### RattanIndia Power Update

- With 2700 MW commissioned capacity (Amravati and Nashik Phase 1 each of 1350 MW), the Company is amongst top 10 IPP generators in the Country
- incremental coal cost procured due to shortage in coal supplies by Coal India Ltd under Coal strengthens RattanIndia's claim under change in law provisions of PPA for pass through of establishes change in law principle for change in domestic polices affecting coal supplies and Recent decision of Hon'ble Supreme Court (SC) in matter of Tata and Adani (Mundra plants)
- quantum of Coal Linkage amongst IPPs which is extremely valuable as new linkages are RattanIndia having 22 mtpa coal linkage for its 5400 MW capacity (Amravati 1350 MW Phase available only through auction under SHAKTI (Scheme for Harnessing and Allocating Koyala (Coal) Transparently in India) announced on 17th May 2017 1 + 1350 MW Phase 2 and Nashik 1350 MW Phase 1 + 1350 MW Phase 2) has the largest
- having credit rating of A in the 5th Integrated Rating for State Power Distribution Utilities Amravati power plant has PPA with one of the better distribution utilities of the country (Rating table – on page 13)

#### Generation trend

11.81%	760	FY 17-18*
5.82%	1,236	FY 16-17
5.69%	1,168	FY 15-16
8.92%	1,105	FY 14-15
5.14%	1,015	FY 13-14
4.61%	965	FY 12-13
8.99%	923	FY 11-12
5.42%	847	FY 10-11
7.69%	803	FY 09-10
6.66%	746	FY 08-09
6.02%	699	FY 07-08
6.80%	660	FY 06-07
	618	FY 05-06
CAGR	Total	Country

<sup>\*</sup>Generation for April 17 to Oct 17 and CAGR over first seven months of FY 2018

# Very robust generation growth of 11.81% at national level for first seven months of FY 2018

FY 2016-17 All India Generation - 1236 BUs of which 81 BUs i.e. approx. 7% is from Renewables (57 GW installed capacity of Renewables).

to be major contributor to power generation of India. 50GW then the corresponding share of Renewables shall be 200 BUs (~12% share). Hence, the generation from thermal will continue means the generation from renewables shall be approx. 18% of total generation. However if the addition from renewables is only to approx. 300 BUs against the expected all India generation of approx. 1650 BUs assuming current growth rate of 6% p.a. This If additional 100 GW renewable plants are commissioned over next 5 years, the generation from renewables is expected to increase

### RattanIndia Power Update

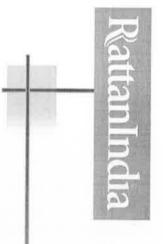

beginning till 30th Sept 17) Amravati plant: Hugely valuable and robust asset: (all numbers from

- Total amount of money received from MSEDCL: Rs 5,410.75 crs
- Total interest income of lenders from Amravati project: Rs 4,353.01 crs
- Total money paid back to lenders: Rs 4,641.29 crs
- Rs 670.81 crs as principal
- Rs 3970.48 crs as interest

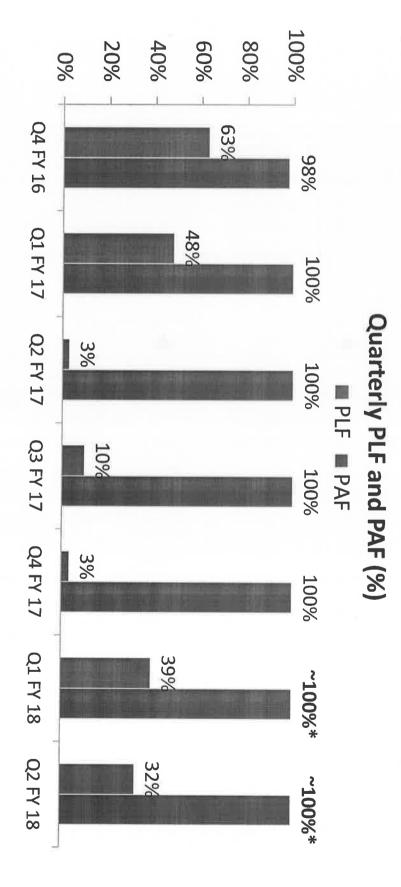

## RattanIndia Power Update - Amravati

- started receiving schedule and received schedule even during monsoon season. However, due to coal shortages being faced by all power plants across nation, Amravati plant could not generate to full extent as required by Amravati plant was under zero schedule from 13.06.17 to 08.08.17. However from 09.08.17, plant has again
- arrange coal required for running all 5 units on a continuous basis and could only generate to the extent of coal given in 2014 to allow pass-through of incremental coal cost. Owing to these constraints, the company could not supplied by SECI Further, Maharashtra State Electricity Distribution Company Ltd (MSEDCL) is yet to implement MERC's decision
- Pursuant to Hon'ble SC's decision, appeals pending before Appellate Tribunal For Electricity (APTEL) on recovery of incremental expenses required to be put to same economic position as if the change in law has not arisen which will lead to complete back to MERC for fresh assessment to permit pass-through under change in law principles, where the generator is incremental coal pass through allowed by Maharashtra Electricity Regulatory Commission (MERC) are remanded
- from time to time in this regard. Plan as part of which S4A may be carried out keeping 24.08.2017, being the date of meeting/decision, as Owing to the financial stress faced by the project, it was informed earlier that pursuant to the meeting of Joint reference date subject to and in line with relevant conditions/guidelines/regulations imposed/issued by RBI Lenders Forum (JLF) of the consortium lenders held on 24.08.2017, lenders have proposed a Corrective Action

### Amravati Project: PLF and PAF

supply of coal under coal linkage. scheduled capacity. We expect to claim this difference as part of ongoing case related to short Plant was available 100%. However, shortage of coal resulted in less despatch than

### Rattanındia Power Update - Nashik

- plant near Nashik which is old and is proposed for abandonment no other plant in this area other than Maharashtra State Generation Company Ltd's Eklahara Plant is located in western region of Maharashtra which is the load centre of State. There is
- Eklahara plant is currently a must run plant due to its location near load center inspite of being on top
- of Merit Order Disptach due to higher variable charge.
- Hence, these plants (Ekhalara as well as RPL's Nashik plant) cannot be compared with pit-head plants in Chhattisgarh, Odhisa etc
- and ready for generation. PPAs are under litigation, which has led to plant being idle in spite of being commissioned Although the plant has approval for 950 MW power procurement from Govt of Maharashtra,
- **Nasik Power Limited.** Power Plant of the Company, developed through its wholly owned subsidiary RattanIndia undertake a Strategic Debt Restructuring (SDR) Scheme for the Phase I of Nashik Thermal Forum of the consortium of lenders have, under the guidelines issued by RBI, decided to As the plant is not operating, it is under severe financial stress and hence, the Joint Lenders
