Explanation to business mentioned under Item No. 3 has been provided on a voluntary basis.

Item No.3

In terms of the provisions of Section 139 of the Companies Act, 2013 (the 'Act') read with Rule 6 of the Companies (Audit and Auditors) Rules, 2014 (the 'Rules'), an audit firm can be appointed as auditors of a company for not more than two terms of five consecutive years each. For the purpose of calculating the period of ten years, the period for which the audit firm had held office as auditors, prior to April 1, 2014 had to be taken into account. Accordingly, the present Statutory Auditors, Messrs Dalal Doshi & Associates, Chartered Accountants (Firm Registration No. : 121773W) would retire on conclusion of this Annual General Meeting (AGM) on completion of their term of appointment. Since Messrs Dalal Doshi & Associates, Chartered Accountants are not eligible for reappointment as Statutory Auditors of the Company in view of the rotational policy for auditors under the provisions of Section 139 of the Act and Rule 6 of the Rules, the Board of Directors on the recommendation of the Audit and Compliance Committee, recommended the appointment of Messrs M. The Board recommends the appointment of Messrs M. H. Dalal & Associates, Chartered Accountants as Statutory Auditors of the Company as set out at Item No. 3 of the accompanying Notice.

None of the Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise in the said resolution.

Item No. 4

The Board of Directors of the Company in its meeting held on May 29, 2017, on the recommendation of the Audit and Compliance Committee, has approved the appointment of Messrs D. C. Dave & Co., Cost Accountants (Firm Registration No. 000611) as the Cost Auditor to conduct the audit of the cost records of the Company for the Financial Year ending March 31, 2018.

Accordingly, ratification of the members is sought, as referred to in the resolution at Item No. 4 of the accompanying Notice, for the payment of the remuneration amounting to ₹ 5,00,000/- (Rupees Five Lakh) for cost audit plus applicable taxes and out-of-pocket expenses to the Cost Auditor for the Financial Year ending March 31, 2018.

The Board recommends the resolution at Item No.4 of the accompanying Notice for the approval of the members.

None of the Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise in the said resolution.

Item No. 5

Section 42 of the Act read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 (the Rules), deals with private placement of securities by a company. Sub-rule (2) of the said Rule 14 states that in case of an offer or invitation to subscribe for non-convertible debentures on private placement basis, the company shall obtain previous approval of its shareholders by means of a special resolution only once in a year for all the offers or invitation for such debentures during the year. Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014 deals with the issue of secured debentures.

Keeping in view the aforesaid legal provisions, the members of the Company had at the 28th Annual General Meeting of the Company held on September 29, 2016, authorised the Board of Directors of the Company to offer or invite subscription for non-convertible debentures, in one or more series / tranches, aggregating upto ₹ 5,000/- crore on private placement basis. The members may note that the Company has not made any private placement of non-convertible debentures pursuant to the said authorization during the Financial Year ended March 31, 2017.

However, in order to augment the long term resources for financing, inter-alia, the ongoing capital expenditure and for general corporate purposes, the Board may, at an appropriate time, offer or invite for subscription for secured / unsecured redeemable non-convertible debentures, in one or more tranches on private placement basis, issuable / redeemable at par or premium depending upon the then prevailing market conditions.

ANNEXURE TO THE NOTICE (CONTD.)

Accordingly, the consent of the members is sought for passing the special resolution as set out at Item No. 5 of the accompanying Notice. This resolution is an enabling resolution authorizing the Board of Directors of the Company to offer or invite for subscription to non-convertible debentures on a private placement basis, as may be required by the Company, from time to time upto an aggregate amount not exceeding ₹ 5,000/- crore for a period of one year from the date of passing of this resolution.

The Directors recommend the special resolution at Item No. 5 of the accompanying Notice for your approval.

Save and except for the shares of the Company held by them, none of the Directors and Key Managerial Personnel of the Company and their relatives, are in any way, concerned or interested, financially or otherwise, in the said resolution.

12. MANAGEMENT DISCUSSION AND ANALYSIS :

The Management Discussion and Analysis Report, forming part of the Board Report for the year under review as stipulated under Regulation 34 (2) (e) read with Schedule V to the SEBI Listing Regulations is discussed herein below.

INDIAN ECONOMY:

India's GDP growth for FY 17 stood at two year low of 7.1 %. However, remonetisation, a good monsoon and possible interest rate cuts along with Goods and Services Tax (GST) should lead to a recovery in FY 18. Fiscal deficit in FY 17 was 3.5 % of GDP as against deficit of 3.9 % in FY16. International rating firm Moody's raised its estimate on India's economic growth to 7.5 % in fiscal 2017 and 7.7 % in fiscal 2018, from 6.9 % and 7.5 % respectively.

REAL ESTATE SECTOR OVERVIEW (HIGHLIGHTS) :

The real estate sector in India has come a long way and is today one of the fastest growing markets in the world. It comprises four sub-sectors – housing, commercial, retail and hospitality. While housing contributes 5 % to 6 % of India's GDP, the remaining three sub-sectors are also increasing at a fast pace. The real estate sector is currently the fourth largest sector in the country in terms of FDI inflows, having attracted an estimated ₹ 38,000 crore as private equity investments in 2016, up 62 % from ₹ 23,500 crore in 2015.

The year 2016 will be remembered as the year of strategic policy initiatives, perceived to be a game changer for the real estate sector in coming years, which may be enumerated as hereunder :

- Real Estate (Regulation and Development) Act, 2016
- Benami Transaction (Prohibition) Amendment Act, 2016
- Infrastructure Status for Affordable Housing
- Dividend Distribution Tax exemption for SPVs to REITs.
- Implementation of Goods and Service Tax structure
- Relaxed guidelines for REITs – investment cap in under-construction projected increased
- 100 % deduction in profits for affordable housing construction
- Interest subsidy for first time home buyers
- Change in arbitration norms for construction companies

DIRECTORS' REPORT AND MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

- Service tax exemption for affordable housing construction
- Demonetization of high value currency notes
- Permanent residency status for foreign investors.

SEGMENT WISE PERFORMANCE :

Residential :

Residential real estate constitutes almost 80 % of the real estate market in the country. A Pan-India trend that emerged in 2016 was that a higher number of units were sold every quarter for the first three quarters than new project launched in the same period, which helped to reduce the inventory overhang. In the fourth quarter, demonetization brought the market to a complete standstill with sales volume dropping by 44 % YoY in Q4 2016 and new launches dropping by a massive 61 % YoY during the same period. Capital values across cities saw gentle appreciation in 2016 and this trend is expected to continue in 2017 as the residential markets mature and become more end-user driven. Affordable housing continued to attract significant attention driven by continued and accelerating urbanization, rising home ownership aspirations and an urban housing shortage estimated at 18.8 million units as per the White Paper – Indian Housing Industry' by research firm RNCOS.

Sales across eight cities rose 21 % in January – March 2017 on a quarterly basis. However, on year-on-year basis, the sales figure was lower by 5 %. During the same period, the inventory of unsold houses came down 3.12 %.

Commercial :

The office market across top cities in India performed exceedingly well in 2016 despite major challenges such as uncertainty due to Brexit and slowdown in IT/ITeS spending by Europe and USA. This can be credited to India's consistent and accelerated economic performance resulting from strong government spending, greater economic activity and improving investor environment. In the last couple of years, economic growth in India has been better than most global economies, which has been pushing brisk office space leasing, with both international and domestic occupiers increasing their office portfolio. On the demand side, office space requirements of sectors such as manufacturing, logistics, FMCGs, etc., showed positive signs in 2016 and this is expected to continue in 2017 as well. Office space required by e-commerce/start-ups and consulting firms rose, as these sectors are expected to continue with headcount addition to accommodate their business growth in the years to come. The IT/ITeS sector continues to be the largest driver of office space in India with the sector accounting for half of the transactions in the second half of 2016. This was followed by other services such as consulting, media, telecom and infrastructure at 21 %.

Gross office take-up amounted 9.3 million sq. ft in Q1 2017. The technology sector continued to generate demand for office space across cities, representing 51 % of the total take-up in Q1 2017. Co-working operators leased about 1.2 million sq. ft. in 2016 and accounted for 3 % of the overall leasing volume.

Retail :

On the supply front, a couple of malls which were to be operational in 2016 are now expected to be completed in 2017. Absorption was twice the supply in 2016 thanks mainly to quality vacant spaces being absorbed quickly. The retail space across key Indian cities stood at 75.8 million sq. ft. as of third quarter of 2016. All three segments of retail – apparel, F&B (food and beverages) and entertainment & cinema did well in 2016. High streets and malls saw more and more people eating out, which helped the F&B category. A relatively new format of retailing – the 'Office-Retail Complex (ORCs) found favour from retailers and developers in 2016. The domestic consumption was impacted by demonetization in the last two months of 2016. Business is expected to normalize from second quarter of 2017.

OPPORTUNITIES :

India's real estate sector is the third largest contributor to the Gross Domestic Product of the country. Pegged at US \$ 93.8 billion in 2014, the sector is estimated to grow to US \$ 180 billion by 2020. Supporting this growth, a number of factors are working in favour of the real estate, including the need for Houses for All by 2022, 100 Smart Cities Project, easing of FDI Rules and focus on affordable housing among others. The enactment of the Real Estate Regulatory Act, 2016 (RERA) is also expected to give boost to the realty sector.

Residential segment opportunity

Residential demand is expected to pick-up only towards the end of 2017 – but the recovery will be sustainable and based on much sounder market fundamentals. Affordable housing has been granted the much-coveted infrastructure status with relaxations in completion timelines and area measurements. This step is well aligned with the government agenda of 'Housing for All by 2022'. One crore houses are to be built in rural India by 2019 for the homeless and those living in kutcha houses. This will not only provide houses to the poor but also promote residential sector in rural areas. With tax sops announced in the Union Budget for 2017-2018 for 'Affordable Housing', there is now considerable focus on 'affordable housing', given the historic deficit of affordable housing projects and the huge latent demand. Several PE firms are partnering with developers to fund their affordable housing projects.

DIRECTORS' REPORT AND MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

Commercial segment opportunity

Office :

Newer Fortune 1000 companies are already looking to increase their exposure in India. Higher FDI is expected to flow into India as it improves on the 'ease of doing business' rankings and policies are made more investor-friendly. Demand has been steady so far and if GDP growth sustains, demand will start looking healthier. Demand for office space is evolving, and more corporates across industries will adopt innovative workplaces in the near future. Collaborative office spaces with open areas to boost employee productivity geared to attract and retain talent will gain importance from 2017.

Looking ahead in 2017, leasing growth could be impacted as occupiers adopt a cautious expansion strategy though expected to be limited to first half of 2017 because of uncertainty in global markets due to the changes in the US trading and immigration policies, a slowdown in the Chinese economy and BREXIT.

The demand is expected to remain firm in 2017 driven by technology and banking, financial services and insurance companies. Prime rents are likely to see a growth of 5 % in 2017 across India's tech driven cities.

Co-working :

Co-working spaces are being set up across Indian metros as well as Tier – II cities, providing start-ups with flexible working options at affordable rents. This segment is slowly but surely moving towards boom mode across India, given the many advantages that such spaces offer : cost efficient ; employee motivation and retention; boosted productivity.

Retail :

2017 is likely to see the highest mall space becoming operational, second to 2011. High levels of activity are expected in 2H 2017 onwards after a prolonged slowdown from 2014 that lasted through 2016.

RISKS AND CONCERNS :

REAL ESTATE SPECIFIC RISKS :

- Fluctuations in market conditions may affect the ability to sell units at expected prices, which could adversely impact revenues and earnings.
- Competition from existing as well as new players, both domestic as well as foreign.
- Increase in interest rates may dampen the growth rate of demand for housing units.
- Real estate price cycles have the maximum impact on the margins of the developers.
- Unfavourable changes in government policies including change in tax structure would affect the growth of the real estate sector.
- Liquidity Risk – liquidity crisis on account of stoppage of lending funds to real estate sector by banks, financial institutions and other lending agencies, leading to stoppage of development activity.
- Operational Risks – longer gestation period for acquisition of land, non-availability of critical raw materials such as cement and steel, failure to comply with rules and regulations.
- Shortage or sharp increase in prices of building materials could impact the project schedule and impact thereby the revenues and margins.
- Delays in obtaining approvals from regulatory authorities.
- Perennial shortage of semi-skilled and skilled labour.
- Economic uncertainty and political fluidity can adversely impact the economy.
- Human Resource Risk – high attrition of skilled/trained manpower.
- Retrospective policy changes and regulatory bottlenecks could impact the performance of real estate companies.
- Legal and Statutory Risk – ownership and land title issues.
- Lack of supporting infrastructure such as roads, highways, electricity, water, sewerage can hamper the growth of real estate.
- Shift in consumer preference may adversely affect the Company's business and operating results.

CONCERNS :

The real estate sector offers ample opportunities for development across verticals, but there are certain intrinsic challenges that hinder growth of the sector. The challenges in the Indian real estate can be broadly classified under five categories which are lack of suitable developable land, delays in obtaining approvals, issues in land title and insurance, inadequate funding challenges and shortage of manpower.

- Lack of suitable developable land : Suitable developable land with basic infrastructure has become scarce in Indian cities. This has resulted in significant surge in land prices in the urban areas.

DIRECTORS' REPORT AND MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

- Strict and prolonged regulatory process leading to delays : The process of obtaining construction permit has become difficult over the last several years and is among the major reasons contributing to the delays in real estate development. The delay in obtaining approvals and adhering to regulatory processes results in avoidable time and cost overruns.
- Land related issues : Lack of clear land titles and title insurance often makes difficult to acquire suitable land parcels. Absence of clear land titles sometimes results in long-drawn and expensive litigation for developers. Further, there is no single land policy in India and each state has its own policy which adds to the complexities.
- Inadequate funding channels : Reserve Bank of India has set threshold for the total maximum exposure to real estate, including individual housing loans and lending to developers for construction finance. Absence of long term funding from banks results in developers tapping alternative sources of funds, most of which do not offer affordable interest rates and hence the supply is stifled.
- Shortage of manpower and technology : Despite being the second largest employer in the country, the real estate sector as a whole faces manpower shortage. The sector is heavily dependent on manual labour, faces longer time lines for construction completions, which results in supply getting deferred.
- High construction costs : As the raw material costs increase over a period, it becomes very difficult to provide housing at a reasonable cost.
- Restrictive development norms : Low floor area ratio, density norms, ground coverage, parking provision, etc. also pose as a challenge for the real estate.
- Development norms : Stringent development and environmental norms lead to sub-optimal utilization of land, which lead to increase in cost per unit value.
- Cost overruns and project delays : Owing to lack of advanced technology and skilled manpower, the overall project economics is not achieved leading to delays in completion of the projects.
- Uneven consumption and slow development pattern of urban infrastructure.

OUTLOOK :

India's real estate market is expected to reach US \$ 180 billion by 2020 from US \$ 93.8 billion in 2014. Emergence of nuclear families, rapid urbanization and rising household incomes are likely to remain the drivers for growth in spheres of real estate , including residential, commercial and retail. The implementation of RERA and GST, lower home loan interest rate regime and fiscal benefits for tax payers will infuse 'feel good factor' which is extremely important for growth of the real estate sector. The end of 2017 is most likely to see the initiation of a robust and sustainable growth trajectory for India's real estate industry and will be recognized as the base for the future growth of this sector.

Indian real estate is on its way to become a well-regulated, consolidated and moderately efficient industry by the year 2020.

13. HUMAN RESOURCES :

The Company recognizes that its people are the key to the success of the organization and in meeting its business objectives. The Human Resources function endeavors to create a congenial work environment and synchronizes the working of all the departments of the organization to accomplish their respective objectives, which in turn helps the Company to build and achieve its goals and strategies. Employee relations during the year remained cordial. The Company had 231 employees on its payroll as on March 31, 2017.

14. INTERNAL FINANCIAL CONTROLS :

The Company has in place adequate internal financial controls with reference to the financial statements. Significant audit observations and follow-up action thereon are reported to the Audit and Compliance Committee.

Based on the framework of internal financial controls and compliance systems established and maintained by the Company, work performed by the Internal, Statutory and Secretarial Auditors and the reviews performed by the Management, the Board is of the opinion that the Company's internal financial controls were adequate and effective during the Financial Year 2016-2017.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. INDEPENDENT AUDITOR'S REPORT (CONTD.)

“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF HUBTOWN LIMITED:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the ‘Act’).

We have audited the internal financial controls over financial reporting of Hubtown Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respect.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risks. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that the transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

INDEPENDENT AUDITOR'S REPORT (CONTD.)

Opinion

In our opinion, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Note '1' : Company Overview And Significant Accounting Policies

1.1 Company Overview

Hubtown Limited is a listed public limited company domiciled in India, incorporated under the Companies Act, 1956. The Company is engaged in real estate business of construction and development of Residential and Commercial Premises, Build Operate Transfer (BOT) Projects, etc. through both - on its own and through its subsidiaries / joint ventures / associate companies.

1.2 The financial statements were approved by the Company's Board of Directors and authorised for issue on 29th May, 2017.

Note '2' : Recent Accounting Pronouncement

a) Standards issued but not effective

Information on new standards, amendments and interpretations that are expected to be relevant to the financial statements is provided below.

The standards issued, but not effective up to the date of issuance of the financial statements are disclosed below. In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment'. The Group intends to adopt this standard and amendments when it becomes effective.

i) Ind AS 115 - Revenue from Contracts with Customers

Ind AS 115 was issued in February 2016 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under Ind AS. This standard will come into force from accounting period commencing on or after April 1, 2018. The Company will adopt the new standard on the required effective date. The Company is evaluating the requirements of the amendment and its impact on the financial statements.

ii) Amendment to Ind AS 7

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Company is evaluating the requirements of the amendment and its effect on the financial statements.

iii) Amendment to Ind AS 102

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement. The Company is evaluating the requirements of the amendment and its impact on the financial statements.

b) Disclosures as required by Indian Accounting Standard (Ind AS) 101 First time adoption of Indian Accounting Standard

The Company has adopted Ind AS with effect from 1st April, 2016 with comparatives being restated. Accordingly the impact of transition has been provided in the Opening Reserves as at 1st April, 2015 and all the periods presented have been restated accordingly. Exemptions availed on first time adoption of Ind AS 101: On first time adoption of Ind AS, Ind AS 101 allows certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has availed the following exemptions:

- i) Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.
- ii) The Company has opted to continue with the carrying values measured under the previous GAAP and use that carrying value as the deemed cost for investment in subsidiaries, associates and joint ventures on the date of transition to Ind AS.

Other comprehensive Income	g	(31.95)
Total Comprehensive Income		2,648.40

- Under Ind AS, loans are valued at present value as compared to being carried at cost under the previous GAAP. This adjustment includes the difference between the book value and the present value of an interest free loan given to joint ventures, which is treated as investment. The interest on the present value of this loan is recognised over the tenure of the loan using the EIR method.
- Under Ind AS, Investment in debentures are carried at amortised cost. The effect of transition in investments and revenue from operations includes amount on account of such adjustments.
- Deferred tax have been recognised on the adjustments made on transition to Ind AS.
- Under Ind AS, non-current trade receivable or receivables with extended credit are recognised at their present value. The unwinding of the discount or difference between present value and carrying value is treated as interest income. The difference in trade receivable, revenue from operations and interest income between previous GAAP and Ind As is on account of these adjustment.
- Under Ind AS, interest free lease deposits are valued at present value as compared to being carried at transaction value under the previous GAAP. This adjustment includes the difference between the book value and present value of interest free security deposits which has been recognised as deferred rent income. This amount is subsequently credited to the Statement of Profit and Loss on a straight line basis as lease income. Further, interest expense computed on the present value of the security deposit is recognised over the tenure of the security deposit using the EIR method.
- Under Ind AS prior period adjustments have to be retrospectively restated, as if a prior period error had never occurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '2': (Contd.)

- g. Under Ind AS, actuarial gains and losses are recognised in the OCI as compared to being recognised in the Statement of Profit and Loss under the previous GAAP.
- h. **Statement of cash flows:** There were no significant reconciliation items between cash flows prepared under previous GAAP and those prepared under Ind AS.

Note '3': Basis of preparation of Financial Statements

The financial statements of the Company have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015. The financial statements for all periods upto and including year ended 31st March 2016 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006 notified under Section 133 of the Companies Act, 2013 ("the Act"), read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) ("previous GAAP"). The financial statements for the year ended 31st March, 2017 are the first financial statements prepared by the Company in accordance with Ind AS. Refer note 2 (b) for information on how the Company adopted Ind AS.

The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting.

All the assets and liabilities have been classified as current or non-current, wherever applicable, as per the operating cycle of the Company as per the guidance set out in Schedule III to the Act. Operating cycle for the business activities of the Company covers the duration of the project/contract including the defect liability period, wherever applicable, and extends upto the realisation of receivables (including retention monies, if any) within the credit period normally applicable to the respective project.

The Company's financial statements are reported in Indian Rupees (In Lakhs), which is also the Company's functional currency, and all values are rounded to the nearest thousand (₹,000), except when otherwise indicated.

I. Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgments, estimates and assumptions that affect the reported balances of revenues, expenses, assets and the liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Judgments

Classification of property

The Company determines whether a property is classified as investment property or inventory property. Investment property comprises land and buildings that are not occupied substantially for use by, or in the operations of the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business. Inventory comprises property that is held for sale in the ordinary course of business. Principally, these are properties that the Company develops and intends to sell before or on completion of construction.

b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Revenue Recognition

The Company uses the percentage-of-completion method in accounting for its revenue. The percentage of completion is measured by reference to the stage of the projects and contracts determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Costs of the project are based on the management's estimate of the cost to be incurred upto the completion of the projects and include cost of land, Floor Space Index (FSI), materials, services and other expenses attributable to the projects. Estimates of project income, as well as project costs, are reviewed periodically. Costs expended have been used to measure progress towards completion of work. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

ii) Estimation of net realisable value for inventory (including advance to land owner)

Inventory are stated at the lower of cost and net realisable value (NRV).

NRV for completed property is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Company, based on comparable transactions identified by the Company for properties in the same geographical market serving the same real estate segment.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3' : (Contd.)

NRV in respect of inventory under construction / incomplete projects is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and an estimate of the time value of money to the date of completion.

With respect to advances given to land owners, the net recoverable value is based on the present value of future cash flows, which depends on the estimate of, among other things, the likelihood that a project will be completed, the expected date of completion, the discount rate used and the estimation of sale prices and construction costs.

iii) Valuation of investment in/ loans to subsidiaries

The Company has performed valuation for its investments in equity of subsidiaries, associates and Joint Ventures for assessing whether there is any impairment. When the fair value of investments in such entities cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model.

Similar assessment is carried out for exposure of the nature of loans and interest receivable thereon as well as project advances. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as expected earnings in future years, liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported amounts of these investments, loans and advances.

II. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will accrue to the Company and the revenue can be reliably measured and also when it is reasonably certain that the ultimate collection will be made and that there is buyer's commitment to make the complete payment.

A. Revenue from sale of properties / development rights

- i. The Company has adopted the principles of revenue recognition on the basis of "Guidance note on Accounting for Real Estate Transactions" issued by the Institute of Chartered Accountants of India, for the entities to whom Ind AS is applicable.
- ii. Revenue from sale of 'finished properties / buildings / rights' is recognised on transfer of all significant risks and rewards of ownership of such properties / buildings / rights, as per the terms of the contracts entered into with buyer(s), which generally coincides with the firming of the sale contracts/ agreements, except for contracts where the Company still has obligations to perform substantial acts even after the transfer of all significant risks and rewards.
- iii. Revenue from sale of incomplete properties / projects is recognized on the basis of percentage of completion method only if the following thresholds have been met :
 - a. All critical approvals necessary for the commencement of the project have been obtained;
 - b. The expenditure incurred on construction and development costs, excluding land costs, is not less than 25% of the total estimated construction and development costs of the project;
 - c. Atleast 25% of the saleable project area is secured by agreements with the buyers; and
 - d. Atleast 10% of the agreement value of each sold unit has been received at the reporting date in respect of such contracts with the buyers.

Further, revenue recognized in the aforesaid manner and related costs are both restricted to 90% until the construction activity and related formalities are substantially completed. Recognition of revenue relating to agreements entered into with the buyers, which are subject to fulfillment of obligations / conditions imposed on the Company by statutory authorities is postponed till such obligations are substantially discharged.

Estimated costs relating to construction / development are charged to the Statement of Profit and Loss in proportion to the revenue recognized during the year. The balance costs are carried as part of 'Incomplete Projects' as inventories under current assets. Amounts receivable / payable are reflected as 'Trade Receivables / Unbilled Receivables or Advances from Customers', respectively, after considering income recognized in the aforesaid manner.

- iv. Losses expected to be incurred on projects under construction, are charged in the Statement of Profit and Loss in the period in which the losses are known.
- v. Costs of the projects are based on the management's estimate of the cost to be incurred upto the completion of the projects and include cost of land, Floor Space Index (FSI), materials, services and other expenses attributable to the projects. Estimates of project income, as well as project costs, are reviewed periodically.
- vi. The sale proceeds of the investments held in subsidiaries, joint ventures, etc. developing real estate projects are included in revenue from operations, net of cost.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3' : (Contd.)

B. Revenue from Trading Materials:

Revenue from sale of trading material is recognised when significant risks and rewards associated with the sale of material is transferred to the buyer.

C. Revenue from project management services:

Revenue from 'project management services' is recognized based on the agreements between the Company and the parties to whom such services are rendered.

D. Profit / loss from partnership firms / association of persons:

Share of profit / loss from partnership firms / association of persons (AOP) is recognised on the basis of their audited/ management reviewed accounts, which is considered as a part of other operating activity.

E. Income from leased premises:

Lease income from operating lease is recognised in the Statement of Profit and Loss on straight line basis after adjusting for escalation over the lease term except where the lease incomes are structured to increase in line with expected general inflation.

F. Interest and dividend:

Interest income including income arising on other instruments is recognised on time proportion basis using the effective interest rate method.

Dividend income is recognized when the right to receive dividend is established.

G. Others:

Other revenues / incomes and costs / expenditure are accounted on accrual, as they are earned or incurred.

III. Property plant and equipment, investment property and depreciation / amortisation

- A. Tangible fixed assets are stated at cost of acquisition or construction including attributable interest and finance cost, if any till the date of acquisition/installation of the assets, less accumulated depreciation/amortisation and accumulated impairment losses, if any.
- B. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the Statement of Profit and Loss.
- C. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to assets or on sale/disposal of assets is calculated pro-rata from the month of such addition, or upto the month of such sale/disposal, as the case may be.

Asset Category	Estimated useful life (in Years)
Plant and Machinery (Mivan System)	3 to 5
Computer servers and network systems	6
Computer desktops and laptops	3
Office Equipments	5
Vehicles	8
Furniture and Fixture	10
Completed Investment Properties	60
Leasehold Land	Over the Primary Lease period
Commercial Premises	60

The residual values, useful lives and methods of depreciation of property plant equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

- D. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes to the financial statements. Fair values are determined based on an annual evaluation.

- E. On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April, 2015 of its Property, Plant and Equipment and Investment property and use that carrying value as the deemed cost on the date of transition i.e. 1st April, 2015.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

IV. Intangible assets and amortisation

Acquired computer softwares are classified as intangible assets and are stated at cost less accumulated amortisation. These are being amortised over the estimated useful life of five years, as determined by the management.

V. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

i. Initial recognition

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

ii. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

a) Financial Assets at Amortised Cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial Assets Measured at Fair Value

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

Financial asset not measured at amortised cost or at fair value through OCI is carried at FVTPL.

On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April, 2015 of its investments in subsidiaries, associates and joint ventures and used that carrying value as the deemed cost of these investments on the date of transition i.e. 1st April, 2015.

iii. De-recognition of Financial Assets:

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

B. Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

i. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3' : (Contd.)

ii. Financial Liabilities

1. Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings and payables as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2. Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation. Amortisation is recognised as finance income in the Statement of Profit and Loss.

- Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

3. De-recognition of Financial Liabilities

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

C. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

VI. Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expires or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

VII. Impairment

a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised, is recognized as an impairment gain or loss in the Statement of Profit or Loss.

b. Non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses, including impairment on inventories, are recognised in the Statement of Profit and Loss.

i. Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

ii. Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

VIII. Taxation

i. Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using rates that have been enacted or substantively enacted by the end of the reporting period.

In case the Company is liable to pay income tax under Section 115JB of Income Tax Act, 1961 (i.e. MAT), the amount of tax paid in excess of normal income tax is recognized as an asset (MAT Credit entitlement) only if there is convincing evidence for realization of such asset during the specified period. MAT credit entitlement is reviewed at each Balance Sheet date.

ii. Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

iii. Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

IX. Inventories

All inventories are stated at lower of 'Cost or Net Realizable Value'.

- A. 'Stock of material at Site' includes cost of purchase, other costs incurred in bringing them to their respective present location and condition. Cost formula used is average cost.
- B. 'Incomplete Projects' include cost of incomplete properties for which the Company has not entered into sale agreements and in other cases where the revenue recognition is postponed. 'Incomplete Projects' also include initial project costs that relate directly to a (prospective) project, incurred for the purpose of securing the project. These costs are recognized as expenditure in the year in which they are incurred unless they are separately identifiable and it is probable that the respective project will be obtained.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3' : (Contd.)

- C. Finished properties given under operating lease are disclosed under 'Non Current Assets' as 'Investment Properties'. The costs transferred to the 'Investment Properties' are shown as deductions from the costs carried in opening inventory and construction costs incurred during the year. These assets are depreciated / amortised as per the Accounting Policy Nos. (III)(C) and (III)(D). Although the Company considers these assets as Inventories held for sale in the ordinary course of business, the disclosure under 'Non Current Assets' as 'Investment Properties' and provision for depreciation / amortisation is made to comply with the requirements of Indian Accounting Standard (Ind AS) 17 – 'Leases' and Indian Accounting Standard (Ind AS) 40 - 'Investment Property'.
- D. Value of 'Floor Space Index' (FSI) generated is recognized as inventory at cost (i.e. proportionate rehab component cost) as and when necessary obligations / conditions are fulfilled in entirety, which are imposed on the Company by statutory authorities (viz. Rehabilitation Authority, etc.), in lieu of which the FSI is allotted to the Company. The value of FSI is either carried as inventory (at cost) held for intended sale or with the intention to utilise in construction of projects undertaken for sale.

Inventory value includes costs incurred upto the completion of the project viz. cost of land / rights, value of Floor Space Index (FSI), materials, services and other expenses (including borrowing costs) attributable to the projects. Cost formula used is average cost.

X. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after reporting period. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

XI. Trade receivable

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the EIR method, less provision for impairment.

XII. Employee benefits

a) Defined Contribution Plan

Contributions to defined contribution schemes such as provident fund, labour welfare fund are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

b) Defined Benefit Plan

The Company provides for gratuity which is a defined benefit plans the liabilities of which is determined based on valuations, as at the balance sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognised in the OCI, in the period in which they occur. Re-measurement recognised in OCI are not reclassified in the Statement of Profit and Loss in subsequent periods.

The classification of the Company's obligation into current and non-current is as per the actuarial valuation report.

c) Leave Entitlement

Leave entitlement are provided based on an actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the period in which they occur.

d) Short-term Benefits

Short-term employee benefits such as salaries, performance incentives, etc., are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognised in the period in which the absences occur.

XIII. Borrowings and Borrowing costs

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are de-recognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3' : (Contd.)

Interests and other borrowing costs included under finance costs calculated as per effective interest rate attributable to qualifying assets, which takes substantial period of time to get ready for its intended use are allocated as part of the cost of construction / development of such assets. Such allocation is suspended during extended periods in which active development is interrupted and, no costs are allocated once all such activities are substantially complete. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are charged to the Statement of Profit and Loss.

XIV. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

XV. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

XVI. Cash and Cash Equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

XVII. Foreign currency transactions

- A. All transactions in foreign currency are recorded in the reporting currency, based on closing rates of exchange prevalent on the dates of the relevant transactions.
- B. Monetary assets and liabilities in foreign currency, outstanding as on the Balance Sheet date, are converted in reporting currency at the closing rates of exchange prevailing on the said date. Resultant gain or loss is recognized during the year in the Statement of Profit and Loss.
- C. Non monetary assets and liabilities denominated in foreign currencies are carried at the exchange rate prevalent on the date of the transaction.

XVIII. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating result of the whole Company as one segment of "Real Estate Development". Thus, as defined in Ind AS 108 "Operating Segments", the Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Balance Sheet and the Statement of Profit and Loss.

XIX. Provisions, contingent liabilities and contingent assets

A provision is recognized when an enterprise has a present obligation (legal or constructive) as result of past event and it is probable that an outflow of embodying economic benefits of resources will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably.

Contingent assets are neither recognised nor disclosed in the financial statements.

XX. Interest in Joint Arrangements

As per Ind AS 111 - Joint Arrangements, investment in Joint Arrangements is classified as either Joint Operation or Joint Venture. The classification depends on the contractual rights and obligations of each investor rather than legal structure of the Joint Arrangement. The Company classifies its Joint Arrangements as Joint Ventures.

The Company recognizes its interest in Joint Ventures as an investment and accounts for that investment using the equity method in accordance with Ind AS 28.

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's management is to maximise shareholders value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may issue new shares. Consistent with others in the industry, the Company monitors its capital using the gearing ratio which is total net debt (borrowings offset by cash and cash equivalents) divided by total capital of the Company.

Gearing Ratio

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

INDEPENDENT AUDITORS' REPORT (CONTD.)

"ANNEXURE A" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF HUBTOWN LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the 'Act')

In conjunction with our audit of the consolidated financial statements of the Hubtown Limited ('the Holding Company') and its subsidiaries, ('the Holding Company and its subsidiaries together referred to as 'the Group'), its associates and its joint ventures as at and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of the Holding Company, its subsidiary companies, associate companies and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, associate companies and joint ventures which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to the respective company's policies, the safeguarding of the company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company, its subsidiary companies, associate companies and joint venture companies as aforesaid, based on our audit. We conducted our audit in accordance with the guidance note on Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting of the Holding Company, its subsidiary companies, associate companies and joint venture companies as aforesaid.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to eight subsidiary companies and two joint venture companies, is based on the corresponding reports of the auditors of such companies incorporated in India. Further, we reserve our opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting in case of six subsidiaries, twelve joint ventures and two associate companies, incorporated in India, which are unaudited and have been furnished to us by the Management.

Our opinion is not qualified in respect of this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Note 1. Company Overview

- 1.1 Hubtown Limited ("The Company" or "The Parent") is a listed public limited company domiciled in India, incorporated under the Companies Act, 1956. The financial statements comprises the financial statements of the Company and its subsidiaries (the Company and its subsidiaries referred to as the "Group") and its associates and joint arrangements. The Group is principally engaged in real estate business of construction and development of Residential and Commercial Premises, Build Operate Transfer (BOT) Projects, etc.
- 1.2 The consolidated financial statements have been approved for issue by the Company's Board of Directors on 29th May, 2017.

Note 2. Recent Accounting Pronouncement

a) Standards issued but not effective

Information on new standards, amendments and interpretations that are expected to be relevant to the financial statements is provided below.

The Standards issued, but not effective up to the date of issuance of the financial statements is disclosed below. In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' The Group intends to adopt these Standards and amendments when they become effective.

i) Ind AS 115 - Revenue from Contracts with Customers

Ind AS 115 was issued in February 2016 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under Ind AS. This standard will come into force from accounting period commencing on or after April 1, 2018. The Group will adopt the new standard on the required effective date. The Group is evaluating the requirements of the amendment and the impact on the financial statements.

ii) Amendment to Ind AS 7

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Group is evaluating the requirements of the amendment and the effect on the financial statements.

iii) Amendment to Ind AS 102

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement. The Group is evaluating the requirements of the amendment and the impact on the financial statements.

b) Disclosures as required by Indian Accounting standard (Ind AS) 101 First time adoption of Indian accounting standard

The Group has adopted Ind AS with effect from 1st April, 2016 with comparatives being restated. Accordingly the impact of transition has been provided in the Opening Reserves as at 1st April, 2015 and all the periods presented have been restated accordingly. Exemptions availed on first time adoption of Ind AS 101: On first time adoption of Ind AS, Ind AS 101 allows certain exemptions from the retrospective application of certain requirements under Ind AS. The Group has availed the following exemptions:

- i) Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for investment property covered by Ind AS 40 Investment Properties. Accordingly, the Group has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.
- ii) The Group has opted to continue with the carrying values measured under the previous GAAP and use that carrying value as the deemed cost for investment in associates and joint ventures on the date of transition to Ind AS.

Note 3. Statement Of Significant Accounting Policies And Practices

A. Basis of preparation of Financial Statements

The financial statements of the Group have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015. The financial statements for all periods upto and including year ended 31 March, 2016 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006 notified under Section 133 of the Companies Act, 2013 ("the Act"), read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) ("previous GAAP"). The financial statements for the year ended 31st March, 2017 are the first financial statements prepared by the Group in accordance with Ind AS. Refer note 2 (b) for information on how the Group adopted Ind AS. The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting. All the assets and liabilities have been classified as current or non-current, wherever applicable, as per the operating cycle of the Group as per the guidance set out in Schedule III to the Act. Operating cycle for the business activities of the Group covers the duration of the project/ contract/ service including the defect liability period, wherever applicable, and extends upto the realisation of receivables (including retention monies) within the credit period normally applicable to the respective project.

The Consolidated financial statements are reported in Indian Rupees (In Lakhs), which is also the Group's functional currency, and all values are rounded to the nearest thousand (₹ ,000), except when otherwise indicated.

B. Principles of consolidation

The financial statements have been prepared on the following basis:

a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date the control ceases. The acquisition method of accounting is used to account for business combination by the Group. The Group combines the separate financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, Contingent liability, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary and practicable to ensure consistency with the policies adopted by the Group. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated Statement of Profit and Loss, consolidated Statement of Changes in Equity and Balance Sheet, respectively.

In the consolidated financial statements, 'Goodwill' represents the excess of the cost to the Company of its investment in the subsidiaries over its share of equity, at the respective dates on which the investments are made. Alternatively, where the share of equity as on the date of investment is in excess of cost of investment, it is recognised as 'Capital Reserve' in the Consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

b) Associates

Associates are all entities over which the Group has significant influence but no control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognized at cost.

c) Joint Arrangements

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. Principles of Ind AS, requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based and actions, actual results could differ from these estimates which are recognized in the period in which they are determined.

Joint Operations

The Group recognises its direct right to the assets, liabilities, contingent liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses.

Joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are incorporated in these financial statements using the equity method of accounting as described below.

d) Equity Method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income ("OCI"). Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment. Investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income ("OCI"). Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary and practicable to ensure consistency with the policies adopted by the Group.

e) Changes in Ownership Interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests or reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity. When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit and loss. The fair value becomes the initial carrying amount for the purposes of subsequent accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in OCI in respect of that entity are reclassified to profit or loss as if the Group had directly disposed of the related assets and liabilities.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in OCI are reclassified to profit or loss where appropriate.

f) The financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's separate financial statements in preparing the financial statements to ensure conformity with the Group's accounting policies, wherever necessary and practicable.

g) Notes to the financial statements represent notes involving items which are considered material and are accordingly disclosed. Materiality for the purpose is assessed in relation to the information contained in the financial statements. Further, additional statutory information disclosed in separate financial statements of the subsidiary and/or a parent having no bearing on the true and fair view of the financial statements has not been disclosed in these financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

C) I. Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgments, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Judgments

Classification of property

The Group determines whether a property is classified as investment property or inventory property. Investment property comprises land and buildings that are not occupied substantially for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business. Inventory comprises property that is held for sale in the ordinary course of business. Principally, these are properties that the Group develops and intends to sell before or on completion of construction.

b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i) Revenue Recognition

The Group uses the percentage-of-completion method in accounting for its revenue. The percentage of completion is measured by reference to the stage of the projects and contracts determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Costs of the project are based on the management's estimate of the cost to be incurred up to the completion of the projects and include cost of land, Floor Space Index (FSI), materials, services and other expenses attributable to the projects. Estimates of project income, as well as project costs, are reviewed periodically. Costs expended have been used to measure progress towards completion of work. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

ii) Estimation of net realizable value for inventory (including advances to land owners)

Inventory are stated at the lower of cost and net realizable value (NRV).

NRV for completed property is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Group, based on comparable transactions identified by the Group for properties in the same geographical market serving the same real estate segment.

NRV in respect of inventory under construction / incomplete projects is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and an estimate of the time value of money to the date of completion.

With respect to advances given to land owners, the net recoverable value is based on the present value of future cash flows, which depends on the estimate of, among other things, the likelihood that a project will be completed, the expected date of completion, the discount rate used and the estimation of sale prices and construction costs.

iii) Valuation of investment in/ loans to JV / Associates

The Group has performed valuation for its investments in equity of associates and JVs for assessing whether there is any impairment. When the fair value of investments in such entities cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model.

Similar assessment is carried out for exposure of the nature of loans and interest receivable thereon as well as project advances. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include consideration of inputs such as expected earnings in future years, liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported amounts of these investments, loans and advances.

II. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will accrue to the Group and the revenue can be reliably measured and also when it is reasonably certain that the ultimate collection will be made and that there is buyers' commitment to make the complete payment.

A. Revenue from sale of properties / development rights

- i. The Group has adopted the principles of revenue recognition on the basis of "Guidance Note on Accounting for Real Estate Transactions" issued by the Institute of Chartered Accountants of India, for the entities to whom Ind AS is applicable.
- ii. Revenue from sale of 'finished properties / buildings / rights' is recognized on transfer of all significant risks and rewards of ownership of such properties / buildings / rights, as per the terms of the contracts entered into with buyer/(s), which generally coincides with the firming of the sale contracts/ agreements, except for contracts where the Group still has obligations to perform substantial acts even after the transfer of all significant risks and rewards.
- iii. Revenue from sale of incomplete properties / projects is recognized on the basis of percentage of completion method only if the following thresholds have been met :
 - a. All critical approvals necessary for the commencement of the project have been obtained;
 - b. The expenditure incurred on construction and development costs, excluding land costs, is not less than 25% of the total estimated construction and development costs of the project;
 - c. Atleast 25% of the saleable project area is secured by agreements with the buyers; and
 - d. Atleast 10% of the agreement value of each sold unit has been received at the reporting date in respect of such contracts with the buyers.

Further, revenue recognized in the aforesaid manner and related costs are both restricted to 90% until the construction activity and related formalities are substantially completed. Recognition of revenue relating to agreements entered into with the buyers, which are subject to fulfillment of obligations / conditions imposed on the Group by statutory authorities is postponed till such obligations are substantially discharged.

Estimated costs relating to construction / development are charged to the Statement of Profit and Loss in proportion to the revenue recognized during the year. The balance costs are carried as part of 'Incomplete Projects' as inventories under current assets. Amounts receivable / payable are reflected as 'Trade Receivables / Unbilled Receivables or Advances from Customers', respectively, after considering income recognized in the aforesaid manner.

- iv. Losses expected to be incurred on projects under construction, are charged in the Statement of Profit and Loss in the period in which the losses are known.
- v. Costs of the projects are based on the management's estimate of the cost to be incurred up to the completion of the projects and include cost of land, Floor Space Index (FSI), materials, services and other expenses attributable to the projects. Estimates of project income, as well as project costs, are reviewed periodically.
- vi. The sale proceeds of the investments held in subsidiaries, joint ventures, etc. developing real estate projects are included in revenue from operations, net of cost.

B. Revenue from Trading Materials:

Revenue from sale of trading materials is recognized when significant risks and rewards associated with the sale of materials is transferred to the buyer.

C. Revenue from project management services:

Revenue from 'project management services' is recognized based on the agreements between the Group and the parties to whom such services are rendered.

D. Profit / loss from partnership firms / association of persons:

Share of profit / loss from partnership firms / association of persons (AOP) is recognized on the basis of their audited/ management reviewed accounts, which is considered as a part of other operating activity.

E. Income from leased premises:

Lease income from operating lease is recognized in the Statement of Profit and Loss on straight line basis after adjusting for escalation over the lease term except where the lease incomes are structured to increase in line with expected general inflation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

F. Interest and dividend:

Interest income including income arising from other instruments is recognized on time proportion basis using the effective interest rate method.

Dividend income is recognized when the right to receive dividend is established.

G. Others:

Other revenues / incomes and costs / expenditure are accounted on accrual, as they are earned or incurred.

III. Property plant and equipment, investment property and depreciation / amortization

- A. Tangible fixed assets are stated at cost of acquisition or construction including attributable interest and finance cost, if any till the date of acquisition/installation of the assets, less accumulated depreciation/amortization and accumulated impairment losses, if any.
- B. Subsequent expenditure relating to Property, Plant and Equipment is capitalized only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognized in the Statement of Profit and Loss.
- C. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to assets or on sale/disposal of assets is calculated pro-rata from the month of such addition, or up to the month of such sale/disposal, as the case may be.

Asset Category	Estimated useful life (in Years)
Plant and Machinery (Mivan System)	3 to 5
Computer servers and network systems	6
Computer desktops and laptops	3
Office Equipment	5
Vehicles	8
Furniture and Fixtures	10
Completed Investment Properties	60
Leasehold Land	Over the Primary Lease period
Commercial Premises	60

The residual values, useful lives and methods of depreciation of property plant equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

- D. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.
Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation.
- E. On transition to Ind AS, the Group has opted to continue with the carrying values measured under the previous GAAP as at 1st April, 2015 of its Property, Plant and Equipment and Investment property and use that carrying value as the deemed cost on the date of transition i.e. 1st April, 2015.
- F. Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready to use for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.

IV. Intangible assets and amortization

Other Intangible assets

Acquired computer softwares are classified as intangible assets and are stated at cost less accumulated amortization. These are being amortized over the estimated useful life of five years, as determined by the management.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

Goodwill

Goodwill on acquisition of subsidiaries is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset may be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on disposal of an entity include the carrying amount of goodwill relating to the entity sold.

V. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

i. Initial recognition

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognized in the Statement of Profit and Loss.

ii. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

a) Financial Assets at Amortized Cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial Assets measured at Fair Value

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the Statement of Profit and Loss. Further, in cases where the Group has made an irrevocable election based on its business model for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

Financial asset not measured at amortized cost or at fair value through OCI is carried at FVTPL.

On transition to Ind AS, the Group has opted to continue with the carrying values measured under the previous GAAP as at 1st April, 2015 of its investments in subsidiaries, associates and joint ventures and used that carrying value as the deemed cost of these investments on the date of transition i.e. 1st April, 2015.

iii. Derecognition of Financial Assets:

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralised borrowing for the proceeds received.

B. Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

i. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

ii. Financial Liabilities

1. Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings and payables as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2. Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization. Amortization is recognized as finance income in the Statement of Profit and Loss.

- Financial liabilities at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings in the Statement of Profit and Loss. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

3. Derecognition of Financial Liabilities

Financial liabilities are derecognized when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

C. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis to realize the assets and settle the liabilities simultaneously.

VI. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

VII. Impairment

a. Financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit or Loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

b. Non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses, including impairment on inventories, are recognized in the Statement of Profit and Loss.

i. Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

ii. Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

VIII. Taxation

i. Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using rates that have been enacted or substantively enacted by the end of the reporting period.

In case the Group is liable to pay income tax under Section 115JB of Income Tax Act, 1961 (i.e. MAT), the amount of tax paid in excess of normal income tax is recognized as an asset (MAT Credit entitlement) only if there is convincing evidence for realization of such asset during the specified period. MAT credit entitlement is reviewed at each Balance Sheet date.

ii. Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

iii. Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

IX. Inventories

All inventories are stated at lower of 'Cost or Net Realizable Value'.

- A. 'Stock of material at Site' includes cost of purchase, other costs incurred in bringing them to their respective present location and condition. Cost formula used is average cost.
- B. 'Incomplete Projects' include cost of incomplete properties for which the Group has not entered into sale agreements and in other cases where the revenue recognition is postponed. 'Incomplete Projects' also include initial project costs that relate directly to a (prospective) project, incurred for the purpose of securing the project. These costs are recognized as expenditure in the year in which they are incurred unless they are separately identifiable and it is probable that the respective project will be obtained.
- C. Finished properties given under operating lease are disclosed under 'Non Current Assets' as 'Investment Properties'. The costs transferred to the 'Investment properties' are shown as deductions from the costs carried in opening inventory and construction costs incurred during the year. These assets are depreciated / amortized as per the Accounting Policy Nos. (III)(C) and (III)(D). Although the Group considers these assets as Inventories held for sale in the ordinary course of business, the disclosure under 'Non Current Assets' as 'Investment properties' and provision for depreciation / amortisation is made to comply with the requirements of Indian Accounting Standard (Ind AS) 17 - 'Leases' and Indian Accounting Standard (Ind AS) 40 - 'Investment Property'.
- D. Value of 'Floor Space Index' (FSI) generated is recognized as inventory at cost (i.e. proportionate rehab component cost) as and when necessary obligations / conditions are fulfilled in entirety, which are imposed on the Group by statutory authorities (viz. Rehabilitation Authority, etc.), in lieu of which the FSI is allotted to the Group. The value of FSI is either carried as inventory (at cost) held for intended sale or with the intention to utilise in construction of projects undertaken for sale.

Inventory value includes costs incurred up to the completion of the project viz. cost of land / rights, value of Floor Space Index (FSI), materials, services and other expenses (including borrowing costs) attributable to the projects. Cost formula used is average cost.

X. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

XI. Trade receivable

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the EIR method, less provision for impairment.

XII. Employee benefits

a) Defined Contribution Plan

Contributions to defined contribution schemes such as provident fund, labour welfare fund are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The Company's provident fund contribution is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Group has no further obligations beyond the monthly contributions.

b) Defined Benefit Plan

The Group provides for gratuity which is a defined benefit plan the liabilities of which is determined based on valuations, as at the balance sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognized in the OCI, in the period in which they occur. Re-measurement recognized in OCI are not reclassified to the Statement of Profit and Loss in subsequent periods.

The classification of the Group's obligation into current and non-current is as per the actuarial valuation report.

c) Leave Entitlement

Leave entitlement is provided based on an actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognized in the Statement of Profit and Loss in the period in which they occur.

d) Short-term Benefits

Short-term employee benefits such as salaries, performance incentives, etc. are recognized as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognized in the period in which the absences occur.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '3': (Contd.)

XIII. Borrowings and Borrowing costs

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

Interests and other borrowing costs included under finance costs calculated as per effective interest rate attributable to qualifying assets, which takes substantial period of time to get ready for its intended use are allocated as part of the cost of construction / development of such assets. Such allocation is suspended during extended periods in which active development is interrupted and, no costs are allocated once all such activities are substantially complete. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are charged to the Statement of Profit and Loss.

XIV. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

XV. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

XVI. Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

XVII. Foreign currency transactions

- A. All transactions in foreign currency are recorded in the reporting currency, based on closing rates of exchange prevalent on the dates of the relevant transactions.
- B. Monetary assets and liabilities in foreign currency, outstanding as on the Balance Sheet date are converted in reporting currency at the closing rates of exchange prevailing on the said date. Resultant gain or loss is recognized during the year in the Statement of Profit and Loss.
- C. Non monetary assets and liabilities denominated in foreign currencies are carried at the exchange rate prevalent on the date of the transaction.

XVIII. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating result of the whole Group as one segment of "Real Estate Development". Thus, as defined in Ind AS 108 "Operating Segments", the Group's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Balance Sheet and the Statement of Profit and Loss.

XIX. Provisions, contingent liabilities and contingent assets

A provision is recognized when an enterprise has a present obligation (legal or constructive) as result of past event and it is probable that an outflow of embodying economic benefits of resources will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. A contingent liability also arises, in rare cases, where a liability cannot be recognized because it cannot be measured reliably.

Contingent assets are neither recognized nor disclosed in the financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017 (CONTD.)

Note '36'

The Consolidated Financial Statements present the consolidated accounts of the Company with its Subsidiaries, Associates and Joint Ventures which incorporate Acruti Safeguard Systems Private Limited (ASSPL), a subsidiary of the Company engaged in manufacturing activities whose commercial operations have commenced but do not meet the quantitative threshold of a reportable segment as per Ind AS 108. Further, the Group operates within a single geographical segment.

Note '37': Financial Risk Management Objectives

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

1) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument which will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Major financial instruments affected by market risk include loans and borrowings.

a) Interest rate risk

Majority of the long-term borrowings of the Group bear fixed interest rate, and thus interest rate risk is limited for the Group.

b) Foreign currency risk

The Group is exposed to foreign exchange risk. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies. Further, the Group is engaged in real estate business and only imports certain material against Letter of Credit for which hedging instruments are not required.

c) Equity price risk

The Group's equity securities are not majorly susceptible to market price risk. However, the Company's Board of Directors reviews and approves all equity investment decisions after taking due diligence which may affect the market related risk.

2) Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure of the financial assets are contributed by trade receivables, unbilled work-in-progress, cash and cash equivalents and receivables from group companies.

- a) Receivables resulting from sale of properties: Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Group's credit risk in this respect.
- b) Receivables resulting from other than sale of properties: There are no such major receivables resulting from other than sale of properties. However, credit risk related to such receivables is managed as per Group's established policy, procedures and control. Outstanding customer receivables are regularly monitored.
- c) Credit risk on cash and cash equivalents is limited as the Group keeps its cash balance in Current Accounts / Fixed Deposit Accounts with the Banks which have high credit ratings.

3) Liquidity risk

The Group's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. The management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

Note '38': Capital Management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The Group strives to safeguard its ability to continue as a going concern so that they can maximise returns for the shareholders and benefits for other stake holders. The aim is to maintain an optimal capital structure and minimise cost of capital.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may issue new shares. Consistent with others in the industry, the Group monitors its capital using the gearing ratio which is total net debt (borrowings offset by cash and cash equivalents) divided by total capital of the Company.

Gearing Ratio

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings.
