITDA or Adjusted EBITDA in isolation, or as a substitute for net income (loss) or other consolidated income statement data prepared in accordance with U.S. GAAP. Among other things, EBITDA and Adjusted EBITDA do not reflect our actual cash expenditures. Other companies may calculate similar measures differently than Majesco, limiting their usefulness as comparative tools. We compensate for these limitations by relying on U.S. GAAP results and using EBITDA and Adjusted EBITDA only supplementally.
