CTE / **FY17 INVESTOR PRESENTATION**

May 2017

"We always overestimate the change that will occur in the next two years and underestimate the change that will occur in the next ten. Don't let yourself be lulled into inaction."

Bill Gates from his book 'The Road Ahead'.

A group of people are seated around a wooden table in a meeting or collaborative workspace. They are focused on their work, with some looking at laptops and others at notebooks. The scene is dimly lit, creating a professional and concentrated atmosphere. The text 'Focus. Growth' is overlaid in the center in a clean, white, sans-serif font.

Focus. Growth

Our model is simple, we are focused on the convergence of **Big Data and Cloud** powered by AI and Machine Learning.

Market Opportunity

- 1** **BIG DATA AND THE CLOUD ARE GAME CHANGERS** transforming how businesses are defined, designed and delivered and enterprise value is captured. Every human life and business in this world will be transformed with this disruption and millions of transformative businesses will be created.
- 2** **THE CONVERGENCE OF BIG DATA AND CLOUD POWERED BY AI AND MACHINE LEARNING** will define industries both new ones and old, transforming data into a valuable knowledge asset and a catalyst for disruption.
- 3** **THE TREND IS ACCELERATING** as it is estimated that 2.5 quintillion bytes of data is created daily with enterprise-generated data expected to exceed 240 exabytes daily by 2020. IBM predicts that analytics alone will be a USD 315 billion market by next year, roughly triple the size of India's IT exports. In a KPMG survey of C-suite executives, 99% said that analysis of big data was important to their strategy.
- 4** **A GLOBAL RESOURCE SHORTAGE FUELS OPPORTUNITY** with an estimated shortage of 290,000 data scientists in the U.S. by 2018 predicted by a McKinsey study.
- 5** **COMPANIES SEEK END-TO-END PARTNERS** which CTE through its services, partnerships and experienced team is uniquely positioned to deliver.
