

NATH SEEDS®

Nath Bio-Genes (I) Ltd.

(CIN L01110MH1993PLC072842)

INTIMATION

Department of Agriculture, Government of Maharashtra, had conducted a sample survey of Cotton Seed supplied in the market in Kharif 2016. Based on the test report of these samples, the GOM has now passed an order in May 2017, suspending the sale of certain cotton products of 17 Seed Companies, in which Bt Gene was found beyond stipulated limit in the Non Bt Cotton Seed. Non Bt Cotton is supplied along with Bt Cotton as a Refuge at ZERO sales value.

One of our products, Non Bt Cotton "Surbhi" is also in the suspension list. However, we have no such product supplied to the market in Kharif 2017 for Sales in FY 2017-18. The revenue impact of this suspension would be NIL

As a responsible Corporate, we abide by the applicable laws and statutes and have all our necessary Seed Licenses in place.

For Nath Bio-Genes (India) Limited
