Jubilant receives sNDA approval for new indications from USFDA for DRAXIMAGE® DTPA

Noida (UP), India, Thursday, December 28, 2017

Jubilant Life Sciences Ltd, an integrated global Pharmaceutical and Life Sciences Company, has announced that Jubilant Pharma Limited (JPL), a material wholly owned subsidiary of the Company, through one of its wholly owned subsidiaries, has received a Supplemental New Drug Application (sNDA) approval from USFDA for DRAXIMAGE® DTPA (Kit for the Preparation of Technetium Tc99m Pentetate Injection) powder for solution.

Specifically, DRAXIMAGE® DTPA is a kit for the preparation of Technetium Tc99m pentetate injection. Technetium Tc99m pentetate is a radioactive diagnostic agent indicated for:

- a) Brain imaging in adults
- b) Renal visualization, assessment of renal perfusion and estimation of glomerular filtration rate in adult and pediatric patients
- c) Lung ventilation imaging and evaluation of pulmonary embolism, when paired with perfusion imaging in adult and pediatric patients when administered by nebulizer for inhalation.

The expanded labeling incorporates a new route of administration and new indication which enhances the broad utility of DRAXIMAGE® DTPA to include clinical applications to image and diagnose key functional aspects of the pulmonary system, and will allow physicians to perform lung ventilation studies for a much larger patient population suffering from compromised pulmonary function. The product is immediately available in the US market.

Commenting on the occasion, Mr Shyam S Bhartia, Chairman, and Mr Hari S Bhartia, Co-Chairman and Managing Director, said: “We are very pleased with the latest approval from US FDA for DRAXIMAGE® DTPA. It reinforces our commitment to continued investment in innovation, research and development. Our goal is to bring value to products that enable physicians to deliver high quality diagnostics imaging studies”

About Jubilant Life Sciences Limited

Jubilant Life Sciences Limited is an integrated global pharmaceutical and life sciences company engaged in Pharmaceuticals, Life Science Ingredients and Drug Discovery Solutions. The Pharmaceuticals segment, through its wholly owned subsidiary Jubilant Pharma Limited, is engaged in manufacture and supply of APIs, Solid Dosage Formulations, Radiopharmaceuticals, Allergy Therapy Products and Contract Manufacturing of Sterile and Non-sterile products
