# RBI, SEBI and IRDA – Regulatory Focus on Increasing Funding Avenues to HFCs

---

Government focus and mission of 'Housing For All' has prompted all financial regulators to increase flow of funds to housing finance companies

- SEBI has increased limit for mutual funds for investment in the housing finance sector
  - Cap on additional exposure in securities of HFCs rated AA and above increased from 10% to 15% (over and above 25% sectoral limits)
  - **HFCs is now the only sector enjoying limit above 25% sectoral limit applicable for all other sectors**

  - An aggregate of 15% of the investable corpus should be invested in HFC or infrastructure securities, as against the earlier requirement of 5% in HFCs and 10% in infrastructure securities
- Affordable housing has been granted infrastructure status in the 2017 budget
  - **ECBs up to \$ 750 Mn per annum** can be raised under automatic route

- Up to a home loan of ₹ 3,600,000 (property value of ₹ 5,140,000) the effective interest rate on the loan will be less than the rental yield, which averages 3.2% for the top-12 Indian cities

- Falling interest rates will spur house sales and home loan off-take as effective home loan rates drop below rental yields
  - With savings from tax deductions against home loan repayment, the effective rate for a ₹ 2.4 Mn home loan (IBHFL's average ticket size) works out to 0.42% for a 8.50% home loan
  - For the first time, EMI has dropped below rents across cities making home ownership more lucrative and cheaper than renting property
