Chairman's Letter

Dear Shareholders,

On behalf of the Board of Directors and the Company, it is my pleasure to extend a warm welcome to you all to the 56th Annual General Meeting of your Company.

The Fiscal 2016 -17 was a momentous year for the Country. Two major economic reforms namely demonetization of high value currency notes and the finalization of the Goods and Services Tax (GST) were announced by the Government. As per the World Bank, demonetization will increase the formalization of the Indian economy whilst GST being a complementary reform will support the formalization.

The improvement in India's economic fundamentals has accelerated in the year with the combined impact of strong government reforms, Reserve Bank of India's inflation focus supported by benign global commodity prices.

At a time when major economies of world are undergoing slow growth and adopting protectionist policies, the Indian economy is comfortably placed and is expected to accelerate to 7.7 % during FY 2017-18.

Energetics and Explosives Businesses

In 2016-17, the consolidated turnover of ₹ 574 crores and the Profit of ₹ 32.91 crores of your Company and its wholly owned subsidiaries have been a highest since inception. This achievement was made possible inspite of stiff competition and decline in prices in the PSU tenders. The considerable volume growth could not fully reflect in the revenues due to the major decline in the prices of the finished products.

The increase in revenue for the year was due to effective follow through by our Marketing team and ably supported by the Production teams. For the Energetics Division production increased by 15%, for the 100% subsidiary IDL Explosives Limited it increased by 10% to 1,32,686 MT. Besides executing orders from the mining PSUs, the volume of business with private mining companies in India also increased.

Total Coal Production in F-17 was 672 Million Tonnes giving 3.21% growth over last years. The value of total Mineral Production (excluding Atomic and minor minerals) in F-17 was ₹ 2,42,538 Cr recording a growth of 3.8% over F-16. The mining sector is expected to grow steadily while the infrastructure sector

will grow rapidly in view of the Government's focus. We expect the demand for Energetics and explosives to steadily increase over the next 3 – 5 years. This would stretch the Company's production capabilities. The two companies have already embarked on upgradation of processes and increase in capacities to meet the growing demand.

Since 2000, the Company has been supplying to the defence and space sectors, specialised devices for the Army, Navy, ISRO, Bharat Dynamics Ltd. and DRDO establishments. With the expertise and experience gained over the years in supply of high quality items meeting stringent specs, the Company is planning to explore the growing potential in defence manufacturing under the 'Make in India' initiative of the Government of India.

Realty

Last year I informed you that 14.54 lakhs sft in Blocks 3A and 3B with MLCP alongwith central landscaping and relevant construction was completed and are ready for fit outs. Block 2 of the SEZ area 10.06 lakh sq.ft. is nearing completion. It will be ready for fit out by March 2018. Although marketing efforts are in full swing and enquiries from major international clients are being handled, we are advised by the large real estate agencies that office take-up was currently concentrated in the other growth areas of Bengaluru such as Outer Ring Road, Suburban Business District, Central Business District, Whitefield and Bannerghatta Road. These blocks are expected to reach saturation and demand in the North Bengaluru area would pick up. Our development being located in the North Bengaluru block towards the new airport should receive good demand in 2017 – 18.

The Hyderabad development has received some impetus with the IT / ITeS segment demand having increased manifold with the multinational technology companies having signed up large spaces in the current year. We have accordingly revised our plans for approval.

Investments

You would have noticed our announcement in April 2017 that the Company through its wholly owned UK subsidiary holds 10% in Houghton International Inc. whose combination with Quaker Chemical Corporation is expected to be completed by December 2017. Quaker Chemical would then be a global leader in the space of process fluids, chemical specialties, and technical expertise to the global primary metals and metal working industries. Once combined, your Company will have the benefit of 2% holding in the US listed company with synergy benefits. This will be a major asset of your Company.

I take this opportunity to convey my gratitude to my colleagues on the Board for their cooperation and valuable contributions during the year. 2016 – 17 was an extremely challenging year for the Company and I appreciate the management and employees for their efforts on building up marketing strategies, cost reduction / rationalisation and new product initiatives.

Particulars of loans, guarantees, securities and investments made by the Company, most of which are to its wholly owned subsidiaries, are in the notes to the financial statements forming part of this report.

14. OUTLOOK FOR THE CURRENT YEAR, OPPORTUNITIES AND THREATS

India has emerged as the fastest growing major economy in the world. India's gross domestic product (GDP) growth is expected to be around 7.4 per cent for fiscal 2017-18. Energy prices and inflation level continue to be at a moderate level. The proposed GST which will come into force shortly, is expected to bring rationalization of taxes and supply chains and will benefit all stakeholders. Economic growth will drive energy demand, especially coal. The Union Government has increased focus on the infrastructure sector which will enhance the consumption of cement, steel, aluminum, copper and other metals.

The "Make in India" policy of the Government of India in the Defence sector would be a game changer and is expected to bring several activities of the Company into higher revenue levels.

14.1 Energetics

The growth of GDP will drive the demand for Power, Steel, Cement and major Minerals like Coal, Iron Ore, Manganese Ore, Dolomite, Limestone, Bauxite and Copper which in turn sustains the demand for Explosives & Accessories.

In addition to the increase in demand from the Mining and Minerals sector, there will be significant increase in demand from infrastructure, transport, housing and irrigation segments. The Central and State Governments have affirmed their strong commitment towards these sectors of economy. The growth in demand in these areas over the medium and long term augurs well for the Company to deliver enhanced value to stakeholders.

The Energetics Division and its 100% subsidiary IDLEL have undertaken more projects for the upgradation and modification of processes and equipment for enhancing quality, productivity, along with safety and efficiency to deliver superior value through improved and new products and services.

For the Special Products Group the outlook is exciting with the Government of India rolling its strategic "Make in India", initiative. The group has received key technology transfers (TOTs) from DRDO and other strategic partners, to exploit the emerging opportunities.

The Company will continue its expansion plans for exports into new territories in Africa and South East Asia.

14.2 Mining and Infrastructure

Mining business in the metal sector, especially in Eastern India where we have been focusing is awaiting Supreme Court orders under the MMRDA Act. As such, very limited activity is currently being continued in mines meant for captive consumption. The

Board's Report

commercial mining activities will be taking more time as several clarifications are still awaited by the Supreme Court based on which State Governments would be required to issue orders for restart of the leases. As a result, we do not expect an immediate restart of the Division's mining activities. However, the infrastructure work is being continued on a limited scale and is expected to yield revenues as in the past.

14.3 Realty

Bangalore

The Real Estate (Regulation and Development) Act 2016, which has recently come into force, is expected to create a uniform regulatory environment and bring transparency to the sector, thereby giving a boost to investments into the sector which had turned sluggish.

The first quarter of calendar year 2017 saw India's gross office take-up of space amounting to 9.3 million sft. Bengaluru maintained its top position in comparison to 9 cities with 37% share of total absorption area. Bengaluru also retained its top position by attracting occupier interest of 3.5 million sft, which is 33% of total office leasing volume. Majority of the office take-up was concentrated on Outer Ring road, which accounted for 59%, followed by SBD, CBD, Whitefield, Bannerghatta road and other micro-markets accounting for 13%, 8%, 7%, 5% and 8% respectively.

The "Ecopolis" project, located in North Bengaluru near the Airport is expected to show growth in demand with the improving infrastructure in the Hebbal area. Already the "Ecopolis" project is drawing the attention of large international clients. We expect 2017 – 18 to be a watershed year for the project.

Hyderabad

Hyderabad market offers the lowest office rentals across major markets in South India, thereby attracting many large corporates who are planning expansion in the region. The city's real estate development has seen a major uptick due to strong political stability; coupled with its status as a prominent IT hub, availability of large talent pool, supportive government policies and improved infrastructure.

Hyderabad commercial market clocked in 0.51 million sft of total office leasing volume in Q1 2017. Out of this, IT/ITeS segment contributed to 61% of the total share followed by healthcare (20%), business centers (15%) and others (4%).

Multi-national technology companies have signed large office spaces in the last few months. The city saw the second-largest office space absorption last year after Bengaluru. Considering these emerging demand for office space, the revised plan for Hyderabad development have been made for approval.

15. RISKS & CONCERNS AND RISK MANAGEMENT

Pursuant to the Companies Act 2013 and the SEBI Regulations, the Board has authorized the Audit Committee to review the risk management systems of the Company from time to time. There is a Risk Management Committee functioning at the senior executive level that facilitates identification and evaluation of business risks related to the Company and its major subsidiary IDLEL from time to time. The Audit Committee / Board reviews the risk management framework/ systems of the Company and renders advice for minimizing adverse impact, if any.

Apart from the usual risks and concerns that affect any commercial, manufacturing organization, the key business risks and concern areas identified by the Company and its mitigation plans are as under:

15.1 Environmental Risks

Regular safety audits are carried out by internal safety audit teams and at regular intervals by external teams. General Safety Directions (GSDs) are strictly enforced in all plants within the factories to ensure minimization of risk. In addition, strict compliance of the requirements of the Explosives Act and Rules are ensured to protect the exposure of adjacent neighbourhoods to the explosives and accessories factories from undue risk. Operations are carried out to comply with emission, waste water and waste disposal norms of the local authorities of the respective factories. In addition, the Hyderabad Factory has implemented the Integrated Management System incorporating ISO 14001 and OHSAS 18001.

15.2 Operational Issues

Licensing

The Energetics Division operates a licensed factory in a highly regulated environment. Amendments / revisions in licenses are required for change in production capacities and processes, for launch of new products etc. Any significant delay in such approvals beyond normal time taken by the regulatory authorities may impact the growth prospects of the Company. The Division, therefore, ensures that approvals are applied for well in advance to avoid delay in launch dates / export of products and active follow up is maintained to get approvals in time.

Imported Raw Materials

Many of the inputs of the Company and its major subsidiary are imported, availability of which is affected by global market situations. Also, prices of such items are volatile. Timely availability of raw materials is critical for continuous plant operations. The Company addresses this by entering into long-term relationship with global raw material suppliers, with suitable price adjustment clauses to ensure regular flow of supplies.

15.3 Market Dynamics:

The Company and its major subsidiary operate in highly competitive markets where competition from all India players as well as regional players is high. The Energetics Division which manufactures explosive accessories and Mining & Infrastructure Division operate in tender-driven markets, sometimes with onerous and unreasonable performance clauses. Therefore, there is a risk of cost increases not being possible to be passed on to ultimate consumers. Any reversal in growth trend in the economy in general and weak monsoons in particular, could affect demand and consequent deceleration in manufacturing industry.

Concentration of Customers

The Mining & Infrastructure Division which undertakes mining services in coal, iron ore and limestone sectors, is exposed to business risks on account of non-availability of environmental clearances in time and lack of adequate infrastructure for dispatch of ores from the mine. In view of this, detailed review of approvals and quality of infrastructure is carried out before undertaking mining service contracts. Both the Energetics and Mining & Infrastructure Divisions are operating in the mining and infrastructure sectors, dominated by the PSUs, where the tendering system is in vogue, with the attendant risks. Missing L1 to L3 status in these tenders might result in loss of business opportunities for extended periods for the relevant tender(s).

15.4 Financial Risks:

Currency Value and Interest Rate Fluctuations

Financial risk management is done by the Finance Department at the various business Divisions and at Corporate Office under policies approved by the Board of Directors. The Company has designed a debt mix policy that also considers natural hedge available to it from its export earnings to mitigate currency fluctuation risks. Policies for overall foreign exchange loss risks and liquidity are regularly reviewed based on emerging trends. Interest risks arising out of financial debt, are normally done at fixed rates or linked to LIBOR and appropriate Bank lending rates. Adverse movement of Rupee from current levels may further impact landed cost of imported materials.

Credit Risk

The Company and its major subsidiary sometimes sell their products by extending credit to customers, with the attendant risk of payment delays and defaults. To mitigate the risk, a credit risk policy is also in place to ensure that sale of products are made to customers after evaluation of their ability to meet financial commitments through allotment of specific credit limits to respective customers. Credit availability and exposure is another area of risk.

Liquidity Risk

The Company and its major subsidiary operate in working capital intensive industries. The Company realizes that its ability to meet its obligations to its suppliers and others is linked to timely and regular collection of receivables and maintaining a healthy credit rating. Review of working capital constituents like inventory of raw materials, finished goods and receivables are done regularly by the respective Divisions and closely monitored by Corporate Finance.

With the introduction of GST during 2017 – 18, the liquidity risks may increase till the GST implementation stabilizes across the Country.

15.5 Legal and Statutory Issues:

Contractual Liability

All major contracts are reviewed / vetted by the in-house Legal Department before the same are executed. In addition, the Company engages the services of reputed independent legal counsels, on need basis. In matters of tax law and other statutory obligations the outcome of litigation cannot always be predicted. Hence, appropriate financial provisions, insurance policies and credit lines are taken to limit the risk for the Company.

Litigation Issues:

The Company is exposed to the risk of litigation of prolonged nature. Apart from the Tax Matters referred to in the Financial Statements, Litigations having a major impact on the Company include those with Udasin Mutt pertaining to leased lands of

Board's Report

Hyderabad Works, Competition Commission of India, which are being pursued by the Company with the appropriate Court/Tribunal.

15.6 IT Risks

The Company is dependent on intra-office and inter-office networks, as well as several business software operated from the Corporate Office and the business Divisions. Viral attacks, failure of system networks and consequential loss of business is attempted to be minimized by critical systems being operated on secured servers with regular maintenance, regular back up and off-site storage of data, selection of suitable firewall and virus protection systems / software. An IT policy is in place which also addresses IT risk mitigation measures.

15.7 Risks in the Realty Business

Market demand and price is a factor of macroeconomic conditions in the Country and varies from city to city as well. The Company's strategy is to entrust development to specialist developer companies who take responsibility for insulating your Company against rise in construction cost. On the other hand, timely completion of projects is a risk which is not fully mitigated and is therefore becomes a matter of close follow up by your Company. The construction industry attracts many local body, state and central regulations. Responsibility for compliance with regulations is owned jointly by your Company and the developer.

16. DIRECTORS AND KMPs

During the year there was no change in composition of Board of Directors and KMPs of the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' Section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of GOCL Corporation Limited ("the Company") as of 31st March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2017, we have audited the internal financial controls over financial reporting of GOCL Corporation Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies.

Our opinion is not modified in respect of the above matters.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information and Significant Accounting Policies

A. Corporate Information

The Company is in the business of Energetics & Explosives, Mining & Infrastructure Services and Realty.

B. Significant Accounting Policies

(a) Basis of Accounting and Preparation of Consolidated Financial Statements

The consolidated financial statements of the Company and its subsidiaries (together the 'Group') have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards prescribed under Section 133 of the Companies Act, 2013. The Consolidated Financial Statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

(b) Principles of Consolidation

The Consolidated Financial Statements relate to GOCL Corporation Limited (the 'Company') and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the Company i.e., 31st March 2017.
- (ii) The financial statement of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealized profit or losses, unless cost cannot be recovered.
- (iii) The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies were made, is recognized as "Goodwill" being as asset in the consolidated financial statements and is tested for impairment on annual basis. On the other hand, where the shares of equity in the subsidiary companies as on date of investment is in excess of cost of investment of the group, it is recognized as "Capital Reserve" and shown under the head of "Reserves & Surplus" in the consolidated financial statements. The "Goodwill"/"Capital Reserve" is determined separately for each subsidiary company and such amount are not set off between different entities.
- (iv) Minority Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit / loss for the year of the subsidiaries attributable to minority interest is identified and adjusted against the profit after tax of the Group in order to arrive at the income attributable to shareholders of the Company.
- (v) Amount of net assets and net profit or loss needs to be determined based on the amounts included in the Consolidated Financial Statements, i.e. after inter-company eliminations, such that the sum of all the individual percentages aggregate to 100% and the aggregate amounts of net assets and net profit or loss agree with the respective amounts as per the Consolidated Financial Statements.
The net asset of a subsidiary may be positive (net asset) or a negative (net liability) amount / percentage.

The Management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

- (iv) All assets and liabilities of non-integral foreign operations are translated at the year-end rates and income and expenditure at average rates. The exchange difference relating to non-integral foreign operations are accounted in a "Foreign Currency Translation Reserve" until disposal of the operations, in which case the accounted balance in "Foreign Currency Translation Reserve" is recognized as income/expenses in the same period in which the gain or loss on disposal is recognized.

(k) Investments

Long term Investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current Investments are carried individually at lower of cost and fair value.

(l) Employee Benefits

Employee benefits include provident fund, superannuation fund, employee's state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

Defined Contribution Plans

The Company's contribution to provident fund, superannuation fund and employee's state insurance scheme by the entity in the Group are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined Benefit Plans

For defined benefit plans in the form of gratuity fund the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in the Consolidated Statement of Profit and Loss in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Consolidated Balance Sheet represents the present value of the defined benefit obligation as adjusted for un-recognized past service cost, as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Short-term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (i) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (ii) In case of non-accumulating compensated absences, when the absences occur.

Long-term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled.

(m) Segment Reporting

The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / (loss) amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Group. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Group as a whole and not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

(n) Leases

Where the Group as a lessor leases assets under finance leases, such amounts are recognized as receivables at an amount equal to the net investment in the lease and the finance income is recognized based on a constant rate of return on the outstanding net investment.

Assets leased by the Group in its capacity as a lessee, where substantially all the risks and rewards of ownership vest in the Group are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year

Lease arrangements where the risks and rewards incidental of ownership of an asset substantially rests with the lessor are recognized as operating leases. Lease rental under operating leases are recognized in the Consolidated Statement of Profit and Loss on a straight line basis over the lease term.

(o) Earnings per Share

Basic earnings per share is computed by dividing the profit/(loss) after tax for the year by the weighted average number of equity shares outstanding during the year.

(p) Taxes on Income

Current tax is the amount of tax payable determined on the basis of taxable income and tax credits computed for each of the entities in the Group in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws of the respective jurisdictions where the entities are located.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the entity will pay normal income tax. Accordingly, MAT is recognized as an asset in the Consolidated Balance Sheet when it is probable that future economic benefit associated with it will flow to the entity.

Deferred tax is recognized on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognized for all timing differences. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

The Group offsets deferred tax assets and deferred tax liabilities, and advance income tax and provision for tax, if it has a legally enforceable right and these relate to taxes in income levies by the same governing taxation laws.

(q) Research and Development Expenses

Research and Development Expenditure of revenue nature is written off in the year in which it is incurred and expenditure of a capital nature is added to Property, Plant and Equipment.

(r) Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

(a) an intangible asset that is not yet available for use; and (b) an intangible asset that is amortised over a period exceeding ten years from the date when the asset is available for use.

If the carrying amount of the assets exceeds the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets such reversal is not recognised.

(s) Provisions and Contingencies

A provision is recognized when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent Liabilities are disclosed in the Notes. Contingent assets are not recognized in the consolidated financial statements.

(t) Operating Cycle

Based on the nature of products / activities of the Group and normal time between acquisition of assets and their realization in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.
