**Incidents at Aluminum and Power Operations**

**Jharsuguda-I smelter update**

The 500kt plant-1 smelter at Jharsuguda had an unfortunate pot outage incident earlier this week. 228 pots out of the the total 608 pots were damaged and taken out of production. The impacted pots will require to be repaired over the next few months, and put back into production. Timelines will be announced in due course.

**Talwandi Sabo Power Plant, Wholly Owned Subsidiary of the Company**

A fire took place at the coal handling plant at the 1980 MW TSPL Power Plant in Punjab state earlier this week. This has resulted in a shut down of all three units of the power plant for around 60 days. The plant had achieved full ramp up during FY 2017, and had record availability of 85% in Q4 FY 2017.

There were no injuries in either incident. The operational teams at the respective locations are working towards rectification, and safe and expeditious restart of the affected facilities.

A handwritten signature in blue ink, appearing to read "Shankar", is located in the lower right quadrant of the page. The signature is written in a cursive style and is underlined.
