Tata Communications makes its debut in the Gartner Magic Quadrant for Managed Hybrid Cloud Hosting, Asia/Pacific

Inclusion based on an evaluation of Completeness of Vision and Ability to Execute

MUMBAI, INDIA - November 27th, 2017 - [Tata Communications](#), a leading provider of network, cloud and security services, has been positioned for the first time by Gartner in its 2017 Magic Quadrant for Managed Hybrid Cloud Hosting, Asia/Pacific(1). Designed by Gartner to examine how effectively providers meet the current needs of business in terms of both ‘completeness of vision’ and ‘ability to execute’, 2017 marks Tata Communications’ debut in the report.

Srinivasan CR, Senior Vice President, Global Product Management and Data Centre Services, Tata Communications said: “We enable businesses to create a hybrid IT environment that combines the versatile capabilities of IZO™ Private Cloud and the flexibility of public cloud with enterprise-grade security. IZO™ Private Cloud’s open architecture, tight network integration and granular footprint with 13 cloud nodes across geographies provides unprecedented control over the residency of customer data and applications - keeping up with their employees’ demands for mobile, collaborative and social ways of working. Our inclusion for the first time in the Managed Hybrid Cloud Hosting Magic Quadrant, Asia/Pacific is a testament to our continued focus on making it easy for customers to accelerate their digital transformation strategy through a cloud-first strategy.”

Tata Communications’ global suite of cloud and hosting solutions provides customers with the flexibility, scalability and security to help them thrive in today’s fast-changing marketplace. In addition to professional services offered for cloud migration and integration, the company has acquired the Multi-Tier Cloud Security (MTCS) Level 3 certification, Singapore’s highest security management certification for cloud operations.

The company’s hybrid cloud strategy is underpinned by Tata Communications’ [global network](#), [IZO™](#) ecosystem, and partnerships with world’s biggest clouds - Microsoft Azure, Amazon Web Services, Google Cloud Platform, Office 365 and Salesforce. Today, over 25% of the world’s Internet routes travel over Tata Communications’ network and the company is the only Tier-1 provider that is in the top five by routes in five continents.

Ends...

Forward-looking and cautionary statements

Certain words and statements in this release concerning Tata Communications and its prospects, and other statements, including those relating to Tata Communications' expected financial position, business strategy, the future development of Tata Communications' operations, and the general economy in India, are forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors, including financial, regulatory and environmental, as well as those relating to industry growth and trend projections, which may cause actual results, performance or achievements of Tata Communications, or industry results, to differ materially from those expressed or implied by such forward-looking statements. The important factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements include, among others, failure to increase the volume of traffic on Tata Communications' network; failure to develop new products and services that meet customer demands and generate acceptable margins; failure to successfully complete commercial testing of new technology and information systems to support new products and services, including voice transmission services; failure to stabilize or reduce the rate of price compression on certain of the company's communications services; failure to integrate strategic acquisitions and changes in government policies or regulations of India and, in particular, changes relating to the administration of Tata Communications' industry; and, in general, the economic, business and credit conditions in India. Additional factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements, many of which are not in Tata Communications' control, include, but are not limited to, those risk factors discussed in Tata Communications Limited's Annual Reports. The Annual Reports of Tata Communications Limited are available at www.tatacommunications.com. Tata Communications is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements.
