Snapshot - 9M FY17 Financial Performance

* As of Jan 1, 2017. 3 in-operative irrigation orders totaling Rs1,778cr removed from order book in 2Q.

Key Highlights – 9M FY17

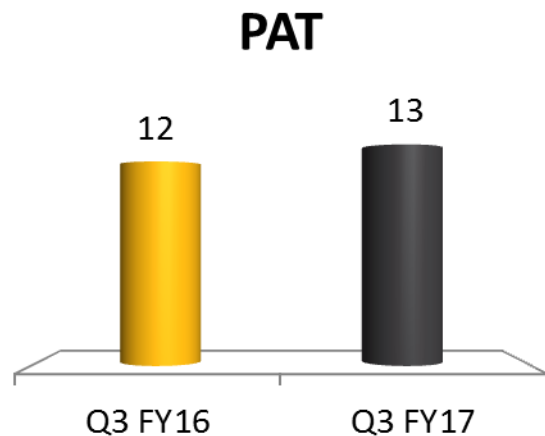

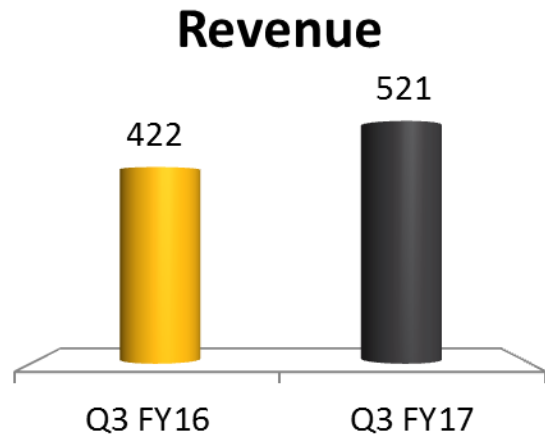

- **Strong traction in order inflow; order book grew by ~3x in past 15 months**
 - Bagged orders in excess of Rs. 4,200 crore during 9M FY17
 - Focused on ramping up order execution
- **Board approves Comprehensive restructuring & separate listing of Company's Road BOT assets –**
 - Board has approved a scheme of arrangement which involves following 3 steps, executed simultaneously:
 - Transfer of SMTL (Orissa road under construction) from GPL to NewCo (GDPL)
 - Amalgamation of GIVL (current asset holding company owning rest of BOT road assets) with GPL
 - All Road BoT Assets business to be transferred from GPL to NewCo
 - Proposed NewCo shareholding structure: GPL 26%, Current GPL shareholders 74%
 - NewCo to be listed after all the approvals are in place and the above scheme of arrangement is executed
 - An indicative list of all sanctions and approvals needed for the transaction to go through is appended at the end of this ppt. Effective date of the scheme is proposed to be 1st April, 2016
 - The process is likely to be finalized before FY2017 accounts are closed
- **Board approves sub-division of equity shares**
 - Board approves sub-division of Nominal Value of equity shares of Rs. 10/- per share to Rs. 2/- per share
- **Power Assets –**
 - SembCorp Gayatri Power Limited (SGPL) "(Formerly NCCPPL)" concludes construction of its first 660 MW unit; expects to complete entire project by first quarter of 2017
 - Optimization of power generation asset holding structure: JV partner Sembcorp Utility writes a 5 year call option giving Gayatri (GEVL) an option to go upto 30% stake in the business

Q3 FY17 Highlights

Figs. In crore

- ➔ Revenue growth for the quarter partially impacted by extended monsoon and demonetisation effect in the initial period – payment to workers. However situation has now normalized expect pick up in execution
- ➔ Operating margins remained stable despite significant mobilization expenses at the new sites. But capex related to new work orders – especially concrete related equipment significantly added to depreciation and interest cost

M.D.'s Comments

Commenting on the results, Mr. Sandeep Kumar Reddy, Managing Director, Gayatri Projects Limited said *“We are pleased with the way we have transformed our core EPC business over the past few years. Our order book has not only grown over three fold in the past eighteen months but is now also much more diversified than in the past. Further as a part of our strategic initiatives we have also started bidding and winning orders for construction projects in business areas which we didn’t explore in the past, which has contributed towards success of our EPC business. In addition, we have achieved the transformation without sacrificing on the margins and are confident of maintaining our historical margins.*

In conjunction with building up the order book we are also equally committed towards ramping up our project execution capabilities and are confident of delivering healthy top line growth. Performance for 9M to some extent was impacted by external factors like monsoons, delayed land acquisition and Govt.’s demonetization scheme. However, we believe it is temporary in nature and will not impact our overall goal of maintaining revenue momentum. We are now fully mobilized at several of our new project sites and are seeing significant jump in revenue booking from the current quarter.

Moving on to our power assets, we are approaching the completion of the second and final 660 MW unit of our second power project namely SembCorp Gayatri Power Limited. Completion of the same will result in creation of a 2640 MW power complex, which will help meet power demand of the country.

Moving on to the road assets, we are confident that our efforts towards restructuring the business will help in creating right value for the assets. Post restructuring, the existing GPL shareholders would to own 74% of the entity which would hold 7 of our road assets. We are hopeful that the restructuring process gets completed before 2017.

Going ahead, we are confident that our recent strategic initiatives coupled with Government’s efforts towards improving the country’s infrastructure quality will help us deliver consistent growth going forward.”

Order Book Update

Order Book - Details

- ➔ Continued strong traction in order; backlog of Rs.12,023 Cr currently.
 - This is after we have removed 3 in-operative irrigation orders totaling up to Rs1,778cr awarded by AP / Telangana govt. from the order book during Q2 FY17.
 - Rs. 1,255 crore NHA order for four laning of Angul – Sambalpur section of NH-42 in the state of Odisha under NHDP – IV on EPC mode in JV with Russian Construction Company PTPS
 - Rs. 926 crore order from Bihar State Road Development Corporation Limited (BSRDC) and Ministry of Road Transport & Highways (MORTH) for four laning of Gaya – Hisur – Rajgir – Nalanda – Biharsharif section of NH – 82 in the state of Bihar
- ➔ Revenue visibility remains quite strong on the back of robust order book - expect 30%+ revenue growth over next 3-4 years – with much stronger growth in the near-term
- ➔ Continue to remain focused on bidding for margin accretive projects (cluster-based approach to bidding).

Restructuring & Separate listing of Road Assets

- Transfer of investments in Sai Maatarini Tollways Limited from Gayatri Projects Limited to Gayatri Domicile Private Limited at book value
- Post transfer of investments, merger of Gayatri Infra Ventures Limited with Gayatri Projects Limited
- Post merger of GIVL with GPL, transfer of Infrastructure Road BOT Assets Business from GPL to GDPL.
- GDPL, to be owned 74% directly by current GPL shareholders and to be listed on the bourses.
- Transaction completion expected before FY2017 accounts are finalized, with an effective date of 1st April 2016. Key approvals required are listed in Annexure 1.

Optimization of Power Genco Asset Holding Structure - Sembcorp Call Option

GEVL was initially planning to increase stake in power generation subsidiaries (TPCIL, SGPL, 2640MW) to 30% each by raising capital through mezzanine funding. That plan has been aborted and a call option structure has been negotiated with JV partner Sembcorp Utilities.

- ➔ **The optimization recognises two market realities:**
 - Long-term exceptional asset value - among most advantageously located / managed power gencos
 - Hence the need to maintain stake in a cost effective manner
 - Current tough power trading environment (could persist for 12-24 months)
 - Hence the need to avoid un-necessary mezz debt interest cost
- ➔ **Project capital structure (including 4th, the last, unit which is likely to come on stream in next 3-4 months)**
 - Project Cost: Rs.19,300cr (original estimate Rs. 13,900 cr)
 - Project Equity: Rs.5,600cr (original estimate Rs. 3,500 cr)
 - Gayatri (GEVL) incremental investment for 30% stake - Rs.900cr (today's cost)
- ➔ **SEMBCORP (SCI SP) unit has written a CALL OPTION, exercise allows Gayatri stake to go 30%**
 - Current GEVL stake in 2 power generation OpCos ~13%.
 - Option terms:
 - Life: 5 years
 - Strike price: Rs.900cr, accretes @18%p.a. (with dividends to Gayatri's credit)
 - Multiple partial exercises allowed
- ➔ **We hope to exercise the option over next 2-3 years.**

Sembcorp Gayatri Power nears completion of its second 660-mw Unit

- ➔ Sembcorp Gayatri Power Limited (SGPL) (formerly NCC Power Projects Limited), nears completion of construction of its second and final 660 MW unit
- ➔ Completed First unit of the 660 MW in Q2 FY17
- ➔ Sembcorp Gayatri Power Limited (SGPL) (formerly NCC Power Projects Limited), is a joint venture between its wholly-owned subsidiary Sembcorp Utilities, and Gayatri Energy Ventures, a wholly-owned subsidiary of Gayatri Projects.
- ➔ The Plant, located in Krishnapatnam in Andhra Pradesh's SPSR Nellore District, India, utilizes supercritical technology that allows for enhanced efficiency

Board approves sub-division of shares

Board of Directors of the Company approved Sub-division of Nominal Value of equity shares of Rs. 10/- per share to Rs. 2/- per share

Further, the Board also approved Alteration of Capital Clause in Memorandum of Association of the Company

Portfolio Summary

-  Incorporated in 2008, Gayatri Energy Ventures Ltd is a wholly owned subsidiary of Gayatri Projects
-  Current Portfolio:
 - TPCIL & SGPL "(Formerly NCCPPL)" (13% GEVPL, 87% Sembcorp Utilities)
 - Option agreement signed with JV partner Sembcorp Utilities, would allow Gayatri to increase stake to 30% over the next 5 years.
-  Strong Power Plant Economics:
 - **Exceptional fuel security:** True port-based location ensures among the best logistics for both imported and domestic coal
 - **Global coal price deflation** is making imported coal cheaper than domestic coal on a per GCal, landed at plant basis.
 - **Home market continues to stay power deficit:** shortage of generation capacity and constrained transmission networks
 - **Targeting high proportion of sales through long-term PPAs at remunerative rates:** 1070MW already in place, L2 for 500MW in a large AP tender,
 - **Near term weakness in spot power sales** markets impacting cash flows. Should correct over next 12-24 months.

Outlook

About Us

Annexure: Restructuring of Road Assets – Road Ahead

Outlook

- ➔ Government's efforts towards reviving investment climate by stepping up infrastructure spend is likely to ensure continued addition to our already strong order book. We expect to maintain the new order accretion pace achieved during last financial year.
- ➔ Growth in construction order book should help us sustain a 30%+ topline growth over next 3-4 years. We expect to maintain operating margins (EBITDA) in 14-15% range. Total revenue booking from the large new order book built in last 18 months (Rs.9,500cr) has been only Rs.374cr. The growth should be much stronger near-term as we have already mobilized at most of the new construction sites.
- ➔ Road Assets: Working towards commissioning the last non-operating road in our portfolio during FY17. The Board has approved a comprehensive restructuring of the portfolio which should result in a separate listing and an optimal growth path for the business.
- ➔ Power Assets: With 3 out of 4 units of the TPCIL / SGPL "(Formerly NCCPPL)" power complex commissioned and 4th close to commissioning, focus is on maximizing long term PPAs for sales. Short-term trading conditions are tough and are likely to stay as such for next 12-24 months. Almost 2/3rd capacity is already contracted on long-term basis (1070MW executed PPA, 500MW L2 position in a large bid). Including short term contracts the plant's capacities are almost fully sold out for most of CY2017. We have been able to restructure our ownership of the asset to be better geared for current tough conditions. Our option agreement with Sembcorp allows us to increase stake to 30% over next 5 years.
