IMPORTANT NOTES:

1. The Register of Members and the Share Transfer books of the Company will remain closed from 24th July, 2017 to 31st July, 2017 (both days inclusive).
2. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013, which sets out details relating to Special Business at the meeting, is annexed hereto.
3. **A MEMBER ENTITLED TO ATTEND AND VOTE AT THE AGM IS ENTITLED TO APPOINT A PROXY TO ATTEND AND VOTE IN THE MEETING INSTEAD OF HIMSELF / HERSELF, AND THE PROXY NEED NOT BE A MEMBER OF THE COMPANY. A PERSON CAN ACT AS A PROXY ON BEHALF OF NOT EXCEEDING 50 MEMBERS AND HOLDING IN AGGREGATE NOT MORE THAN 10% OF THE TOTAL SHARE CAPITAL OF THE COMPANY.**

The instrument of Proxy in order to be effective, should be deposited at the Registered Office of the Company, duly completed and signed, not less than 48 hours before the commencement of the meeting. A Proxy form is sent herewith. Proxies submitted on behalf of the companies, societies etc., must be supported by an appropriate resolution/authority, as applicable.

4. Members holding shares in electronic form are hereby informed that bank particulars registered against their respective depository accounts will

be used by the Company for payment of dividend. The Company or its Registrars cannot act on any request received directly from the Members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the Depository Participant of the Members. Members holding shares in physical form and desirous of either registering bank particulars or changing bank particulars already registered against their respective folios for payment of dividend are requested to write to the Company.

5. The amount of dividend remaining unpaid or unclaimed for a period of seven years from the due date is required to be transferred to the Investor Education and Protection Fund (IEPF), constituted by the Central Government. The Company had, accordingly, transferred Rs. 21,24,696 (Rupees Twenty One Lac Twenty Four Thousand Six Hundred Ninety Six only) being the unpaid and unclaimed dividend amount pertaining to Dividend, 2008-09 to the Investor Education and Protection Fund of the Central Government.
6. To prevent fraudulent transactions, members are advised to exercise due diligence and notify the Company of any change in address or demise of any member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified.
7. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company.
8. Electronic copy of the Annual Report of the 28th Annual General Meeting of the Company inter alia indicating the process and manner of electronic voting ('e-voting') along with Attendance Slip, Proxy Form and Route Map is being sent to all the members whose email IDs are registered with the Company/Depository Participants(s) for communication purposes unless any member has requested for a hard copy of the same. For members who have not registered their email address, physical copies of the Notice of the 28th Annual General Meeting of the Company inter

alia indicating the process and manner of e-voting along with Attendance Slip, Proxy Form and Route Map is being sent in the permitted mode.

9. The Company has paid the Annual Listing Fees for the year 2017-2018 to the following Stock Exchanges, viz. BSE Limited and National Stock Exchange of India Limited on which the Company's Securities are presently listed.
10. The Ministry of Corporate Affairs ('MCA') had notified the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 effective from 7th September, 2016 ('IEPF Rules 2016'). Amongst other things, the Rules provides for the manner of transfer of the unpaid and unclaimed dividends to the IEPF and the manner of transfer of shares in case any dividend has not been encashed by the shareholders on such shares during the last seven years to the designated Suspense Account as prescribed by the IEPF Authority. As per the requirement of Rule 6 of the IEPF Rules 2016, the Company had sent information to all the shareholders who had not claimed/encashed dividends in the last seven years intimating the requirements of the IEPF Rules, 2016 with regard to transfer of shares and that in the event those shareholders do not claim any unclaimed/unpaid dividends for the past seven years, the Company will be required to transfer the respective shares to the IEPF Suspense Account by the due date prescribed as per the IEPF Rules, 2016 or such other extended date as may be notified. The Company also simultaneously published notice in the leading newspaper in English and regional language having wide circulation on 9th December, 2016 informing for Transfer of such Shares to IEPF Account. As and when the same will be notified by the Authority, the shares will be transferred / credited in the Demat Account of Authority.
11. In accordance with Section 139 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, M/s. Vijay Sehgal & Company, Chartered Accountants, Statutory Auditors of the Company shall retire at the conclusion of the Annual General Meeting of the Company. Pursuant to the provisions of the Companies Act, 2013 and the Companies (Audit and Auditors) Rules, 2014, the Board of Directors has, on recommendation of the Audit Committee, recommended for the appointment of M/s. KAAP & Associates, Chartered Accountants

(Firm Registration No. 019416N) as the Statutory Auditors at the Annual General Meeting for a period of five years i.e. to hold office from the conclusion of this Annual General Meeting till the conclusion of the 33rd Annual General Meeting of the Company to be held in the year 2022, subject to ratification of their appointment by the Members at every AGM, at such remuneration as may be mutually agreed between the Board of Directors of the Company and the Statutory Auditors. Consent and certificate u/s 139 of the Companies Act, 2013 have been obtained from M/s KAAP & Associates, Chartered Accountants, to the effect that their appointment, if made, shall be in accordance with the applicable provisions of the Act and the Rules issued thereunder. As required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, M/s. EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 5

Shri Arvind Mahajan was appointed as an Additional Director by the Board with effect from 3rd August, 2016 pursuant to Section 161 of the Companies Act, 2013. Pursuant to the provisions of Section 161 of the Companies Act, 2013, Shri Mahajan will hold office up to the date of the ensuing AGM.

The Company has received notice in writing under the provisions of Section 160 of the Companies Act, 2013, from a member along with requisite deposit proposing the candidature of Shri Mahajan for the office of Independent Director, to be appointed as such under the provisions of Section 149 of the Companies Act, 2013. The Company has received from Shri Mahajan (i) consent in writing to act as director in Form DIR-2 pursuant to Rule 8 of Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013, and (iii) a declaration to the effect that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the Companies Act, 2013.

Shri Mahajan is a retired Director General, Corps of Electronics and Mechanical Engineers in Indian Army. The matter regarding appointment of Shri Mahajan as an Additional Director was placed before the Nomination and Remuneration Committee and it has recommended his appointment.

The resolution seeks the approval of members for the appointment of Shri Mahajan as an Independent Director of the Company for a term up to 2nd August, 2018 pursuant to Section 149 and other applicable

provisions of the Companies Act, 2013 and the Rules made thereunder. He is not liable to retire by rotation.

In the opinion of the Board of Directors, Shri Mahajan, the Independent Director proposed to be appointed, fulfils the conditions specified in the Act and the Rules made thereunder and he is independent of the Management.

No director, key managerial personnel or their relatives, except Shri Mahajan, to whom the resolution relates, is interested or concerned in the resolution.

The Board recommends the resolution set forth in Item no. 5 for the approval of the members.

Item No. 6

Shri Pradeep Narendranath Poddar was appointed as an Additional Director by the Board with effect from 30th May, 2017 pursuant to Section 161 of the Companies Act, 2013. Pursuant to the provisions of Section 161 of the Companies Act, 2013, Shri Poddar will hold office up to the date of the ensuing AGM.

The Company has received notice in writing under the provisions of Section 160 of the Companies Act, 2013, from a member along with requisite deposit proposing the candidature of Shri Poddar for the office of Independent Director, to be appointed as such under the provisions of Section 149 of the Companies Act, 2013. MANAGEMENT DISCUSSION AND ANALYSIS

FORWARD-LOOKING STATEMENTS

Forward-looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized. The Company's actual results, performance or achievements could thus differ materially from those projected in any such forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

1. Global Economy

The year 2016 witnessed headwinds of change on the global turf. With BREXIT Vote, US Presidential Elections, Demonetization in India among other events in the backdrop, the International Monetary Fund in its spring version of World Economic Outlook pegged the global growth at 3.1 percent for the year 2016. While stronger than expected economic activity was seen in the advanced economies during the second half of 2016, near term growth prospects for developing economies have taken a drubbing with downside revision for a number of large yet emerging economies like India, Brazil and Mexico. Throughout the second half of 2016, oil prices gradually rose reflecting an agreement among major oil producing economies to trim supply. The U.S. dollar has appreciated in real effective terms by over 6 percent since August 2016. The currencies of advanced commodity exporters have also strengthened, reflecting the firming of commodity prices, whereas the Euro and especially the Japanese Yen have weakened. Several emerging market currencies depreciated substantially in recent months—most notably, Egyptian Pound, the Turkish lira and the Mexican peso—while the currencies of several commodity exporters—most notably Russia appreciated.

Economic activity in both advanced and emerging economies is forecast to accelerate in 2017-18 with a projected global growth of 3.4% in 2017 and 3.6% in 2018. The primary factor underlying the strengthening global outlook over 2017-18 is, however, the projected pickup in emerging economies' growth which is a silver lining. (Source: International Monetary Fund).

2. Indian Economy

According to the Economic Survey 2016-17 the Real GDP growth rate of India for FY 2016-17 was pegged at 6.5%. The International Monetary Fund's spring narrative attributes this to the temporary negative consumption shock induced by cash shortages and payment disruptions associated with the currency note withdrawal and exchange initiative.

The Economic Survey 2016-17 projects the GDP growth in the range of 6.75-7.50 percent for FY 2017-18. The Survey further maintains that over the medium-run, the implementation of GST; follow-up to demonetization and enacting other structural reforms should take the economy towards its potential real GDP growth of 8 percent to 10 percent. (Source: Economic Survey 2016-17).

3. Industry Structure & Developments

Given its myriad benefits in terms of superior aesthetics, improved functionalities, light-weighting, sustainability advantages and optimized barrier properties, Flexible packaging has been one of the fastest growing sectors in the packaging industry over the past 10 years. According to Smithers Pira, Globally the industry is expected to grow at an annual average rate of 3.4% during 2015-2020 to reach USD 248 Billion. Asia is expected to lead the demand with its market share progressing from 42% in 2015 to nearly 45% by 2020. Food sector within the FMCG is the biggest consumer of flexible packaging with a gargantuan share of over 70%.

Flexible packaging products consume far less raw material than rigid packaging options and also occupy lesser space on the expensive retail shelves. Flexible packaging also offers a number of sustainability advantages including low raw material consumption owing to light weighting thus leaving lesser carbon footprint. Flexible packaging paves way for reduced energy usage at all the three critical stages throughout its life cycle i.e. manufacturing, transportation and disposal besides generating relatively less waste as compared to conventional packaging formats. Flexible packaging offers all properties needed for primary packaging such as lightweight, high performance, high barrier, low contamination,

keeping the product completely sealed off from the environment that are required for an enhanced consumer experience.

Flexible packaging is the most economical method to package, preserve and distribute food, beverages, consumables, pharmaceuticals and other products that need extended shelf life. It can be designed with barrier properties tailored to fit the products being packaged keeping in mind the end-use, whereas other packaging formats generally provide a one-size-fits-all approach. Flexible packaging can now be made in a wide variety of innovative shapes, sizes and appearances, and can include components such as handles and opening and reclosing features such as zips and spouts to name a few. Changing consumer lifestyle, growth of DINK (Double Income No Kids) population, propensity to spend more on the back of increasing disposable income has enhanced dependence on processed, pre-cooked and packed foods, which has augured well for the overall growth of the flexible packaging industry. The industry has witnessed introduction of new and efficient films used in manufacturing flexible packaging materials. Smaller unit packs/sachets dispensing measured and controlled portions are a rage in FMCG and pharmaceutical sector. Modified Atmosphere Packaging (MAP), vacuum skin packaging are some of the current trend setting packaging solutions that have been developed to meet ever-evolving demands of the end-users. Spout valves are being provided in the flexible packs to enable nitrogen flushing of packed food items for enhancing shelf life. IoT (internet of things) is being integrated to enhance the overall functionality and intelligence quotient of flexible packaging.

Some other developments in the flexible packaging industry of late have been multilayer co-extruded polymeric structures that provide more flexibility in terms of desired functionality, thickness, and cost-effectiveness without over-engineering/over dressing as it is called. Growing adoption of track-and-trace technologies, such as RFID and barcodes in premium product segments including wines and spirits are gaining prominence by the days. Special Inks are being used in process of converting that can be deciphered and detected only in UV ambience. Flexible packaging technology has advanced dramatically over the past 10 years and is now a consumer household mainstay, steadily moving into new markets

across applications. Flexible Packaging materials have progressed from simple monolayer bags and wrappings to coextruded or laminated engineered multilayer and coated constructions, comprising multiple materials such as polymers, paper, metal foils, coatings, sealant layers and other additives. These developments provide properties such as high barrier to atmospheric gases, extended shelf life and convenience all of which are increasingly demanded in packaging for food, consumables and pharmaceuticals. The properties of flexible packaging can be tailored and customized to provide specific combinations required by different products.

The global flexible packaging market is segmented based on end user, packaging types, printing processes, material, and geography. By end user type, the global flexible packaging market is segmented into consumer products, industrial, medical & pharmaceuticals, retail food, retail non-food, institutional food, institutional non-food, and others. By packaging type, the global flexible packaging market is broadly segmented into stand-up pouches, flat pouches, converted roll-stock, gusseted bags, wicket bags, laminated flexi-tubes, aseptic cartons/ packs, big bags among others. By material type, the global flexible packaging market is broadly categorized into Polypropylene (PP), Polyethylene (PE), Polyethylene Terephthalate (PET), Poly Vinyl Chloride (PVC), Ethylene Vinyl Alcohol (EVOH), Polyamide (PA), and others (including but not restricted to paper, aluminum, and cellulosic).

By geography, the global flexible packaging market is largely segmented into North America, Europe, Asia Pacific, the Middle East and Africa, and Latin America. Currently, North America dominates the global flexible packaging market in terms of revenue share. However, Asia Pacific is expected to expand at the fastest growth rate in the global flexible packaging market owing to the rising disposable income, increasing demand, and changing end-user trends which are expected to have a positive impact on the global flexible packaging industry. Currently, rising population and the significant demand for beverages, packaged foods, pharmaceuticals, and personal care products are driving flexible packaging growth in countries such as India and China, whereas the North American and European flexible packaging markets are expected to witness tepid growth in the coming years, due to high saturation.

4. Business Review

(i) Films Business

The main products of this business are OPP Films (including CPP Films), Polyester (BOPET) Films, Metalized & Specialty films and Polyester Chips of different grades etc.

The Company's OPP films comprising BOPP (Bi-axially Oriented Polypropylene) and CPP (Cast Polypropylene) films are highly cost effective, functionally efficient and therefore have rapidly penetrated into high barrier sensitive packaging segment across the world. These films are primarily being used for applications like packaging & conversion; industrial coatings; printing & lamination; encapsulation; overwraps (for CDs, cigarettes, cartons), confectionery packaging; anti-fog (for food products), textile bags; biscuit/sandwich overwrap among several others. BOPP Films are known for low moisture transmission rates thus finding extensive use in manufacturing packaging material for snack food. High tensile strength, low elongation and thermal shrinkage further render it suitable for processing on high-speed printing, coating/laminating and other converting machines. BOPP Film is known to have a combination of excellent slip and optical properties. The high gloss and excellent clarity provides good aesthetic appeal whereas controlled slip properties make it suitable to perform well on various form fill seal (FFS), overwrapping and converting machines in order to improve or maintain high productivity.

The Company manufactures OPP film at its Indian plant (Noida) which largely caters to the captive & domestic market while the Egypt plant caters to the international market. The plant capacity for OPP Film at Noida is 34,000 TPA and that at the plant in Egypt is 47,000 TPA.

Even The CPP film is extremely dynamic and versatile with high gloss, transparency, good heat sealability, good twisting property, superior tear and puncture resistance. These factors pave way for its application in food wraps, packing bakery products, anti-wraps, anti-fog packaging, garment bags, retort packaging, deep freeze applications, etc.

BOPET (Bi-axially Oriented Polyethylene Terephthalate) Film is a polyester film using

high quality resins at state-of-the-art film manufacturing plants of the Company at India; Dubai; Egypt; Poland; Mexico and United States of America with a cumulative production capacity in excess of 2,56,000 TPA. Indian plants meet captive & Indian market requirements whereas overseas plants serve overseas markets across the globe. BOPET Films exhibit superior mechanical properties; improved resistance to chemicals; good barrier to oxygen; excellent receptivity to surface treatment & coatings and high resistance to abrasion.

BOPET Films have excellent dielectric properties good flatness and coefficient of friction (COF), tear resistance and puncture resistance, excellent dimensional stability over a wide range of temperature, good resistance to common solvents, moistures, oil and grease and poses excellent barrier against a wide range of atmospheric gases among other benefits. This variant therefore finds extensive use in metallizing; thermal lamination; lidding functions; holographic applications; pressure sensitive tapes; cable wrapping among several others.

The Company also manufactures high barrier metallized films that are considered as ultimate solution for packaging a wide array of products requiring extended shelf life apart from a host of applications in the textile and capacitor industries. The Company has 14 state-of-the-art metallizers with plasma treatment facilities for ensuring better metal deposition. Metallized films are manufactured at all film manufacturing plants of the Company, i.e. India, Dubai, Poland, Egypt, Mexico and USA with cumulative production capacity of over 93,600 TPA.

The Company also has the facility to produce polyester chips of film, yarn and bottle grades. The Company has made use of its batch processing manufacturing facilities set up in India by conveniently switching over to produce different grades of chips based on the demand and orders at hand. The Company manufactures polyester chips suitable for packaging film applications only. Presently the Chip Unit also caters to the requirements towards Specialty Chips of Company's overseas Subsidiaries.

(ii) Flexible Packaging Business

The main products of this business are laminates made of various combinations of Polyester, BOPP, poly, metalized & holographic films and others in roll form and in various preformed pouches & bags of several sizes and profiles, laminated flexi-tubes. Also aligned with the core business of Flexible Packaging are allied activities involving manufacturing of packaging and converting machines; rotogravure cylinders, flexo-polymer plates, elastomers & sleeves; inks & adhesives and holographic materials.

The Company has the technical ability, and innovative skills to engineer flexible packaging solutions with optimized barrier properties, superior aesthetics, enhanced functionalities; high eco-friendliness and infallible brand protection features. The Company is one of the global leaders producing bespoke world class flexible packaging solutions. The guiding vectors of the Company's Business Strategy are:

- Innovation to create value added differentiation;
- Proximity to Customers;
- Speed to Market Reach for reaping the first mover advantage;
- Ability to offer end-to-end flexible packaging solutions across the spectrum;
- Ability to execute any quanta of order and ensuring Just In Time (JIT) deliveries anywhere across the globe;

The Company offers packaging solutions for a variety of products such as snack foods, candy and confectionery, sugar, rice & other cereals, beverages, tea & coffee, desert mixes, noodles, wheat flour, soaps and detergents, shampoos & conditioners, vegetable oil, spices, marinades & pastes, cheese & dairy products, frozen food, sea food, meat, anti-fog, pet food, pharmaceuticals, contraceptives, garden fertilizers and plant nutrients, motor oil and lubricants, automotive and engineering components among several others. **Thus the company currently offers flexible packaging solutions for solids, semi-solids, powders, granular materials,**

viscous fluids, pastes and gels. With the aseptic packaging material manufacturing plant for offering packaging solutions for non-aerated liquid products going operational in 2017 at Sanand, Gujarat, the Company will complete its entire bouquet of product offering.

Thus to summarize, The Company offers end to end flexible packaging solutions for:

- Solid Products/ Granular/ Powder (10 grams to 40 kg)
- Semi Liquid Products (10 ml to 200 ml)
- From mid-2017 the Company will be able to offer flexible packaging solutions for packing liquid products (90 ml to 1000 ml)

Some updates from Films and Flexible Packaging Businesses

(a) *Uflex engineered thinnest PET ALOx speciality film*

The Company launched 9.5 micron speciality ALOx polyester film, FLEXALOXPROTECT™ F-PGX. Engineered by Uflex's fully owned subsidiary company Flex Americas S.A. de C.V at the Mexico plant, this happens to be the thinnest PET ALOx film available globally.

(b) *Uflex launched Super Barrier Polyester Film*

Uflex launched Super Barrier Polyester Film, FLEXPET™ F-PGB-12. This 12 micron Bi-axially Oriented Polyethylene Terephthalate (BOPET) film owing to a specially modified surface treatment (on one side) offers very high barrier to oxygen.

(c) *Uflex engineered low seal initiation temperature matte film for manufacturing big bags*

The Low SIT High Seal Strength Matte Bi-axially Orientated Polypropylene Film engineered by the Film Business of Uflex offers a number of positives like High Haze; Low Seal Initiation Temperature (SIT); Low Gloss on matte side; Excellent Matte Dispersion; Good Contact Transparency and Excellent Homogeneity. Immaculately engineered Big Bags by the Packaging Business of Uflex

are made by combining high COF, Low SIT, High Seal Strength Matte Bi-axially Oriented Polypropylene Film and High Performance Woven Polypropylene (WPP) fabric.

(d) Uflex launched whole new Three Dimensional Packaging for rice

In this specially engineered package the front, back and bottom laminates comprise a three layered Matte BOPP/MET PET/Poly structure with premium matte finish and the side gussets are made of PET/PET/Transparent Poly. The side gusset comes fitted with a handle further spelling immense ease of carrying for the end-user. The transparent side gussets allow the consumers to see the product packed inside.

(e) Uflex launched Profile Pouch for Liquids with Sonically Sealed Spout

The Company launched 'Profile Pouch for Liquids with Sonically Sealed Spout' in India and offered it to Paras Dairy for packing its ghee (clarified butter). The laminate of the pouch engineered at Uflex's packaging plant at Noida is a three ply structure comprising Isotropic PET/ Isotropic PET/ Co-ex Nylon Polyethylene (PE). The major differentiator in this pack lies in its dispensing mechanism. Conventionally, spouts are heat seal welded to the pouches often resulting in leakage and polymer degeneration, but in this case at Uflex, sound waves at a very high frequency are generated and passed between the spout surface and the laminate. These high frequency waves vibrate the molecules of both PE layer of the laminate and that of the spout surface enabling a strong leak-proof seal.

(f) Uflex unveiled ASEPTO™, its much awaited Aseptic Liquid Packaging Material Brand

Uflex unveiled 'ASEPTO™' its Aseptic Liquid Packaging Material Brand. Uflex's Aseptic Liquid Packaging manufacturing plant that will be commercially operational in 2017 perfectly echoes Government of India's 'Make In India' ethos. ASEPTO™ is derived from the word aseptic which means sterile. Aseptic packaging ensures that food remains free from bacteria and other harmful microorganisms for a period of at least 8 months under room temperature.

(g) Uflex launched the game changer in pharma packaging

Films Business of Uflex undertook extensive R&D activities for almost two years to come up with a special polyester film that obviates the problems/hazards posed by BOPA (BON) and PVC substrates that have been conventionally used in cold formed Alu-Alu laminates. The special polyester film has replaced the top and bottom substrates of the conventional cold -formed Alu – Alu laminate to a whole new structure comprising 36 micron special polyester/ 50 micron soft aluminium foil/ 36 micron special polyester.

(h) Major breakthrough for Uflex's Flexfresh™ liner bags in Europe

A prominent European Retail Chain conducted a *litmus trial* with Flexfresh™ liner bags by shipping blueberries from South America to Europe. This journey usually takes more than 5 weeks by sea. The results were absolutely stellar! While the loose blueberries resulted in an average weight loss of 19.96%, those packed in Flexfresh™ shed merely 0.76% weight after a period of 7 weeks, thus registering a phenomenal 96% reduction in weight loss upon arrival.

(i) Uflex transformed Tortilla Chips' Packaging for America's Healthiest Grocery Store

The engineers at Uflex Packaging Business with a clear brief from an American client designed a three layered; 12.5 micron coated Polyester / 18 micron BOPP (both sides treated) / 35 micron Polyethylene packaging structure as a 3D flat bottom pouch. Polyester provides excellent barrier from oxygen and also exhibits good thermal resistance owing to its melting temperature that is as high as 150-160 degrees Centigrade. BOPP acts as a strong barrier to moisture. Polyethylene (PE) serves as a sealant layer besides imparting strength and sturdiness to the pouch. To impart a paper like organic look, special registered matte coating was applied on the glossy polyester film.

(j) Uflex set up a Fully Automatic Robotic Laser Engraving Line for manufacturing rotogravure cylinders

The Company shook hands with Ms. Think Lab, Japan and set up a Fully Automatic Robotic

Laser Engraving Line for manufacturing rotogravure cylinders at the Noida facility. The robotic laser engraving line has reduced the cumbersome process of manufacturing rotogravure printing cylinders to a single operator job. While over 200 cylinders are manufactured per day using the conventional process at Uflex, through the robotic laser engraving line spread in approximately 1/10th of the entire cylinder manufacturing shop floor area at Noida, a single operator can produce additional 60 cylinders per day.

(k) Uflex extends alliance with WaveFront Technology for manufacturing Fresnel Lens Packaging Films in Europe

In 2016 Uflex Limited and WaveFront Technology Inc. announced an extension of their existing alliance in India to bring manufacturing of Fresnel lens packaging films to Europe. The set up operates within Flex Films Europa Sp. Z O.O's (subsidiary company of Uflex) facility in Wrzesnia, Poland with WaveFront Technology Europe leading the Sales & Marketing activities. The concept of Design-Develop-Deliver the Fresnel Lens Packaging films in Europe derives its strength by working with Flex Films in Poland and by utilizing the holographic skills and capabilities of Uflex.

(l) Uflex shakes hands with Italy's Comiflex to manufacture C.I. Flexo Printing Machines

At DRUPA 2016, Uflex shook hands with Italian firm Comiflex to manufacture C.I. Flexo Printing Machines under a Technology Transfer Agreement with the latter at Uflex's manufacturing plant in Noida (India). While Uflex is commended for its engineering/manufacturing capabilities, Comiflex SRL is a renowned entity in the field of designing and producing high quality C.I. Flexo Machines. This alliance is therefore being seen as the marriage between Technology of Comiflex and Manufacturing Prowess of Uflex and is progressing very well. All technical designs and drawings from Comiflex have been transferred to the design department of Uflex and the team is now assembling the first 1.3 meter web, 8 color, central drum CI Flexo Printing Machine in Noida that is being designed to operate at a speed of 400 meters

per minute. The machine is expected to be ready by mid-2017.

(m) Uflex launched ESL Aseptic Flexi-Pouch Machine for packaging milk

In September 2016 Uflex launched ESL Aseptic Flexi-Pouch Machine for packaging milk in a pouch made from five to seven layered extruded/blown polyethylene film with strong barrier properties including a black layer for U.V. protection. This solution extends the shelf life of milk up to 90 days. Uflex is the only company in India to manufacture this kind of sophisticated machines. As a fully integrated packaging solution provider, Uflex offers the especially extruded/blown film too.

5. Financial and Operational Performance – Overview

The summarized financial results are given hereunder:

Summary of results:

(Rs. in Crores)				
	2016-17		2015-16	
	Consolidated	Stand-alone	Consolidated	Stand-alone
Total Income	6529.36	3904.59	6404.11	3839.18
Profit before Finance Cost, Depreciation & Tax	898.87	510.41	843.17	510.84
Profit before Tax	394.51	203.95	381.79	236.02
Profit for the year	348.46	193.55	313.84	201.66

6. Expansion Project

The major expansion project of the aseptic liquid packaging material manufacturing plant at Sanand, Gujarat is under advanced stage of commissioning and will be commercially operation by mid-2017. This plant is coming up on 21 acres of the 72 acre land parcel that Uflex bought at Sanand, Gujarat. Remaining land may cater to any future expansion of Uflex's existing business as well as for aseptic packaging manufacturing as the need be. Upholding the Company's commitment

towards environmental sustainability, the aseptic liquid packaging material manufacturing facility has been designed to be a zero discharge plant. Solar panels and Passive Architecture-Envelope Insulation have been used to preserve natural light besides conserving power energy.

The total investment envisaged towards the Aseptic Packaging plant is INR 580 crore (approx. USD 85 million) and once operational, it will employ around 250 people and will produce 7 billion packs per annum.

Presently the Indian Aseptic Liquid Packaging Market is growing @17-18% per annum and the market is expected to double up in the next five years to approximately 20 billion packs per annum. Drawing parallels, China boasts of a tremendous growth story which has already reached approximately 80 billion packs. In India with similar population the growth potential is humungous. Aseptic Packaging Manufacturing is the BIG THING for taking Uflex to the NEXT LEVEL of Business Excellence.

In addition to the above, the Company also has plans to invest towards modernization of its existing manufacturing systems and processes, R&D & deployment of newer technologies to provide yet better flexible packaging solutions.

7. Opportunities; Key Trends & Threats

Opportunities

Flexible packaging has been the prime-mover of the packaging industry. Owing to developments across consumer and industrial markets that use polymeric films, improvements in manufacturing practices, and continued technological innovations, the packaging market has been able to continually grow and evolve. As a result of the various features that come along with flexible packaging right from the ease of handling, storage, to being cost efficient, flexible packaging has carved a strong position for itself on the global turf.

Opportunities for the global flexible packaging market are riding on the back of rising disposable incomes. Stand-up and see through pouches with re-closable options are spelling out tremendous ease and convenience for deferred use. Stick packages and single serve packs/unit packs are much in demand ensuring controlled portion administration particularly in the pharmaceutical

and concentrate segments. Optimized barrier properties, metallized laminates and co-extruded polymeric structures are further expected to add immense value to end users and therefore to the brand owners. There is a growing trend of multinational brands sourcing globally thereby driving M&A activities among converters. Converters in their individual capacities are also looking at rapid expansion to reap in the benefits of the ever swelling global demand for flexible packaging. Opportunities are expanding manifold for flexible packaging as it has been proved beyond reasonable doubt that this type of packaging requires much less energy during the entire life-cycle i.e. manufacturing, transportation and disposal than its rigid counterpart thereby leaving lesser carbon footprint.

One of the main factors driving the growth of flexible packaging market is the rise in its demand and wide acceptance of this type of packaging across segments such as food and beverages, industrial goods and Fast Moving Consumer Goods (FMCG). Enhanced functionality and improved aesthetics have made flexible packaging perfect for branding and display of goods and products at the point of sale (POS), in turn driving sectoral growth. Backed by investments in technology and equipment, the flexible packaging industry has the potential to enjoy a high growth rate close to 20 percent per annum in the coming years.

Key Trends for the flexible packaging industry in FY 2017-18 are:

Sustainability will be the key: There is an ever increasing clamor for down gauged packaging. Light weighting and reduction at source therefore will be important governing points for packaging companies. Moreover, the pull now coming straight from the end users assuming greater responsiveness towards the environment, packaging will irrevocably echo these sentiments in their designs and processes. Yet more emphasis will be paid by the buyers towards recycling and reprocessing of post-consumer propelling the packaging suppliers to contribute significantly towards Circular Economy;

Value added brand protection features: With counterfeiting plaguing the brands and eroding their hard earned equity, there will be an invigorated attempt in FY 2017-18 to take this menace head-on. Looking at the long term positive effect that anti-counterfeiting measures

have on brand image, more and more brands will chose for impregnable brand protection solutions;

Packaging shapes and structures congruent to brand image: Brands are well personified assets and enjoy an image that the marketers are very conscious and sensitive about. It is hoped that several consumer packaged goods companies world over will opt to give their packaging designs a fresher look in line with the attributes that their brand stands tall for. One must not forget that *'Good packaging protects your product while Great packaging protects your brand'*.

Coming to terms with online shopping: FY 2017-18 will be throbbing for e-commerce and online shopping particularly in the FMCG space. Custodians are likely to leave no stone unturned for making their brands look as appealing and striking on click and mortar as they do in the case of a brick and mortar set up. Packaging will be revved up for rendering an unmatched online experience on e-tailing front. There will be more personalization and simplification of messages for the end users. E-commerce being a growing market, there will be a rise in protective packaging as the trade has made inroads to the smallest of towns apart from hitting the metros across the country.

Functionality zoom: In FY 2017-18 brands will pro-actively work with their packaging suppliers to increase functionality of the packs that are seen as a clear extension to the overall product experience offered to the consumers/ end-users. More emphasis will be laid than ever on re-sealability; re-closability; ease of opening; ease of carrying and disposing etc.

Pushing up the product to package ratio: Efforts will be invigorated to ensure that more product is packed inside the pre-defined enclosure. The size and shape of packaging will be continually pruned and optimized for making economic sense out of the expensive retail shelves across the globe. Thus boosting the numerator and pushing down the denominator will be the earnest attempt by the brands and packaging suppliers.

Intelligent packaging: In an ever evolving landscape, packaging intelligence is likely to get more astute, intuitive, active and smart through FY 2017-18. With IoT (Internet of things) already ruling the roost, packaging as an enabler will be far more intuitive and help providing instantaneous

information to the consumers about the packed products. Be it the ingredients; physical location of goods in transit; conditions in which the product was produced and packed or the real time condition assessment of the product packed inside the packet. Packaging will pave way for accessing all pertinent information through the hand held devices used by consumers and other actors across the value chain. Thus packaging will be rendered more engaging for the GEN-Y in FY 2017-18 and the years that follow.

Threats

Flexible packaging markets remain highly competitive at both the national and regional levels, often with narrow margins. The global flexible packaging industry continues to be highly fragmented although a small yet growing number of multinational converters are adopting a global strategy to grow in sync with their clients who are expanding their footprint in emerging markets including Eastern Europe, Asia, Africa and Latin America. There is an increasing concern among consumers for environmentally sustainable packaging solutions that has made R&D towards light weighting of substrates and packaging structures rather ubiquitous. There is a growing clamor for packaging that contributes to the Circular Economy leaving lesser waste and thus lower carbon foot print. The contemporary sustainability narrative now puts a much larger onus on to the packaging manufacturers to innovate and ensure reduction at source.

Worldwide more and more bio-degradable products are being used. Packaging films are often considered environment unfriendly; face significant opposition from various strata of society and are subjected to severe regulatory and statutory scrutiny although it has been proved beyond reasonable doubt that this type of packaging requires much less energy throughout all the critical stages of its life cycle i.e. during manufacturing, transportation and disposal when compared with its rigid counterpart.

8. Future Outlook

According to Smithers Pira, the global market for flexible packaging is forecast to grow at an annual average rate of 3.4% during the period 2015-2020, reaching \$248 billion. The major growth engines shall be the Asia-Pacific (APAC) countries.

Substitutions of Traditional packaging and Retail Chains are the most important drivers for the market growth. The real opportunity lies in developing nations or emerging economies. (Source: www.bigmarketresearch.com)

The players in the flexible packaging industry worldwide are coming up with more and more innovative and effective flexible packaging products. Flexible packaging designs such as zippers, pouring spouts, peel-off lids, and microwavable pouches provide consumers with convenience in accessing and disposing the products like never before. Such packaging designs are being increasingly improvised to meet the growing consumer demand for food and beverage products offering higher convenience and portability. Many packaging companies/ convertors are planning to devise innovative products to match ever evolving brand expectations. A lot of emphasis is being paid on intelligent packaging. Most of the convertors are focused on inventing new packaging designs or attempting to revamp existing packaging to be able to offer better value proposition to the brands.

Flexible packaging inherently is highly adaptable. The clever and solution driven designs that the packaging companies are coming up with further drives the sustainability quotient of the products which they pack. Flexible packaging helps in minimizing wastage of goods/products by offering appropriate portion sizes and re-closable options.

Uflex Limited being a fully integrated end-to-end flexible packaging materials and solution company, the window of opportunity is promisingly big. Innovation to create value added differentiation; ability to execute any quantum of order ;ensuring just in time delivery anywhere in the globe and an enviable speed to market reach to reap the first mover advantage puts the company in a good stead to double up its top-line in the next 3-4 years.

9. Internal Control System, their Adequacy and Operative Effectiveness

The Company has laid down internal financial controls. The policies and procedures adopted by the Company ensure orderly and efficient conduct of its business, safe-guarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records and timely preparation of reliable information.

The Company has also laid down an adequate system for legal compliances. It has created appropriate structures with proper delegation of duties and responsibilities for employees at each level on enterprise basis which ensures proper adherence and compliance of such systems.

Both the Internal Financial Control and Enterprise Legal Compliance Systems are subject to review by the Management in respect of their adequacy and operational effectiveness. These systems in turn are also reviewed by the Internal Auditors, Statutory Auditors and the Audit Committee. Finally, the Board of Directors of the Company also reviews and takes note of them.

10. Risk Management

Risk is an integral part of business. Risk can be broadly categorized into two categories: (a) Risk Associated at Transactions Level; (b) Risk Associated at Decision Making Level.

Risks Associated at Transactions Level

The Company has formalized & documented a detailed Manual on Internal Financial Control covering each activity involving Financial and Operational transactions, the probable risk underlying those activities and the control tools to prevent such risks either through manual or automated process.

Similarly, the Company has also formalized & documented a detailed Manual on Legal Compliance System listing all applicable laws, defining of responsibility centres for necessary compliances thereof and the compliance tasks to be performed under each applicable laws.

As Management is primarily responsible for the designing, implementation, maintenance, adequacy, monitoring & control mechanism and the operating effectiveness of the Internal Financial Control & Legal Compliance Systems, the Company has created appropriate structures with proper delegation of duties and responsibilities of employees at each level on enterprise basis for the compliances thereof. They also review periodically the adequacy of the enterprise level Internal Financial Control and Legal Compliance System in view of changes in business environment, technological changes & regulatory & legal changes and also based on the suggestion by the Internal Auditor, Statutory Auditors & Audit Committee.

Both the Internal Financial Control and Legal Compliance System are subject to review by the Internal Auditor on quarterly basis. They review the adherence, adequacy and effectiveness of the Internal Financial Control operating in the Company and Legal Compliances by the Company of the applicable laws. Based on their review they submit detailed reports covering their suggestions, recommendations & observations to the management and the Audit Committee.

The detailed Audit Reports of the Internal Auditors are reviewed by the Audit Committee comprehensively with the Management and the Internal Auditors. Based on their review, they make necessary directions if any to the Management and / or to the Internal Auditors for the actions / steps to be taken by them. The brief of the report is also given to the Board by the Chairman of the Audit Committee.

Risks Associated at Decision Making Level

All the Financial, Operational and Legal risks associated at transactions and operational levels are taken care through the above systems. In addition to these, there are other risks which arise during the course of decision making on strategic and corporate financial matters of the Company.

The Company has identified following nature of risks which may be associated with the decisions

on Strategic & Corporate Financial matters of the Company.

- Political, Social and Economic Risks
- Market Risk
- Technology Selection Risk
- Capital Structuring Risk
- Exchange & Interest Rate Risk

The management of the Company evaluates the above risks before taking any decision on strategic & corporate financial matters. A detailed report is submitted by the management on these matters to the Audit Committee and the Board for their review.

On the basis of the aforesaid Risk Management Process followed by the Company, the Audit Committee review & evaluate in detail the establishment and adherence of the Company's Enterprise Risk Management System and also review & evaluate the adequacy and efficacy of the same.

The Board reviews the recommendation of the Audit Committee on the establishment, adherence, adequacy and efficacy of the Company's Enterprise Risk Management framework.

Human Resource Development/Industrial Relations

The Company's Human Resources (HR) philosophy has always been directed towards establishing and building a strong performance and competency driven culture with greater sense of accountability and responsibility. The Company has taken several pragmatic steps for strengthening organizational competency through engagement and development of employees as well as installing effective systems for improving the productivity, quality and accountability at functional levels.

With the ever-changing and turbulent business scenario, the Company's basic focus is to upgrade the skillset and knowledge levels of the existing human assets by providing appropriate learning, training and development at all levels, motivating them to face the vagaries of business ecosystem in a VUCA world, inculcating the attitude for prompt and deft action and shouldering multifarious responsibilities demanded by the job.

The effort to rationalize and streamline the work force is a continuous process. The Company had 7541 permanent employees at global level as on 31st March, 2017. The industrial relations scenario remained harmonious and conducive throughout the year.

12. Environment, Occupational Health & Safety

Your Company is committed to conducting its operations with utmost concern towards the environment and ensuring a safe and healthy workplace for all employees. The collective endeavor of the Company's employees at all levels is directed towards sustaining and continuously improving standards of environment management, and occupational health & safety in an endeavor to meet and exceed international benchmarks.

ANNEXURE 'G' TO DIRECTORS' REPORT

Information regarding Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo pursuant to Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 and forming part of Directors' Report.

A. CONSERVATION OF ENERGY

Energy is a primary input for almost all activities and is, therefore, vital for improvement in quality of life. Its use in sectors such as industry, commerce, transport, telecommunications, wide range of agriculture and household services has compelled us to focus our attention to ensure its continuous supply to meet our ever increasing demands.

Energy related problems are not new. These problems are as old as they were 2500 years ago. The early Romans and Greeks faced fuel shortage as wood was their primary source of Energy. They had to import wood from very faraway places.

Fossil fuel is still the main source of energy today and we are facing the peak of oil and gas utilization. Fossil fuel resources took millions of years to form and are finite. These resources may be exhausted in the years to come.

Historical evidence shows that world energy demand has increased at almost the same rate as gross world product (GWP). People living in industrialized or developed countries are relatively in small percentage of the world's total population, but they consume a huge share of the total energy produced in the world.

Energy policy today has two choices (paths). One path leads to the fossil fuels (hard path), which means continuing as we have been for number of years i.e., emphasizing energy quantity by finding more amount of fossil fuels and building much larger power plants.

The second path is the soft path which leads to the energy alternatives that emphasize on energy quality and abundantly available in vogue. These are renewable, flexible and more environmental friendly alternatives. The soft path relies mainly on renewable energy i.e. sunlight, wind, biomass, tidal energy etc.

There is a constant need to resort to Energy Management. This concept recognizes that no

single Energy source could possibly provide all energy needs of the Nation. Thus, we at Uflex, are following the basic objective of integrated Energy Management in order to obtain sustainable Energy which could be realized at the local level.

(a) Energy conservation measures taken

The below mentioned are some of the steps which have been undertaken during 2016-2017:

Shifting of Electrical Load from 132 KV Grid to HFO GENERATORS at Noida Plant:

We have shifted our Electrical load from 132 KV/20 MVA power to the Captive power plant resulting into the saving of Rs. 20 crores annually.

Starting of Vapor Absorption M/c VAM

We have started 05 Nos of VAM in order to tap waste heat recovery process associated with the HFO Generators. This has shifted 1000 Tr cooling load on the VAMs, resulting into annual saving of Rs 4.50 crores.

Day light power Saving Panels

We have installed transparent day light panels on the Roof Top of the Utility Blocks, resulting into the annual saving of Rs.1 lac.

We have installed CLCT (Close Loop Cooling Tower) in order to reduce the cooling load of 100 TR on the Chillers, leading into saving of Rs.30 lacs per annum.

We have installed VFD Compressors resulting into savings of Rs. 20 lacs per annum.

Power factor improvement from 0.94 to 0.99.

Replacement of HPMV lamps (125 W) with LED lighting (40 W).

Carried out energy audit for the entire site and taken initiatives for reduction of energy consumption.

100% coverage of all equipment/ section for electrical energy metering.

Elimination of equipment idle running.

Extensive external agency/ expert audits throughout the year for energy efficiency improvement and consumption reduction.

Organized more than 18 training programs on Energy management related to awareness as well as equipment specific.

(b) Future Proposals for Energy Conservation

The Company will take necessary measures as may be required from time to time for conservation of energy. Such measures are as follows:

1. We are in process of installing new CLCT (Close Loop Cooling Towers) in order to further reduce Chiller Loads.
2. We are in process of identifying the variable loads in order to install VFD for saving power consumption.
3. Existing Cooling Towers are being modified/ repaired to improve Cooling Water Temperature which will help us in reducing the chiller compressor power.
4. We are planning to install Flow meters in order to conserve our natural resource.
5. We are working on ground water re-charge so that rain water could be used for water harvesting.
6. We are planning to replace conventional motors with energy efficient motors.
7. We are planning to start special drive to review our existing Insulation on the pipes/ ducts in order to minimize the energy loss.
8. Optimizing utility consumption through common utility of all sections.
9. Special focus on Chiller & cooling tower performance improvement.
10. Driving consumption reduction action plan for Identified energy intensive equipment.
11. Measurement facility of all utility consumption.

(c) Impact of measures at (a) & (b) above for reduction of energy consumption

The measures taken have resulted in savings in cost of production, power consumption, reduction in carbon dioxide emissions & processing time.

B. TECHNOLOGY ABSORPTION

The following efforts are being made in technology absorption: Research & Development (R&D):

1. Specific areas in which R&D is carried out by the Company The Company has carried out R&D in multiple products, processes and technologies.

2. Benefits derived as a result of the above R&D Products improvements in quality and quantity, conversion cost reduction, import substitution, widening the product range. The capability to develop new products boosts the morale and the culture of the organization. Further, several new products have been developed by the Company to respond to the needs of its customers both in the domestic and international markets, with concurrent commitment to improve quality and productivity.
3. Future plan of action Steps are continuously being taken for innovation and renovation of products including new product development and enhancement of product quality/profile, to offer better products at relatively affordable prices/process to customers.

4. Expenditure on R&D

During the year, the Company spent Rs.58.66 lacs. This is equivalent to 0.01% of the turnover.

Technology absorption, adaptation & innovation

1. Efforts, in brief, made towards technology absorption, adaptation and innovation The Company as a matter of policy exposes its technical staff to latest technological developments by encouraging them to participate in domestic as well as global technical seminars and expositions; this helps them to further improve their knowledge and skills, which in turn results in better quality products and increased productivity.
2. Benefits derived as a result of the above efforts Product innovation and renovation, improvement in yield, product quality, input substitution, cost effectiveness and energy conservation as the major benefits.

3. Imported Technology

During the period 2016-17, the Company has acquired the following new technology:

1. Slitter Mounted Lang Laser System: For Scoring of Film & Laminate in Machine & Cross Web Direction for easy tear.

2. TOTANI Pouchmaker : For Making Vacuum Pouches.
3. WIDMAN Machine : Centre & Corner Spout Fixing on Pouches by Ultrasonic Tools
4. UV Led Curing Technology : AMS, Uviterno
5. Technology imported from M/s Comiflex SRL, Via dell'artigianato, 30,20070, Cerro al Lambro (MI), Italy as detailed below :
 - a) Design and Engineering drawings of full main Gearless C.I. Flexo printing machines for model VALE-1308 and ELISA-1308 on Hard Disc
 - b) Design and Engineering drawings of unwinder for machine models VALE-1308 and ELISA-1308 on Hard Disc

C. GLOBAL BUSINESS STRATEGIES

In order to serve our global base of customers, we have started expanding globally into different regions in order to get closer to the customers. This enables us to serve our customers with better & quick deliveries as well as with reduced shipping times. This also reduces the freight cost.

Currently we are exporting to our customers present in around 140 countries across the globe. Our endeavour is to add couple of more countries during this year.

D. FOREIGN EXCHANGE EARNINGS AND OUTGO

1. Activities relating to exports

Initiatives taken to increase exports; development of new export markets for products and services and export plans.

The Company is at present exporting its products to USA, Europe, Asia Pacific, Middle East, Africa & other countries. The Company is continuously exploring possibilities of exporting more of its products to different markets.

2. During the period under review

(Rs. in Crores)

a)	Earnings in Foreign Exchange	
i)	F.O.B. value of export of manufactured/ Stock in Trade	570.39
ii)	Sales of Services	0.50

INDEPENDENT AUDITORS' REPORT

To the Members of UFLEX Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Uflex Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs of the Company as at March 31, 2017, and its profit, total other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.

ANNEXURE-B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of sub-Section 3 of Section 143 of the Companies Act, 2013 ('the Act') of Uflex Limited

We have audited the internal financial controls over financial reporting of Uflex Limited ('the Company') as of March 31, 2017, in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS financial statements for external purposes in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS financial statements in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

The Company is a leading Indian Multinational, engaged in the manufacture and sale of flexible packaging products & offers a complete flexible packaging solution to its customers across the globe.

II. SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company has adopted Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules 2015 with effect from 1st April 2016. The Adoption of the IND AS was carried out in accordance with the IND AS 101 First Time adoption of the Indian Accounting Standards. Accordingly Company's opening Ind AS Balance Sheet date of transition is 1st April 2015. Please refer to Note No 2 for more information on reconciliations of differences and descriptions of the effect of transition.

Accordingly the financial statements of the company with effect from 1st April 2016 have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules 2015, the provisions of Companies Act, 2013, and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Financial statements of the company are prepared under the historical cost convention except for the followings assets and liabilities which have been measured at their fair value:

- Certain financial assets and liabilities measured at fair value (Refer to accounting policies for more details).

For the periods up to and including the financial year ended 31st March 2016, the financial Statements were prepared in accordance with the Indian Generally Accepted Accounting Principal (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed by the Companies Act 2013 u/s 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of Companies Act, 2013, and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied.

B. USE OF ESTIMATES AND JUDGEMENTS

The preparation of the financial statements is in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates.

The estimates and underlying assumptions are reviewed on going concern basis.

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, in the period of the revision and future periods if the revision affects both current and future.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

C. CLASSIFICATION OF EXPENDITURE / INCOME

Except otherwise indicated:

- i) All expenditure and income are accounted for under the natural heads of account.
- ii) All expenditure and income are accounted for on accrual basis.

D. REVENUES

Revenues from sale of goods and processing

Revenue from the sale of goods and processing of material in the course of ordinary activities is measured at the value of the consideration received or receivable, net of returns, trade discounts, rate differences volume rebates and Commission paid. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably. The timing of transfers of risks and rewards normally happen upon shipment (except in case of consignment sales in which case the revenues are recognized when the materials are sold to ultimate customers).

Further, revenues are recognized at gross value of consideration of goods & processing of goods (Job work) including the amount of excise duty/cess recoveries and excluding sales tax/ value added tax.

Revenue from Services

Revenue from the service contract is recognized when the related services are performed and revenue from the services at the end of the reporting period is recognized based on stage of completion method. When there is uncertainty as to the ultimate collection of the revenue, recognition is postponed until such uncertainty is resolved. Revenues from service contracts are measured based on the services performed to date as a percentage of total services to be performed. In case where the services are performed by an indeterminate number of acts over a specified period of time, revenue is recognized on a straight line basis over the specified period. After the initial recognition, in respect of uncollectible amount, provisions are made in the period in which amount is identified as uncollectible.

Interest Income & Expense

Interest income is recognized on time apportionment basis. Effective interest method is used to compute the interest income on long terms loans and advances.

Dividend Income

Dividend income is recognized when the right to receive is established, which is generally when shareholders approve the dividend.

Rental Income

Rental income from investment property is recognized as part of other Income in Statement of profit and loss on a straight-line basis over the term of the lease.

E. PROPERTY, PLANT AND EQUIPMENT (PPE)

Recognition and measurement:

Property, plant and equipment are initially recognized at cost after deducting refundable purchase taxes and including the cost directly attributable to bring the asset to the location and conditions necessary for it to be capable of operating in the manner intended by the management, borrowing cost in accordance with the established accounting policy, cost of restoring and dismantling, if any, initially estimated by the management. After the initial recognition the property, plant and equipment are carried at cost less accumulated depreciation and impairment losses.

Cost of Self-constructed assets is determined using the same principles as for acquired assets after eliminating the component of internal profits.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1st April 2015, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

Depreciation on all property, plant & equipment are provided for, from the date of put to use for commercial production on straight line method at the useful lives prescribed in Schedule-II to the Companies Act, 2013, except for the followings, where the management believes that technical useful lives is different from those prescribed in Schedule II of the Companies Act, 2013 based on technical evaluation:

Particulars	Description
Rotogravure Cylinders & Shims (useful life of 3 Years)	Over the useful life as technically specified by the management based on the past experience
Continuous process Plant for Packaging Film (useful life of 20 Years)	Over the useful life as technically specified by the management based on the past experience

Cost of leasehold land are written off over the primary lease period of the land except of the leasehold land, held by the company on the date of transition, which is amortized over the remaining useful lives of the assets. Freehold land is not depreciated.

The estimated useful lives, residual values and depreciation method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

The carrying amount of the all property, plant and equipment are derecognized on its disposal or when no future economic benefits are expected from its use or disposal and the gain or loss on de-recognition is recognized in the statement of profit & loss.

Reclassification to investment property:

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

F. INTANGIBLE ASSETS

Acquired Intangible assets are initially recognized at cost after deducting refundable purchase taxes and including the transaction cost, if any. After initial recognition, intangibles are carried at cost less accumulated amortization and impairment losses.

Intangible assets in respect of Product development is created when the technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the product / technology and the cost is reliably measurable. The amount initially recognized of the internally generated intangible assets is the sum of the expenditures incurred from the date when the intangibles first met the recognition criteria. Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortization and accumulated impairment loss, if any. All revenue expenditure on research & development activities are accounted for under their natural heads of revenue expenses accounts.

Intangibles assets are amortized over their respective individual estimated useful lives on a straight line basis, from the date they are available for use.

Intangible asset is derecognized on disposal or when no future economic benefits are expected from continuing use or disposal.

The estimated useful lives, residual values and amortization method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

G. INVESTMENT PROPERTIES

Investment properties are initially recognized at cost after deducting refundable purchase taxes and including the transaction cost, if any. After initial recognition the investment properties are carried at cost less accumulated depreciation and impairment losses.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Transfer to and from the investment properties are made when and only when, there is change in the use of the investment property as evidenced by the conditions laid down under the Indian accounting standard. The carrying amount of the property as on the date of classification is considered as carrying value of the investment property and vice-versa.

The company has opted for an exemption provided by the Indian Accounting Standard (Ind As)-101. Accordingly the carrying value for Investment Properties as recognized in the financial statements, as at the date of transition to Ind AS, measured as per previous GAAP are used as deemed cost as at the date of transition.

Depreciation on investment properties are provided for from the date of put to use for on straight line method at the useful lives prescribed in Schedule-II to the Companies Act, 2013

The carrying amount of the investment properties are derecognized on its disposal or when no future economic benefits are expected from its use or disposal and the gain or loss on de-recognition is recognized in the statement of profit & loss.

The estimated useful lives, residual values and depreciation method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

The fair value of the investment properties are disclosed in the notes.

H. INVENTORIES

Inventories of finished goods and work in progress are valued at lower of cost, based on weighted average method, (except in case of machine manufacturing where specific identification method is used) arrived after including depreciation on plant & machinery, electrical installation and factory building, repair & maintenance on factory building, specific manufacturing expenses including excise duty and specific payments & benefits to employees or net realizable value

Raw Materials and other materials including packaging, stores and fuels are valued at lower of cost, based on first-in-first-out method arrived at after including freight inward and other expenditure directly attributable to acquisition or net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

I. FINANCIAL INSTRUMENTS

Initial Recognition:

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables/payables and where cost of generation of fair value exceeds benefits, which are initially measured at transaction price. Transaction costs directly related to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities through profit & loss account) are added to or deducted from the cost of financial assets or financial liabilities. Transaction cost directly attributed to the acquisition of financial assets or financial liabilities at fair value through profit & loss account are recognized immediately in the statement of profit & loss.

Subsequent Recognition:

Non-derivative financial instruments

- (i) **Financial assets carried at amortized cost:** A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) **Financial assets at fair value through other comprehensive income:** A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

The Company has made an irrevocable election for its investments which are classified as equity instruments (all being not held for trading), to present the subsequent changes in fair value in other comprehensive income based on its business model.

Fair value of the listed equity instruments are measured using the rate quoted in the stock exchange wherein the securities are actively traded as on the last working day of the period of reporting. In respect of unlisted equity instruments, fair value is determined based on the latest audited financial statements and considering the open market information available, failing which it shall be measured at cost.

- (iii) **Financial assets at fair value through profit or loss:** A financial asset which is not classified in any of the above categories (including investment in units of mutual funds) is subsequently fair valued through profit or loss.
- (iv) **Financial liabilities:** Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.
- (v) **Investment in Subsidiaries/Joint ventures / Associates:** Investment in subsidiaries / Joint Ventures / Associates are carried at cost in the separate financial statements. Any gain or losses on disposal of these investments are recognized in the statement of profit & loss.

J. TRADE RECEIVABLES

Trade receivables represents amount billed to customers as credit sales and are net off; a) any amount billed but for which revenues are reversed under the relevant Indian accounting standard and b) impairment for trade receivables, which is estimated for amounts not expected to be collected in full.

K. LOANS AND ADVANCES

Loans and advances are non-derivative financial assets with fixed and determinable payments. This category includes the loans, cash and bank balances, other financial assets and other current assets.

Subsequent to initial measurement, loans and receivables are carried at amortized cost based on effective interest rate method less appropriate allowance for doubtful receivables.

Loans and advances are further classified as current and non-current depending whether they will realize within 12 months from the balance sheet date or beyond.

L. FINANCIAL LIABILITIES

Financial liabilities are initially recognized at the fair value of the consideration received less directly attributable transaction cost.

Subsequent to initial measurement, financial liabilities are measured at amortized cost. The difference in the initial carrying amount of the financial liabilities and their redemption value is recognized in the statement of profit & loss over the contractual term using the effective interest rate method. This category includes the following class of liabilities; trade and other payables, borrowing; and other financial liabilities.

Financial liabilities are further classified as current and non-current depending whether they are payable within 12 months from the balance date or beyond.

Financial liabilities are derecognized when the company is discharged from its obligation; they expire, are cancelled or replaced by a new liability with substantial modified terms.

M. EARNING PER SHARE

Basic Earnings Per Share is computed by dividing the net profit attributable to the equity shareholders of the company to the weighted average number of Shares outstanding during the period & Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders of the company after adjusting the effect of all dilutive potential equity shares that were outstanding during the period the weighted

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

average number of shares outstanding during the period including the weighted average number of equity shares that could have issued upon conversion of all dilutive potential.

N. TAXATION**Current Tax**

Current tax is tax expected tax payable on the taxable income for the year, using the tax rate enacted at the reporting date, and any adjustment to the tax payable in respect of the earlier periods.

Current tax assets and liabilities are offset where the company has legal enforceable right to offset and intends either to settle on net basis, or to realize the assets and settle the liability simultaneously.

Deferred Tax Assets and Liabilities

Deferred tax is recognized for all taxable temporary differences and is calculated based on the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset and when the deferred tax balances relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but the Group intends to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Current and Deferred Tax for the Year

Current and deferred tax are recognized in the statement of profit & loss, except when they relates to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax and deferred tax is recognized directly in other comprehensive income or equity respectively.

O. EMPLOYEE BENEFITS

The company provides for the various benefits plans to the employees. These are categorized into Defined Benefits Plans and Defined Contributions Plans. Defined contribution plans includes the amount paid by the company towards the liability for Provident fund to the employees provident fund organization and Employee State Insurance fund in respect of ESI and defined benefits plans includes the retirement benefits, such as gratuity and paid absences (leave benefits) both accumulated and non-accumulated.

- a. In respect Defined Contribution Plans, contribution made to the specified fund based on the services rendered by the employees are charged to Statement of Profit & Loss in the year in which services are rendered by the employee.
- b. Liability in respect of Defined Long Term benefit plan is determined at the present value of the amounts payable determined using actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit methods. Re-measurement, comprising actuarial gain and losses, the effects of assets ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of Financial Position with a charge or credit recognized in other comprehensive income in the period in which they occur. Past Service cost is recognized in the statement of profit & loss in the period of plan amendment.
- c. Liabilities for accumulating paid absences is determined at the present value of the amounts payable determined using the actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit method. Actuarial gain or losses in respect of accumulating paid absences are charged to statement of profit & loss account.
- d. Liabilities for short term employee benefits are measured at undiscounted amount of the benefits expected to be paid and charged to Statement of Profit & Loss in the year in which the related service is rendered.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

P. IMPAIRMENT

Financial assets

The company recognizes the impairment on financial assets based on the expected credit loss model for the financial assets which are not fair value through profit and loss account. Loss allowance on trade receivables, with no significant financing component is measured at an amount equal to lifetime expected credit loss. For all financial assets expected credit losses are measured at an amount equal to 12-month ECL unless there has been significant increase in credit risk from initial recognition in which case these are measured at lifetime expected credit loss. The amount of expected credit losses or reversal that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the profit and loss for the period.

Intangible assets, investment property and property, plant and equipment

Intangible assets, investment property and property plant & equipment are evaluated for recoverability wherever events or changes in circumstances indicate that their carrying amount may not be recoverable.

For impairment testing, assets that do not generate independent cash flows are grouped together into cash generating units (CGUs).

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such asset is considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit & loss if there have been changes in the estimates used to determine the recoverable amount. The carrying amount is increased to its revised recoverable amount, provided that this amount does not exceeds the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss has been recognized for the asset in prior years.

Q. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognized, if as a result of past event the company has present legal or constructive obligations that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessments of the time value of money and the risk specific to liability.

Contingent liabilities are disclosed for possible obligations arising out of uncertain events not wholly in control of the company.

Contingent assets are not recognized in the financial statements. However due disclosures are made in the financial statements for the contingent assets, where economic benefits is probable and amount can be estimated reliably.

R. FOREIGN CURRENCY TRANSACTIONS

Functional Currency

The Companies functional currency is Indian Rupees. The financial statement of the company is presented in Indian rupees rounded off to nearest lacs.

Transaction and translations

Transactions in currency other than Indian Rupees are recorded at the rate, as declared by the custom and excise department / inter-bank rates, ruling on the date of transaction.

Unsettled Foreign currency denominated monetary assets and liabilities, as at the balance sheet date, are translated using the exchange rates as at the balance sheet date. The gain or loss resulting from the translation is recognized in the profit & loss. Non-monetary assets and non-monetary liabilities denominated

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

in foreign currency and measured at cost are translated at the exchange rate at the date of the transaction. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured carried at fair value are translated at the date when the fair value is determined.

Transaction gain or losses realized upon settlement of foreign currency transaction are included in determining the net profit for the period in which transaction is settled.

Exchanges difference arises on settlement / translation of foreign currency monetary items relating to acquisition of property, plant & equipment till the period they are put to use for commercial production, are capitalized to the cost of assets acquired and provided for over the useful life of the property, plant & equipment.

S. LEASES

Payments made under operating leases are generally recognized in the profit and loss on a straight line basis over the term of leases unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, lease incentive are recognized as integral part of the total lease expense over the term of the lease.

Minimum lease payments under the finance leases are apportioned between the finance charge and the reduction of outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of liability.

T. BORROWING COST

Borrowings cost are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing cost directly attributable to the acquisition or construction of qualifying / eligible assets, intended for commercial production are capitalized as part of the cost of such assets. All other borrowing costs are recognized as an expense in the year in which they are incurred.

U. STANDARDS ISSUED BUT NOT YET EFFECTIVE

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017 notifying amendments to Ind AS 7 on "Statement of Cash Flows" and Ind AS 102 on "Share based payments", applicable w.e.f. 1st April 2017. These amendments are in accordance with the recent amendments made by the International Accounting Standards Board (ISB) to IAS, Statement of Cash flows and IFRS 2 Share based payments respectively. The amendments to Ind AS 7 are applicable to the Company w.e.f. 1st April 2017.

Amendment to Ind AS 7;

The amendment to Ind AS 7 requires the entities to provide disclosures that enables the users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation statements between opening and closing balances in the balance sheet liabilities arising from financing activities to meet the disclosure requirement.

Since, the impact of proposed changes in Ind AS 7 relates to the disclosure of the items included in the financial statements, it does not have any impact on the financial position of the company.

Amendment to Ind AS 102;

The amendment to Ind AS 102 provides specific guidance to measurement of cash settled awards, modification of cash settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash settled awards is determined on a basis consistent with that used for equity settled awards. Market based performance conditions and non-vesting conditions are reflected in the fair values, but non market performance conditions and service vesting conditions are reflected in the estimate the number of awards expected to vest. Also the amendment clarifies that the terms and conditions of a cash settled share based payment transaction are modified with the result that it becomes equity settled share based payment transaction, the transaction is accounted for as such from the date of modification. Further, the amendment requires the awards that include a net settlement feature in respect of withholding taxes to be treated as equity settled in entirety. The cash payment to the tax authority is treated as part as if it was part of an equity settlement. However the provisions of Ind AS 102 are currently not applicable to the company.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Actuarial (gain) / loss due to change in financial assumptions	(42.33)	162.91
Return on Plan assets, excluding interest income	(132.10)	65.37
Net Gratuity Cost recognised on Statement of Other Comprehensive Income	(174.43)	228.28
Assumptions		
Interest rate	7.5% P.A.	8% P.A.
Estimated rate of return on plan assets	7.5% P.A.	8% P.A.

The expected benefits increases are based on the same assumptions as are used to measure the Company's defined benefit plan obligations as at 31st March 2017. The company is expected to contribute Rs. 201.23 lacs to defined benefits plan obligations fund for the year ending 31st March 2018.

The significant accounting assumptions are the discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the reporting period while other assumptions constant.

If the discount rate increases /(decreases by 0.5%), the defined benefit plan obligations would decrease by Rs.127.45 Lacs (increase by Rs.137.74 Lacs) as at 31st March 2017.

If the expected salary growth increases /(decreases by 0.5%), the defined benefit plan obligations would increase by Rs.132.65 Lacs (decrease by Rs.124.06 Lacs) as at 31st March 2017.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Further in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the Projected Unit Credit Method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance Sheet.

b) Leave Encashment

The Company has provided for its Liability towards Leave encashment, based on the actuarial valuation, disclosure whereof in terms of Indian Accounting Standard (Ind AS)- 19, "Employee Benefits" is as under:

48. FINANCIAL RISKS MANAGEMENT

In the course of business, amongst others, the Company is exposed to several financial risks such as Credit Risk, Liquidity Risk, Interest Rate Risk, Exchange Risk and Commodity Price Risk. These risks may be caused by the internal and external factors resulting into impairment of the assets of the Company causing adverse influence on the achievement of Company's strategies, operational and financial objectives, earning capacity and financial position.

The Company has formulated an appropriate policy and established a risk management framework which encompass the following process.

- identify the major financial risks which may cause financial losses to the company
- assess the probability of occurrence and severity of financial losses
- mitigate and control them by formulation of appropriate policies, strategies, structures, systems and procedures
- Monitor and review periodically the adherence, adequacy and efficacy of the financial risk management system.

The Company enterprise risk management system is monitored and reviewed at all levels of management, Internal Auditors, Audit Committee and the Board of Directors from time to time.

Credit Risk

Credit Risk refers to the risks that arise on default by the counterparty on its contractual obligation resulting into financial loss to the company. The company may carry this Risk on Trade and other receivables, liquid assets and some of the non current financial assets.

In case of Trade receivables, the company has framed appropriate policy for extending credits period & limit to each customer based on their profile, financial position and their external rating etc. The collections of trade dues are strictly monitored . In case of Export customers, even credit guarantee insurance is also obtained wherever required.

Company's exposure to Credit Risk is also influenced by the concentration of risk from top five customers. The details in respect of the% of sales generated from the top customer and top five customers are given hereunder.

Particulars	Current Year	Previous Year
Revenue from Top Customer	22%	22%
Revenue from Top Five Customers	34%	35%

The credit risk on cash & cash equivalent, investment in fixed deposits, liquid funds and deposits are insignificant as counterparties are banks or mutual funds with high credit ratings assigned by the rating agencies of international repute.

Liquidity Risk

Liquidity Risk arises when the company is unable to meet its short term financial obligations as and when they fall due.

The company maintains adequate liquidity in the system so as to meet its all financial liabilities timely. In addition to this, the company's overall financial position is very strong so as to meet any eventuality of liquidity tightness.

Contractual maturities of financial liabilities are given as under:

Particulars	(Rs in Lacs)		
	As at 31st March 2017	Due within 12 months from Balance sheet Date	Due beyond 12 months of Balance Sheet Date
Borrowings	123811.86	51959.95	71851.91
Trade payables	54945.10	54945.10	-
Other Financial Liability	4612.02	4279.30	332.72

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Interest Rate Risk

Generally market linked financial instruments are subject to interest rate risk. The company does not have any marked linked financial instrument both on the asset or liability side. Hence no interest rate risk.

In case of the borrowings by the company, the company is subject to interest rate risk on account of any fluctuation in the base prime lending rate (BPLR) fixed by the banks. Every fluctuation in the BPLR of the bank either on the higher or lower side will result into financial loss or gain to the company.

The major portion of the company's debt are linked with the BPLR of the Indian Banks. The total proportions of these debts are Rs. 102375.49 Lacs out of the total debt of Rs. 123811.86 Lacs.

Based on the structure of net debt as at year end, a one percentage point increase in the debt would cause an additional expense in the net financing cost of Rs. 1023.75 Lacs.

Foreign Currency Risk

The company is exposed to the foreign currency risk from transactions & translation. Transactional exposures are arising from the transactions entered into foreign currency. Management keeps a close watch of the maturity of the financial assets in foreign currency and payment obligations of the financial liabilities.

Based on one percentage point variations in the exchange rate, the profit for the year based on the foreign currency transaction entered during the period will be effected by 4.71%.

Commodity Price Risk

The main raw materials which company procures are global commodities and their prices are to a great extent linked to the movement of crude prices directly or indirectly.

The pricing policy of the Company final product is structured in such a way that any change in price of raw materials is passed on to the customers in the final product however, with a time lag which mitigates the raw material price risk.

With regard to the finished products, the Company has been operating in a global competitive environment which continues to keep downward pressure on the prices and the volumes of the products.

In order to combat this situation, the Company formulated manifold plans and strategies to develop new customers & focus on new innovative products. In addition, it has also been focusing on improvement in product quality and productivity. With these measures, Company counters the competition and consequently commodity price risk.

ANNEXURE-A TO THE INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ('the Act').

In conjunction with our audit of the Consolidated Ind AS financial Statements of the Uflex Limited (herein referred to as "the Holding Company"), its Subsidiaries and Associates, which are companies incorporated in India, as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of Holding Company, its Indian Subsidiaries, viz. UTech Developers Limited, USC Holograms (P) Limited, SD Buildwell (P) Limited, Refex Energy (Rajasthan) (P) Limited (w.e.f. July 7, 2016) and Bundelkhand Projects (P) Limited (w.e.f. July 7, 2016) and its Indian Associates, Flex Foods Limited and Refex Energy (Rajasthan) (P) Limited (till July 6, 2016) (the Holding Company, its Indian Subsidiaries and its Indian Associates are together referred to as "Indian Enterprises") as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Indian Enterprises, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Indian Enterprises considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Indian Enterprises' policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Indian Enterprises' internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Indian Enterprises' internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

The Indian Enterprises' internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Ind AS Financial Statements for external purposes in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. An Indian Enterprises' internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Indian Enterprises; (2) provide reasonable assurance that transactions

are recorded as necessary to permit preparation of Consolidated Ind AS financial statements in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, and that receipts and expenditures of the Indian Enterprises are being made only in accordance with authorizations of the Management and Directors of the Indian Enterprises; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Indian Enterprises assets that could have a material effect on the Consolidated Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in the Other Matters paragraph, the Indian Enterprises has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Indian Enterprises considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to aforesaid Subsidiary Companies and Associate Companies, which are Companies incorporated in India, is based on the corresponding reports of the auditors of respective Companies.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

1. SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PREPERATION OF FINANCIAL STATEMENTS

The Group has adopted Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs under the Companies (Accounting Standards) Rules 2015 with effect from 1st April 2016. The Adoption of the IND AS was carried out in accordance with the IND AS 101 First Time adoption of the Indian Accounting Standards. Accordingly Group opening Ind AS Balance Sheet / date of transition is 1st April 2015. Please refer to Note No 2 for more information on reconciliations of differences and descriptions of the effect of transition.

Accordingly the financial statements of the group with effect from 1st April 2016 have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Accounting Standards) Rules 2015, the provisions of Companies Act, 2013, and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Financial statements of the group are prepared under the historical cost convention except for the followings assets and liabilities which have been measured at their fair value:

Certain financial assets and liabilities measured at fair value (Refer to accounting policies for more details)

The financial statements are presented in Indian Rupees (INR). Amount has been rounded off to nearest lacs.

For the periods up to and including the financial year ended 31st March 2016; the group financial Statements were prepared in accordance with the Indian Generally Accepted Accounting Principal (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed by the Companies Act 2013 u/s 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of Companies Act, 2013, and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied.

B. BASIS AND PRINCIPLES OF CONSOLIDATION

The consolidated financial statements comprise those of UFLEX Limited and its affiliated companies (the Group).

Companies which the group controls are fully consolidated from the date at which the Group obtains the control over the entity, using the equity method. The Group controls the entity when it is exposed to, or has right to, variable returns from its involvement with the company and has ability to affect those returns through its power over the company. The Group holds either full or majority of voting rights in the companies which are controlled.

The financial statements of the Group Companies are consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, subject to regrouping & netting of certain items, which present the consolidation in a fair manner without affecting the materiality, after eliminating the intra-group transactions and also unrealized profit or losses resulting from intra-group transactions included in the carrying amount of assets. The group financial statements are prepared by adopting uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as that of holding company's financial statements. Non-controlling interest which represent part of the net profit or loss and net assets of the subsidiaries that are not, directly or indirectly, owned or controlled by the Group, are excluded. The excess / short amount of investment of the Group over its share in the net assets of the respective affiliates is recognized as Goodwill or Capital Reserve in the financial statement.

Associates are entities over which the Group has significant influence, but not control. Investments in the associate companies have been accounted under the Equity Method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or reduced by the amount of share in profit & loss of the investee after the date of acquisition. The Groups investment in associates includes goodwill identified on acquisition.

The list of companies of the UFLEX Group and associates are given as under:

Business Combinations

Business combinations are accounted for using the acquisition method. Where not all of the equity of a subsidiary is acquired the non-controlling interests are recognized at the non-controlling interest share of the acquires net identifiable assets. Upon obtaining control in a business combination achieved in stages, the Group remeasures its previously held equity interest at fair value and recognizes a gain or a loss to the other comprehensive income.

All the figures of assets, liabilities, revenue & expenses of subsidiaries, which are stated in foreign currency in its separate financial statements, are converted into Indian Rupees in accordance with the Ind AS 21 on "The Effects of Changes in Foreign Exchange Rates".

C. USE OF ESTIMATES AND JUDGEMENTS

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates.

The estimates and underlying assumptions are reviewed on going concern basis.

Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, in the period of the revision and future periods if the revision affects both current and future.

D. CLASSIFICATION OF EXPENDITURE / INCOME

Except otherwise indicated:

- i) All expenditure and income are accounted for under the natural heads of account.
- ii) All expenditure and income are accounted for on accrual basis.

E. REVENUES
Revenues from sale of goods and processing

Revenue from the sale of goods and processing of material in the course of ordinary activities is measured at the value of the consideration received or receivable, net of returns, trade discounts, rate differences volume rebates and Commission paid. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably. The timing of transfers of risks and rewards normally happen upon shipment (except in case of consignment sales in which case the revenues are recognized when the materials are sold to ultimate customers).

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Further, revenues are recognized at gross value of consideration of goods & processing of goods (Job Work) including the amount of excise duty/cess recoveries and excluding sales tax/ value added tax.

Revenue from Services

Revenue from the service contract is recognized when the related services are performed and revenue from the services at the end of the reporting period is recognized based on stage of completion method. When there is uncertainty as to the ultimate collection of the revenue, recognition is postponed until such uncertainty is resolved. Revenues from service contracts are measured based on the services performed to date as a percentage of total services to be performed. In case where the services are performed by an indeterminate number of acts over a specified period of time, revenue is recognized on a straight line basis over the specified period. After the initial recognition, in respect of uncollectible amount, provisions are made in the period in which amount is identified as uncollectible.

Interest Income & Expense

Interest income is recognized on time apportionment basis. Effective interest method is used to compute the interest income on long terms loans and advances.

Dividend Income

Dividend income is recognized when the right to receive is established, which is generally when shareholders approve the dividend.

Rental Income

Rental income from investment property is recognized as part of other Income in Statement of profit and loss on a straight-line basis over the term of the lease.

F. PROPERTY, PLANT AND EQUIPMENT (PPE)

Recognition and measurement:

Property, plant and equipment are initially recognized at cost after deducting refundable purchase taxes and including the cost directly attributable to bring the asset to the location and conditions necessary for it to be capable of operating in the manner intended by the management, borrowing cost in accordance with the established accounting policy, cost of restoring and dismantling, if any, initially estimated by the management. After the initial recognition the property, plant and equipment are carried at cost less accumulated depreciation and impairment losses.

Cost of Self-constructed assets is determined using the same principles as for acquired assets after eliminating the component of internal profits.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2015, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

Depreciation on all property, plant & equipment are provided for, from the date of put to use for commercial production on straight line method at the useful lives prescribed in Schedule-II to the Companies Act, 2013, except for the followings, where the management believes that technical useful lives is different from those prescribed in Schedule II of the Companies Act, 2013 based on technical evaluation:

Particulars	Description
Rotogravure Cylinders & Shims (useful life of 3 Years)	Over the useful life as technically specified by the management based on the past experience
Continuous process Plant for Packaging Film (useful life of 20 Years)	Over the useful life as technically specified by the management based on the past experience

Cost of leasehold land are written-off over the primary lease period of the land except of the leasehold land, held by the company on the date of transition, which is amortised over the remaining useful lives of the assets. Freehold land is not depreciated.

The estimated useful lives, residual values and depreciation method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

The carrying amount of the all property, plant and equipment are derecognized on its disposal or when no future economic benefits are expected from its use or disposal and the gain or loss on de-recognition is recognized in the statement of profit & loss.

Reclassification to investment property:

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

G. INTANGIBLE ASSETS

Acquired Intangible assets are initially recognized at cost after deducting refundable purchase taxes and including the transaction cost, if any. After initial recognition intangibles are carried at cost less accumulated amortization and impairment losses.

Intangible asset in respect of Product development is created when the technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the product / technology and the cost is reliably measurable. The amount initially recognized of the internally generated intangible assets is the sum of the expenditures incurred from the date when the intangibles first meet the recognition criteria. Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortization and accumulated impairment loss, if any. All revenue expenditure on research & development activities are accounted for under their natural heads of revenue expenses accounts.

Intangibles assets are amortised over their respective individual estimated useful lives on a straight line basis, from the date they are available for use.

Intangible asset is derecognized on disposal or when no future economic benefits are expected from continuing use or disposal.

The estimated useful lives, residual values and amortization method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

H. INVESTMENT PROPERTIES

Investment properties are initially recognized at cost after deducting refundable purchase taxes and including the transaction cost, if any. After initial recognition the investment properties are carried at cost less accumulated depreciation and impairment losses.

Transfer to and from the investment properties are made when and only when, there is change in the use of the investment property as evidenced by the conditions laid down under the Indian accounting standard. The carrying amount of the property as on the date of classification is considered as carrying value of the investment property and vice-versa.

The company has opted for an exemption provided by the Indian Accounting Standard (Ind As)-101. Accordingly the carrying value for Investment Properties as recognized in the financial statements, as at the date of transition to Ind AS, measured as per previous GAAP are used as deemed cost as at the date of transition.

Depreciation on investment properties are provided for from the date of put to use for on straight line method at the useful lives prescribed in Schedule-II to the Companies Act, 2013

The carrying amount of the investment properties are derecognized on its disposal or when no future economic benefits are expected from its use or disposal and the gain or loss on de-recognition is recognized in the statement of profit & loss.

The estimated useful lives, residual values and depreciation method are reviewed at each financial year end and the effect of any change is accounted for on prospective basis.

The fair value of the investment properties are disclosed in the notes.

I. INVENTORIES

Inventories of finished goods and work in progress are valued at lower of cost, based on weighted average method, (except in case of machine manufacturing where specific identification method is used) arrived after including depreciation on plant & machinery, electrical installation and factory building, repair & maintenance on factory building, specific manufacturing expenses including excise duty and specific payments & benefits to employees or net realizable value.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

Raw Materials and other materials including packaging, stores and fuels are valued at lower of cost, based on first-in-first-out method arrived at after including freight inward and other expenditure directly attributable to acquisition or net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

J. FINANCIAL INSTRUMENTS

Initial Recognition:

The Group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables/payables and where cost of generation of fair value exceeds benefits, which are initially measured at transaction price. Transaction costs directly related to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities through profit & loss account) are added to or deducted from the cost of financial assets or financial liabilities. Transaction cost directly attributed to the acquisition of financial assets or financial liabilities at fair value through profit & loss account are recognized immediately in the statement of profit & loss.

Subsequent Recognition:

Non-derivative financial instruments

- (i) **Financial assets carried at amortized cost:** A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) **Financial assets at fair value through other comprehensive income:** A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company has made an irrevocable election for its investments which are classified as equity instruments (all being not held for trading), to present the subsequent changes in fair value in other comprehensive income based on its business model.

Fair value of the listed equity instruments are measured using the rate quoted in the stock exchange wherein the securities are actively traded as on the last working day of the period of reporting. In respect of unlisted equity instruments, fair value is determined based on the latest audited financial statements and considering the open market information available, failing which it shall be measured at cost.

- (iii) **Financial assets at fair value through profit or loss:** A financial asset which is not classified in any of the above categories (including investment in units of mutual funds) are subsequently measure at fair valued through profit or loss.
- (iv) **Financial liabilities:** Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

K. TRADE RECEIVABLES

Trade receivables represents amount billed to customers as credit sales and are net off; a) any amount billed but for which revenues are reversed under the relevant Indian Accounting Standard and b) impairment for trade receivables, which is estimated for amounts not expected to be collected in full.

L. LOANS AND ADVANCES

Loans and advances are non-derivative financial assets with fixed and determinable payments. This category includes the loans, cash and bank balances, other financial assets and other current assets.

Subsequent to initial measurement, loans and receivables are carried at amortized cost based on effective interest rate method less appropriate allowance for doubtful receivables.

Loans and advances are further classified as current and non-current depending whether they will realize within 12 months from the balance sheet date or beyond.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017**M. FINANCIAL LIABILITIES**

Financial liabilities are initially recognized at the fair value of the consideration received less directly attributable transaction cost.

Subsequent to initial measurement, financial liabilities are measured at amortised cost. The difference in the initial carrying amount of the financial liabilities and their redemption value is recognised in the statement of profit & loss over the contractual term using the effective interest rate method. This category includes the following class of liabilities; trade and other payables, borrowing; and other financial liabilities.

Financial liabilities are further classified as current and non-current depending whether they are payable within 12 months from the balance date or beyond.

Financial liabilities are derecognized when the company is discharged from its obligation; they expire, are cancelled or replaced by a new liability with substantial modified terms.

N. EARNING PER SHARE

Basic Earnings Per Share is computed by dividing the net profit attributable to the owners of the Group to the weighted average number of Shares outstanding during the period & Diluted earnings per share is computed by dividing the net profit attributable to the owners of the Group after adjusting the effect of all dilutive potential equity shares that were outstanding during the period the weighted average number of shares outstanding during the period including the weighted average number of equity shares that could have issued upon conversion of all dilutive potential.

O. TAXATION**Current Tax**

Current tax is expected tax payable on the taxable income for the year, using the tax rate enacted at the reporting date, and any adjustment to the tax payable in respect of the earlier periods.

Current tax assets and liabilities are offset where the company has legal enforceable right to offset and intends either to settle on net basis, or to realise the assets and settle the liability simultaneously.

Deferred Tax Assets and Liabilities

Deferred tax is recognized for all taxable temporary differences and is calculated based on the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset and when the deferred tax balances relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but the Group intends to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax is not recognized for temporary differences relating to:

- initial recognition of goodwill;
- initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and
- Investments in subsidiaries, associates and jointly controlled entities where the Group is able to control the timing of the reversal of the temporary difference and it is probable that they will not reverse in the foreseeable future.

Current and Deferred Tax for the Year

Current and deferred tax are recognized in the statement of profit & loss, except when they relates to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax and deferred tax is recognized directly in other comprehensive income or equity respectively.

P. EMPLOYEE BENEFITS

The Group provides for the various benefits plans to the employees. These are categorized into Defined Benefits Plans and Defined Contributions Plans. Defined contribution plans includes the amount paid by the Group towards the liability for employees benefits plans notified / enacted by the competent authority and defined benefits plans includes the retirement benefits, such as gratuity and paid absences (leave benefits) both accumulated and non-accumulated.

- a. In respect Defined Contribution Plans contribution made to the specified fund based on the services rendered by the employees are charged to Statement of Profit & Loss in the year in which services are rendered by the employee.
- b. Liability in respect of Defined Long Term benefit plan is determined at the present value of the amounts payable determined using actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit methods. Remeasurement, comprising actuarial gain and losses, the effects of assets ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of Financial Position with a charge or credit recognized in other comprehensive income in the period in which they occur. Past Service cost is recognized in the statement of profit & loss in the period of plan amendment.
- c. Liabilities for accumulating paid absences is determined at the present value of the amounts payable determined using the actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit method. Actuarial gain or losses in respect of accumulating paid absences are charged to statement of profit & loss account.
- d. Liabilities for short term employee benefits are measured at undiscounted amount of the benefits expected to be paid and charged to Statement of Profit & Loss in the year in which the related service is rendered.

Q. IMPAIRMENT

Financial assets

The Group recognizes the impairment on financial assets based on the expected credit loss model for the financial assets which are not fair value through profit and loss account. Loss allowance on trade receivables, with no significant financing component is measured at an amount equal to lifetime expected credit loss. For all financial assets expected credit losses are measured at an amount equal to 12-month ECL unless there has been significant increase in credit risk from initial recognition in which case these are measured at lifetime expected credit loss. The amount of expected credit losses or reversal that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the profit and loss for the period.

Intangible assets, investment property and property, plant and equipment

Intangible assets, investment property and property plant & equipment are evaluated for recoverability wherever events or changes in circumstances indicate that their carrying amount may not be recoverable.

For impairment testing, assets that do not generate independent cash flows are grouped together into cash generating units (CGUs).

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such asset is considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit & loss if there have been changes in the estimates used to determine the recoverable amount. The carrying amount is increased to its revised recoverable amount, provided that this amount does not exceeds the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss has been recognized for the asset in prior years.

R. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognized, if as a result of past event the Group has present legal or constructive obligations that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessments of the time value of money and the risk specific to liability.

Contingent liabilities are disclosed for possible obligations arising out of uncertain events not wholly in control of the Group.

Contingent assets are not recognized in the financial statements. However due disclosures are made in the financial statements for the contingent assets, where economic benefits is probable and amount can be estimated reliably.

S. FOREIGN CURRENCY TRANSACTIONS

Functional Currency

The Companies functional currency is Indian Rupees. The financial statement of the company is presented in Indian rupees rounded off to nearest lacs.

Transaction and translations

Transactions in currency other than Indian Rupees are recorded at the rate, as declared by the custom and excise department / inter-bank rates, ruling on the date of transaction.

Unsettled Foreign currency denominated monetary assets and liabilities, as at the balance sheet date, are translated using the exchange rates as at the balance sheet date. The gain or loss resulting from the translation is recognized in the profit & loss. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured at cost are translated at the exchange rate at the date of the transaction. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured carried at fair value are translated at the date when the fair value is determined.

Transaction gain or losses realized upon settlement of foreign currency transaction are included in determining the net profit for the period in which transaction is settled.

Exchanges difference arises on settlement / translation of foreign currency monetary items relating to acquisition of property, plant & equipment till the period they are put to use for commercial production, are capitalized to the cost of assets acquired and provided for over the useful life of the property, plant & equipment.

T. LEASES

Payments made under operating leases are generally recognized in the profit and loss on a straight line basis over the term of leases unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, lease incentive are recognized as integral part of the total lease expense over the term of the lease.

Minimum lease payments under the finance leases are apportioned between the finance charge and the reduction of outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of liability.

U. BORROWING COST

Borrowings cost are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing cost directly attributable to the acquisition or construction of qualifying /eligible assets, intended for commercial production are capitalised as part of the cost of such assets. All other borrowing costs are recognized as an expense in the year in which they are incurred.

V. STANDARDS ISSUED BUT NOT YET EFFECTIVE

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017 notifying amendments to Ind AS 7 on "Statement of cash flows" and Ind AS 102 on "Share based payments", applicable w.e.f. 1st April 2017. These amendments are in accordance with the recent amendments made by the International Accounting Standards Board (ISB) to IAS, Statement of Cash flows and IFRS 2 Share based payments respectively. The amendments to Ind AS 7 are applicable to the Group w.e.f 1st April 2017.

Amendment to Ind AS 7;

The amendment to Ind AS 7 requires the entities to provide disclosures that enables the users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation statements between opening and closing balances in the balance sheet liabilities arising from financing activities to meet the disclosure requirement.

Since, the impact of proposed changes in Ind AS 7 relates to the disclosure of the items included in the financial statements, it does not have any impact on the financial position of the Group.

Amendment to Ind AS 102;

The amendment to Ind AS 102 provides specific guidance to measurement of cash settled awards, modification of cash settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash settled awards is determined on a basis consistent with that used for equity settled awards. Market based performance conditions and non-vesting conditions are reflected in the fair values, but non market performance conditions and service vesting conditions are reflected in the estimate the number of awards expected to vest. Also the amendment clarifies that the terms and conditions of a cash settled share based payment transaction are modified with the result that it becomes equity settled share based payment transaction, the transaction is accounted for as such from the date of modification. Further, the amendment requires the awards that include a net settlement feature in respect of withholding taxes to be treated as equity settled in entirety. The cash payment to the tax authority is treated as part as if it was part of an equity settlement. However the provisions of Ind AS 102 are currently not applicable to the Group.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

The expected benefits increases are based on the same assumptions as are used to measure the Group's defined benefit plan obligations as at 31st March 2017. The Group is expected to contribute Rs. 201.23 lacs to defined benefits plan obligations fund for the year ending 31st March 2018.

The significant accounting assumptions are the discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the reporting period while other assumptions constant.

If the discount rate increases /(decreases by 0.5%), the defined benefit plan obligations would decrease by Rs.127.45 Lacs (increase by Rs.137.74 Lacs) as at 31st March 2017.

If the expected salary growth increases /(decreases by 0.5%), the defined benefit plan obligations would increase by Rs.132.65 Lacs (decrease by Rs.124.06 Lacs) as at 31st March 2017.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Further in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the Projected Unit Credit Method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance Sheet.

46. FINANCIAL RISKS

In the course of business, amongst others, the Group is exposed to several financial risks such as Credit Risk, Liquidity Risk, Interest Rate Risk, Exchange Risk and Commodity Price Risk. These risks may be caused by the internal and external factors resulting into impairment of the assets of the Group causing adverse influence on the achievement of Group's strategies, operational and financial objectives, earning capacity and financial position.

The Group has formulated an appropriate policy and established a risk management framework which encompass the following process.

- identify the major financial risks which may cause financial losses to the Group
- assess the probability of occurrence and severity of financial losses
- mitigate and control them by formulation of appropriate policies, strategies, structures, systems and procedures
- Monitor and review periodically the adherence, adequacy and efficacy of the financial risk management system.

The Group enterprise risk management system is monitored and reviewed at all levels of management, Internal Auditors, Audit Committee and the Board of Directors from time to time.

Credit Risk

Credit Risk refers to the risks that arise on default by the counterparty on its contractual obligation resulting into financial loss to the Group. The Group may carry this Risk on Trade and other receivables, liquid assets and some of the non current financial assets.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2017

In case of Trade receivables, the Group has framed appropriate policy for extending credits period & limit to each customer based on their profile, financial position and their external rating etc. The collections of trade dues are strictly monitored. In case of Export customers, even credit guarantee insurance is also obtained wherever required.

Group's exposure to Credit Risk is also influenced by the concentration of risk from top five customers. The details in respect of the % of sales generated from the top customer and top five customers are given hereunder.

Particulars	Current Year	Previous Year
Revenue from Top Customer	12%	13%
Revenue from Top Five Customers	20%	20%

The credit risk on cash & cash equivalent, investment in fixed deposits, liquid funds and deposits are insignificant as counterparties are banks or mutual funds with high credit ratings assigned by the rating agencies of international repute.

Liquidity Risk

Liquidity Risk arises when the Group is unable to meet its short term financial obligations as and when they fall due.

The Group maintains adequate liquidity in the system so as to meet its all financial liabilities timely. In addition to this, the Group's overall financial position is very strong so as to meet any eventuality of liquidity tightness.

Contractual maturities of financial liabilities are given as under:

Particulars	(Rs in Lacs)		
	As at 31st March 2017	Due within 12 months from Balance sheet Date	Due beyond 12 months of Balance Sheet Date
Borrowings	210212.79	107235.39	102977.40
Trade payables	95729.88	95729.88	-
Other Financial Liability	5661.83	5329.11	332.72

Interest Rate Risk

Generally market linked financial instruments are subject to interest rate risk. The Group does not have any marked linked financial instrument both on the asset or liability side. Hence no interest rate risk.

In case of the borrowings by the Group, the Group is subject to interest rate risk on account of any fluctuation in the base prime lending rate (BPLR) fixed by the banks. Every fluctuation in the BPLR of the bank either on the higher or lower side will result into financial loss or gain to the Group.

The major portion of the Group debt are linked with the BPLR of the Indian Banks. The total proportions of these debts are Rs. 188044.32 Lacs out of the total debt of Rs. 210212.79 Lacs.

Based on the structure of net debt as at year end, a one percentage point increase in the debt would cause an additional expense in the net financing cost of Rs. 1880.44 Lacs.

Foreign Currency Risk

The Group is exposed to the foreign currency risk from transactions & translation. Transactional exposures are arising from the transactions entered into foreign currency. Management keeps a close watch of the maturity of the financial assets in foreign currency and payment obligations of the financial liabilities.

Commodity Price Risk

The main raw materials which Group procures are global commodities and their prices are to a great extent linked to the movement of crude prices directly or indirectly.

The pricing policy of the Group final product is structured in such a way that any change in price of raw materials is passed on to the customers in the final product however, with a time lag which mitigates the raw material price risk.

With regard to the finished products, the Group has been operating in a global competitive environment which continues to keep downward pressure on the prices and the volumes of the products.

In order to combat this situation, the Group formulated manifold plans and strategies to develop new customers & focus on new innovative products. In addition, it has also been focusing on improvement in product quality and productivity. With these measures, Group counters the competition and consequently commodity price risk.
