PRESS RELEASE

Godrej Consumer Products Limited recognised as an FTSE4Good constituent

Mumbai, February 6, 2017: Godrej Consumer Products Limited (GCPL) has been recognised as an FTSE4Good constituent in the FTSE4 Good Emerging Index. GCPL has been highly rated for corporate governance and environmental practices as part of the Index. Inclusion in FTSE4Good indexes is recognised globally as a mark of best practices observed by companies in making their businesses socially and environmentally responsible.

In December 2016, FTSE Russell launched the FTSE4Good Emerging Index, which covers over 20 emerging countries. This Index is an extension to the FTSE4Good Index series, which provides a multi-dimensional measure of Environmental, Social and Governance (ESG) exposure and practice. It is designed to help investors integrate environmental, social and governance factors into their investment decisions. The indices identify companies that better manage ESG risks and are used as a basis for tracker funds, structured products and as a performance benchmark. The ESG ratings are used by investors who wish to incorporate ESG factors into their investment decision-making processes, or as a framework for corporate engagement and stewardship.

Commenting on this recognition, Mr. Vivek Gambhir, Managing Director, Godrej Consumer Products Limited, says, *“We are delighted to be recognised as an FTSE4Good Emerging Index constituent company. For us at the Godrej Group, it has always been most important that besides our strong financial performance and innovative, much loved products, we remain a good company. This has held us in very good stead for nearly 120 years now.*

We have always actively championed social responsibility and are deeply committed to driving the social progress of our communities. In fact, 24 per cent of our holding company is in a trust that invests in the environment, health and education.

Many global companies, including ours, have adopted a ‘shared value’ approach to business growth and innovation. The idea is to link business success with social progress - to find ways to create business value that also create social value. So, through our Good & Green strategy, we are committed to creating a more employable workforce, building a Greener world and innovating for good and green products.”
