## **MLSL unveils “Nguru Quick School Parent App” – One-stop solution for parents to monitor their child’s performance in school**

**New Delhi, May 19<sup>th</sup>, 2017:** MindChampion Learning Systems Limited (MLSL), NIIT's wholly owned subsidiary for its K-12 school learning initiative, unveiled **Nguru Quick School Parent Application** – a unique solution designed for parents to track their child’s performance and growth in the school. The mobile app has been carefully designed for parents to provide all the information about their wards ranging from tracking daily attendance, making reservations in library to checking the vaccination given to the student at school.

Nguru Quick School is an ERP software based app wherein parents can login using the login id and password provided by school for the Quick School system. The app is a great time saver and source of important information that is readily available at the touch of a smartphone button.

Speaking on the occasion **Mr. Gavin Dabreo, CEO, MindChampion Learning Systems Limited (MLSL)**, said, *“This app is an example of how technology can be used for seamless communication between parents and the school and thus make parents more involved in the child’s educational process. The Quick School app has been especially designed to enable parents to remotely monitor the child’s movements and developments in the school.”*

For parents, Quick School is a unique dashboard with features ranging from the child’s basic information like photograph, name, class, section etc. to the assignments given to them by the teachers. The Parents can view the circulars given by the school/teachers to the child which makes the app more promising. The app also has records of the fees paid for the child in the past which makes the system more transparent.

To avail this, a school needs to subscribe to the Quick School product. This mobile app is then offered to the parents complimentary. The Android and iOS version can be downloaded from the [App Store](#) and [Google Play](#).
